GOVERNMENT PRINTING OFFICE

WASHINGTON: 1961

LETTER OF TRANSMITTAL

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., January 6, 1961.

DEAR MR. SECRETARY:

I am transmitting the Statistics of Income-1958-59, Corporation Income Tax Returns with accounting periods ended July 1958 through June 1959. This report was prepared in partial fulfillment of the requirements of section 6108 of the Internal Revenue Code of 1954, which specifies that statistics be published annually with respect to the operation of the income tax laws. It contains the first published data on small business corporations filing returns under subchapter S of chapter one of the Code and the first information on the operation of the Life Insurance Company Income Tax Act of 1959.

As is customary, this report presents a wide variety of benchmark data on corporate activities, by size and industry classifications. In addition to the usual income and balance sheet information, a number of special features have been added. Table 6 shows the relation of net income to size of total assets. Also, the profit and business turnover ratios, introduced in the 1957-58 report, have been continued for a second year.

DANA LATHAM, Commissioner of Internal Revenue.

Hon. Robert B. Anderson, Secretary of the Treasury.

CORPORATION INCOME TAX RETURNS WITH ACCOUNTING PERIODS ENDED JULY 1958 - JUNE 1959

PERIOD COVERED AND RETURNS INCLUDED

This report summarizes corporate financial activities for the business year 1958. Income tax returns of all corporations, filed either for the calendar year 1958 or for noncalendar accounting periods ended July 1958 through June 1959, were sampled to provide benchmark statistics. Chart 1 illustrates the span of accounting periods covered in this volume.

Corporation returns are normally filed within two and a half months after the end of the accounting period. However, many corporations were granted extensions of time in which to file and many of the returns were not available for statistical work until the spring of 1960. A distribution of the number of returns and the amount of income by accounting period is shown in table 10.

The sample of returns used for 1958-59, which included both corporation income tax returns (Forms 1120, 1120L, and 1120M) and small business corporation returns of income (Form 1120-S), was designed to provide corporate statistics for all types of business activity in the United States. Every domestic and resident foreign corporation, unless expressly exempt, is required to file a return regardless of the amount of its income.

Of 1,033,000 corporation returns filed for the 1958-59 income year, 990,000 were for active corporations. Table A summarizes the number of returns filed, and shows the net income and tax levels for 1958-59 and 1957-58. The tables in this report, derived from returns as filed, combine statistics from the 44,000 small business corporation returns of income (Form 1120-S) with data from the 946,000 income tax returns of other active corporations. Data for small business corporations only are shown

in tables E and 27 through 30. Corporations filing small business returns of income are described under "Changes in law," and the methods used in sampling returns are described on pages 16-17. Financial data for inactive corporations were excluded from all tables.

A corporation may file its return in the internal revenue district in which is located either its principal office or its principal place of business. The return contains data for all units of the corporation's activities, even though its operations may extend over several states. Therefore, classification of data by geographic area indicates where the return was filed and does not indicate the place of origin of the income and tax liability. For this reason, the geographic distribution of corporation income tax return data has only limited usefulness and is not included in this volume.

Table A .- CORPORATION RETURNS: NUMBER, NET INCOME OR DEFICIT, AND TAX

	Accounting per	iods ended—	Increase or decrease (-)		
Item	July 1958- June 1959	July 1957- June 1958	Number or amount	Percent	
	(1)	(2)	(3)	(4)	
Number of returns, total	1,032,632 990,381 43,945 42,251	984,516 940,147 - 44,369	48,116 50,234 -2,118	4.9 5.3 - -4.8	
Active corporations:					
Returns with net income: Number of returns, total	611,131 25,203 43,489,773 43,201,908 287,865 511,760 18,814,304	572,936 	38,195 -5,174,229 - - 12,365 -1,767,630	6.7 -10.6 - - 2.5 -8.6	
Returns without net income: Number of returns, total Form 1120-Sthous. dol Form 1120-Sthous. dol	379,250 18,742 4,966,904 198,975	367,211 - 4,187,538 -	12,039 - 779,366 -	3.3 - 18.6	

¹Income tax liability data for 1958-59 and 1957-58 are not strictly comparable because the net income reported on Form 1120-S (introduced in 1958-59) is not subject to corporation income tax. For both years, returns with net income but no tax liebility occur as a result of special statutory deductions from net income. The tax liability is before foreign tax credit.

COMPARISON OF DATA FOR 1958-59 AND PRIOR YEARS

For the year 1958-59, the value of total assets reported on income tax returns filed by nearly one million active corporations moved past the trillion dollar level, a record that contrasts with the \$262 billion in total assets reported for 1926-27, the first year that income tax returns were used as a source of corporation balance sheet data. The number of returns, total assets, total compiled receipts, and net income, by size of total assets, for 1958-59 are shown in table B.

Table B.-ACTIVE CORPORATION RETURNS: TOTAL ASSETS, TOTAL COMPILED RECEIPTS, AND NET INCOME OR DEFICIT, BY SIZE OF TOTAL ASSETS, JULY 1958-JUNE 1989

Size of total assets	Number of returns	Total assets (Thousand dollars)	Total compiled receipts (Thousand dollars)	Net income or deficit (Thousand dollars)
	(1)	(2)	(3)	(4)
All active corporation returns	990,381		735,338,092	38,522,869

¹Deficit.

Table C shows a comparison of corporate business receipts and net income for 1958-59 with similar data for 1957-58. In comparing business receipts (formerly shown as two items, (1) gross sales, and (2) gross receipts from operations), an adjustment should be made for business receipts reported by life insurance companies under new tax provisions. As explained below, life insurance companies had reported only investment income such as dividends, interest, and rents for many years. Beginning with 1958-59, they now report premiums and other business receipts.

Total business receipts for 1958-59 amounted to \$697 billion. If the data reported by life insurance companies are excluded because of the change in reporting, the 1958-59 business receipts are \$5 billion below the \$685 billion reported for 1957-58. As shown in chart 2 and table C, returns of manufacturing corporations with total assets in excess of \$100 million showa drop in business receipts of \$8.6 billion below the 1957-58 level. This was partially offset by a gain of \$5 billion among man-

ufacturing corporations with assets of less than \$100 million. Business receipts of nonmanufacturing corporations (except life insurance companies) were about \$2 billion below 1957-58.

In comparing corporate net income for 1958-59 with net income for prior years, an allowance should again be made for life insurance companies. A decrease of \$2.5 billion in net income shown for these insurance companies is largely the result of a change in definition as explained below. Net income for companies other than life insurance amounted to \$37.6 billion for 1958-59 and \$41.0 billion for 1957-58, a drop of \$3.4 billion. Returns of manufacturing corporations with total assets of \$100 million or more show the greatest change, a drop in net income of \$2.9 billion. The remaining manufacturing corporation returns show net income \$1.3 billion below the 1957-58 level, while nonmanufacturing companies (except life insurance companies) reported a net income increase of about \$800 million.

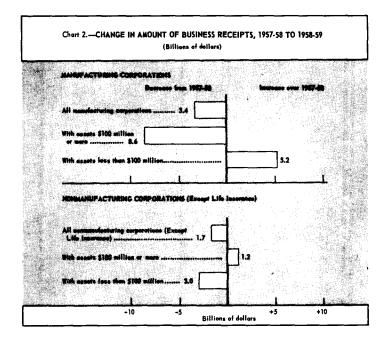

Table C.—ACTIVE CORPORATION RETURNS: COMPARISON OF NUMBER OF RETURNS, BUSINESS RECEIPTS, AND NET INCOME OR DEFICIT OF MANUFACTURING AND NONMANUFACTURING CORPORATIONS, BY SIZE OF TOTAL ASSETS, 1958-59 AND 1957-58

						(William o	lollars)					
Business receipts: 1 All active corporations	696,594	684,883	11,711	324,135	327,539	-3,404	355,598	357,344	-1,746	16,861	-	16,861
With total assets of— \$100 million or more Less than \$100 million	237,395 459,199	229,858 455,025		143,952 180,183	152,560 174,979	-8,608 5,204	78,541 277,057	77,298 280,046		14,902 1,959	=	14,902 1,959
Net income or deficit: ² All active corporations	3 8, 523	44,476	-5,953	18,500	22,738	-4,238	19,055	18,257	798	968	3,481	-2,513
With total assets of— \$100 million or more Less than \$100 million	21,070 17,453	25,341 19,135	-4,271 -1,682	10,262 8,238	13,158 9,580		9,905 9,150	8,928 9,329		903 65	3,255 226	-2,352 -161

^{1&}quot;Business receipts" for 1958-59 includes premiums and other business receipts of life insurance companies. For 1957-58 life insurance companies did not report business receipts since they were taxed only on investment income such as dividends, interest, and rents.

*Comparability of net income for the two years is affected by a change in the definition of net income of life insurance companies. For 1958-59 life insurance company net income is the gain from operations less the special deductions applicable only to life insurance companies, such as additions to reserves. For 1957-58, life insurance net income is net investment income before all special deductions.

PROFIT AND TURNOVER RATIOS

For the second successive year Statistics of Income provides information about the relationship of corporate profit to turnover of assets. Table 13 shows, for broad industry and asset size classifications, a distribution of the number of returns cross-classified on the basis of two important ratios. These ratios are net income to business receipts and business receipts to total assets. The use of electronic data processing allows the computation of these ratios separately for each return and the grouping of data into significant categories.

These ratio data allow a comparison between the range of profits of corporations in a given class and the average profit for the class as a whole. For example, the average net income for manufacturing corporations with assets greater than zero was 5.7 percent of business receipts.² Table D, however, shows the variation in net income on business receipts for manufacturing corporations for two years. Examination of table D shows that only about 9 percent of the manufacturing corporations actually had net income on business receipts of from 4 to 6 percent.

Table D.-MANUFACTURING CORPORATION RETURNS WITH ASSETS GREATER THAN ZERO: PERCENTAGE DISTRIBUTION OF NUMBER OF RETURNS BY SIZE OF NET INCOME ON BUSINESS RECEIPTS RATIO

	Accounting p	eriods ended—
Size of ratio: Net income on business receipts	July 1958- June 1959	July 1957- June 1958
	(Pei	cent)
Total	100.0	100.0
Deficit and zero percent Greater than zero, under 2 percent 2 under 4 percent 4 under 6 percent 6 under 8 percent	22.0 12.5 9.1	12.4 8.7
8 under 10 percent	5.2	3.8

Table 13 also shows the amount of total assets of corporations in each class. The inclusion of the total assets figure in the table makes it possible to derive an indication of the range in the rate earned on total assets. For manufacturing corporations having net income on business receipts of

These ratios were computed by performing the indicated division of data from each return:

(1) Net income (2) Business receipts
Business receipts Total assets

The former is frequently stated as the net income "on" business receipts (net on sales). The latter is variously stated as the "turnover of assets" or the "times" assets were turned over.

²Using data in table 3, column 11, page 33, the average profit on business receipts of manufacturing corporations may be computed as follows:

Net income (line 69)
Business receipts (line 38)

Ratios from tax return data are affected by reporting requirements. Net income is computed under the Internal Revenue Code (see page 13) while total assets are those shown on the books. The significance of the net income ratio may vary with size of the corporation. For example, a low ratio may not indicate unsatisfactory operating results when shareholders wages and salaries constitute a relatively large part of the total deductions claimed on the tax return.

4 under 6 percent and an assets turnover rate of 2 under 3, the rate of net income on total assets would be from 8 to 18 percent, computed as follows:

	Net income Business receipts	x	Business receipts Total assets	=	Net income Total assets
Minimum return on assets Maximum return	4%	×	2.0	=	8.0%
on assets	6 %	×	3.0	=	18.0%

DEPRECIATION RATIO

Table 14, page 126, relates the amount of depreciation claimed for tax purposes by a corporation to the amount of gross depreciable assets on the balance sheet. This table was obtained by computing, for each return, the ratio of depreciation claimed to the amount of gross depreciable assets reported, and then grouping the data into appropriate ratio size classes. Data are shown for each of the nine broad industry divisions.

The depreciation claimed may comprise amounts computed by one or several of the methods approved by the Internal Revenue Code and described in paragraph 26, page 224. The amount of depreciable assets is, in some cases, greater than the value of the assets on which depreciation is claimed. The latter figure cannot be readily tabulated from the corporate return form. Depreciable assets reported on the balance sheet of the return generally include assets on which accelerated amortization is claimed, and fully depreciated assets, as well as the assets for which depreciation is claimed. In addition, in the "Finance, insurance, and real estate" division, some of the assets associated with the depreciation deduction are reported as other investments or land rather than as depreciable

INCOME SUBJECT TO TAX

A new item, "income subject to tax," is introduced in table 8 of this issue of Statistics of Income. It is smaller in amount than "net income" shown throughout this report, and conforms closely to the general definition of taxable income found in the Internal Revenue Code. Because of the complexities of the various tax provisions, it is not practicable to present a statistical item defined precisely as the taxable income specified by law for all corporations.

Net income is the difference between the gross income subject to tax and the ordinary and necessary business deductions recognized for tax purposes. Income subject to tax is, for most returns, the net income minus the net operating loss deduction (from prior years) and the special deductions for dividends received, certain dividends paid, and Western Hemisphere trade corporations. Partially tax-exempt interest is included in "income subject to tax" although treated as a special deduction in the Code.

Audit adjustments and deductions for operating losses in future years (which are not ordinarily shown on the tax return) are not reflected in the estimates of income subject to tax.

Each corporation is subject to a normal tax of 30 percent on taxable income as defined by the Code, and to a surtax of 22 percent on taxable income, plus partially tax-exempt interest, in excess of \$25,000. Section 1201 of the Code provides a maximum tax rate of 25 percent on net long-term capital gain reduced by net short-term capital loss. Corporations with such long-term capital gain compute an "alternative tax" by applying the 25-percent rate to long-term capital gain and the regular normal tax and surtax rates to the balance of the taxable income. The alternative tax is reported by the corporation only if it is less than the normal tax and surtax on the total taxable income.

Because of the maximum 25-percent tax rate applicable to long-term capital gain, data in table 8 are shown separately for returns on which only normal tax and surtax rates were used (regular tax) and for those on which the 25 percent maximum rate on long-term capital gain was used (alternative tax). Effective tax rates computed from data in table 8 will show slight variations arising from the additional 2-percent tax on consolidated returns, the inclusion of partially tax-exempt interest in income subject to tax, special provisions of law, such as those applicable to mutual insurance companies, and classification of the data by size of net income rather than by size of income subject to tax.

INCOME SIZE RELATED TO SIZE OF TOTAL ASSETS

Information relating size of net income to size of total assets is shown in table 6. The number of returns, total assets, net income or deficit, tax, compensation of officers, and distributions to stockholders are shown for each size of net income or deficit and for each size of total assets within six broad industry categories. The total net incomes and the deficits shown in the table include net income and deficit reported on Forms 1120-S by small business corporations under the provisions of subchapter S, chapter 1 of the Code. The net income of these corporations is taxed through the stockholders rather than through the corporation. Therefore, net income data for corporation returns other than Form 1120-S are shown separately.

Data similar to that in table 6 were published for accounting periods ended July 1955 through June 1956 in Statistics of Income-1955, Corporation Income Tax Returns.

CLASSIFICATION OF RETURNS BY SIZE OF INCOME TAX LESS FOREIGN TAX CREDIT

Table 9 presents the first classification of corporation income tax return data by size of tax. The classification used is income tax less foreign tax credit. The table was designed to provide data with respect to the operation of Code provisions dealing with payments on declarations of estimated tax. It shows, for corporations with specified sizes of income tax after foreign tax credit, the net income, income tax liability before foreign tax credit, the credit claimed, and payments on declarations of estimated tax.

Corporations are required to file declarations of estimated tax and to make payments thereon during the tax year if the tax liability after credits is expected to exceed \$100,000. The declaration and first payment must, in general, be made by the middle of the ninth month of the annual tax year. The second payment must be made by the middle of the twelfth month. For annual accounting periods ended July through November 1958, each of the two payments was required to be 15 percent of the base. For annual accounting periods ended December 31, 1958, through June 30, 1959, the required payments were 20 percent of the base. The payments are based on the estimated actual tax liability less credits and less \$100,000. Special rules are provided for part-year accounting periods and for changing estimates of tax during the year.

PRIOR YEAR NET INCOMES

Question K, Form 1120, and question F, Form 1120-S, provide space for the corporation to enter the net income or deficit reported for the two immediately preceding years. Responses to these questions were used to measure changes in the net income of identical groups of taxpayers.

Eighty percent of the 1958-59 full-year returns provided information for one preceding year. Answers for two preceding years were available for 70 percent. Forms 1120-L and 1120-M, filed by life and mutual insurance companies, did not require the reporting of prior year income. New companies filing first or second returns could not complete the question. Also, 1958-59 part-year returns were treated as nonresponse cases to maintain comparability, in-so-far as possible, in the periods over which the incomes shown in the tables were earned.

The net incomes and deficits for the two and three year periods were classified according to the industrial activity reported on the 1958-59 return. This assured comparison of the incomes and deficits of the same taxpayers in the same industry for the two or three year period, but other differences could not be controlled. For example a taxpayer reporting prior year income may have acquired or disposed of a business unit, or may have reported for a previous accounting period of less than 12 months. Some, but not all, taxpayers with changes during the reporting period apparently adjusted prior year incomes to achieve comparability.

Corporations reporting net income usually replied to the question on the tax return and reported their income or deficit for prior years whereas corporations without net income often did not answer the question. Consequently, the prior year income or deficit was reported on a larger percentage of 1958-59 returns with net income than those without net income. As a result, the net amounts of 1958-59 incomes compared to prior year incomes are high relative to the net amount of 1958-59 income shown in other tabulations.

Prior year income data are shown by industry in tables 15 and 16. The frequency with which returns were in the same income or deficit class for both 1957-58 and 1958-59 is shown by assets size groups in table 17. Assets size classification is based on the 1958-59 return.

CHANGES IN LAW

Small business corporations taxed through share-holders (Form 1120-S).—A new departure in the taxation of small business was introduced by subchapter S of chapter 1 which was added to the Internal Revenue Code by the Technical Amendments Act of 1958. Under subchapter S, certain corporations may forego payment of corporate income tax if all shareholders consent to the taxation of corporate profits at the shareholder level. Owners of small businesses may thus have the benefits of incorporation without being subject to both the corporation and individual income taxes. To qualify for subchapter S benefits, a corporation must:

- 1. Be a domestic corporation with no more than 10 shareholders.
- Be entirely owned by shareholders who are individuals (or estates). Shareholders may not be nonresident aliens.
- 3. Have only one class of stock.
- 4. Not be a member of an affiliated group eligible to file a consolidated return.
- 5. Not receive more than 20 percent of its gross receipts from personal holding company income (rents, royalties, dividends, interest, annuities, and gains from sales or exchanges of stock or securities).
- 6. Not receive more than 80 percent of its gross receipts from sources outside the United States

The provisions of subchapter S are effective for taxable years beginning after December 31, 1957, and ending after date of enactment, September 2, 1958. To use the provisions of subchapter S for accounting periods beginning before September 2, 1958, an election had to be made within 90 days of that date. Owners of 44,000 businesses made a decision within the 90-day period to use the new provisions for accounting periods ended after September 2, 1958, and before July 1, 1959 (periods covered by this report).

Table E.—SMALL BUSINESS CORPORATION RETURNS, FORM 1120-S: NUMBER, TOTAL COMPILED RECEIPTS, NET INCOME, AND DEFICIT, BY INDUSTRIAL DIVISION, 1958-59

Industrial division	Number of Form 1120-S returns	Total compiled receipts	Net income	Deficit	
	(1)	(2)	(3)	(4)	
		(The	ousand dollars)	
All industrial divisions	43,945	11,579,638	287,865	198,975	
Agriculture, forestry, and fisheries Mining. Construction. Manufacturing. Transportation, communication, electric, gas, and sanitary services	474 3,765 8,019	90,939 85,600 985,095 2,445,281 304,320	8,650 2,854 26,034 68,547 11,277	3,829 4,866 16,043 51,018 8,460	
Wholesale and retail trade	5,814 13,182 1,171 4,254 4,743	7,055,596 2,861,250 3,799,990 394,356 151,030 459,224 2,553	118,862 46,513 64,173 8,176 27,865 23,492 284	88,407 24,258 59,813 4,336 9,878 15,767	

These small business corporations, as shown in table E, reported total compiled receipts of over \$11.6 billion dollars. Over 60 percent of these receipts were for small business corporations engaged in trade activities.

Generally, elections must be made during the first month of the accounting period or in the

month immediately preceding. Elections are not binding for future years, but if terminated, restrictions are placed on the making of succeeding elections. Other provisions of subchapter S may be found in sections 1371 through 1377 of the Internal Revenue Code.

An annual information return, Form 1120-S, Small Business Corporation Return of Income, must be filed by the corporation. The income and balance sheet statements required are comparable with those on the corporation income tax return, Form 1120, and financial data from the two types of returns were combined, where appropriate, for the corporate statistics in this report. Income and balance sheet data from Form 1120-S are also shown separately, by industry and by size of total assets, in tables 27 and 28. Selected data for these returns are shown separately in many of the tables as well as being included in the totals.

The amount of income tax liability arising from the profits of these corporations is not available, since the profits are included with other income on the individual income tax return, Form 1040, of the shareholders, and tax attributable to the corporate profit cannot be identified on that form. Statistics for the net operating loss deduction also exclude data for these corporations since this deduction is not used in determining taxable income of the corporation under subchapter S. Amounts of income tax, net operating loss deduction, and compiled net profit less income tax shown for 1958-59 are not comparable to similar amounts in prior years to the extent that they are affected by the nonreporting of tax and net operating loss deduction by small businesses filing Forms 1120-S.

Schedule K of Form 1120-S provides information on the number of small business corporation shareholders, the compensation paid them by the corporation, distributions, and the portion of taxable income attributable to long-term capital gain. Data from schedule K are shown in tables 29 and 30. A facsimile of the return, Form 1120-S, and instructions is shown on pages 258-267. Most of the items in tables 29 and 30 are described in the instructions for schedule K, page 264. Net income or deficit is the taxable income reported on line 27, page 1 of the return, and dividend distributions out of earnings and profits of the tax year is the difference between net income and the undistributed net income. All other items in the two tables were taken from schedule K. The quality of data from schedule K is affected by the complexity of the schedule and the taxpayers' unfamiliarity with it.

Life insurance companies.—The method of taxing life insurance companies was revised by the Life Insurance Company Income Tax Act of 1959 many provisions of which were retroactive to 1958. Since 1921 life insurance companies had reported only investment income and expense. Beginning with 1942 the net income for Statistics of Income was the net investment income before any special deductions. Deductions from net income for reserves and other policy liabilities, allowed in determining taxable income, were based principally on a uniform percentage of investment income applying to the entire industry. These special deductions were reflected in the statistics only through the amount of tax liability reported.

For 1958, the new law required these companies to report not only investment income but premium and other income (except capital gains). Deductions were revised to include benefit payments, insurance losses, and other ordinary business expenses. Provisions pertaining to reserve and other special needs were also revised to place the determination of each company's deductions on the basis of its own needs and experience.

In addition to changes resulting from the new law, the net income for Statistics of Income was redefined. Net income (or deficit) is now defined as the gain (or loss) from gross taxable income after all reserve and other special deductions pertinent only to life insurance companies have been made. The amount shown as net income is "Gain (loss) from operations," line 27, schedule E of the return, Form 1120L, adjusted by adding back "Interest partially tax-exempt," "Dividends received deduction," and "Operations loss deduction," lines 17, 22, and 23, schedule E of the return. Gain from operations includes net investment income.

The life insurance return differs from other corporation returns in the reporting of tax-exempt interest. Since such interest is not a part of net income, adjustments were made to exclude the special deductions pertaining to it from "Other deductions" and from "Total compiled deductions." Therefore, the compiled net profit, which includes tax-exempt interest income, does not reflect deductions shown on Form 1120L with respect to tax-exempt interest.

Table F.—LIFE INSURANCE COMPANY RECEIPTS, DEDUCTIONS, TAX, AND PROFIT, 1958 AND 1957

Item		Accounting period ended December—			
item	1958	1957			
Number of returns	1,473	1,466			
	(Billion	dollara)			
Total compiled receipts	21.4	4.0			
Business receipts ¹ All other receipts	16.9 4.5	4.0			
Total compiled deductions	20.3	0.4			
Cost of sales and operations	9.6 0.5	0.			
Other deductions (includes special life insurance company deductions for 1958)	10.2	0.			
Compiled net profit or net loss ²	1.1 1.0 0.5	3. 3. 0.			
Compiled net profit less income tax	0.6	3.			

¹These data were not reported for 1957.
²For 1958, derived from gain or loss from operations after special deductions applicable only to life insurance companies. For 1957, derived from net investment income before all special deductions.

Table F shows the effects of the above changes on the life insurance company data in Statistics of Income. Premiums and other insurance receipts, reported for 1958 for the first time since 1920, were treated as "Business receipts." Benefit payments and accruals and losses on contracts, also reported for 1958 for the first time since 1920, were treated as "Cost of sales and operations." The 1958 return form provided only for a summation of most of the other ordinary business expenses. It was often impossible to classify these business deductions in the usual pattern and the unidentifiable amounts were included in "Other deductions." "Other deductions" also includes reserve and other deductions peculiar to life insurance companies (specifically, deductions shown in schedule E of Form 1120L, line 8,

col. 2, and lines 14, 15, 19, and 25). Since many of the expenses could not be classified, the levels of the deduction items in this report, other than "Cost of sales and operations," "Other deductions," and "Total compiled deductions," were not greatly affected by the new insurance law. The difference in net income for the two years is largely due to the new definition for 1958 which places net income after the special deductions pertinent only to life insurance companies. (Investment yield, line 14, schedule A of the 1958 return Form 1120L, the amount most nearly comparable to the 1957 net income, was \$3.9 billion.)

The total compiled receipts and net income of life insurance companies are shown in table 1. In other tables where data are classified by industry, data for life insurance companies are included in the group "Insurance carriers" and in appropriate totals.

Taxable income of life insurance companies for 1958, not shown in the tables in this report, was determined by comparing the amounts of (1) taxable investment income and (2) gain or loss from operations (which includes investment income). Tax was computed on gain from operations if it were the smaller of the two amounts. If it were the larger, one-half the difference between the two amounts was added to taxable investment income to find taxable income. Gain (less loss) from operations (net income in table F less special deductions allowed corporations in general), line 27, schedule E of the return, was about \$890 million for 1958. Taxable investment income, line 14, schedule C, was about \$813 million. Taxable income derived from these two amounts, (line 3, page 1 of the return) was \$880 million.

Depreciation.—The Small Business Tax Revision Act of 1958 provided an additional, elective, first-year deduction for depreciation of new or used property purchased after December 31, 1957. This deduction is limited to:

- (1) The first year that depreciation for the property is allowable;
- (2) 20 percent of the cost, but not to exceed an aggregate deduction of \$2,000 per year in the case of corporations;
- (3) Tangible personal property with a useful life of 6 years or more.

Corporations affiliated through ownership of more than 50 percent of the capital stock and voting power (in lieu of the 80 percent specified in section 1504 of the Internal Revenue Code) and meeting all other requirements of affiliated corporations as defined by the Code, are limited to a maximum \$2,000 deduction for the entire group. This limitation is applicable even though a consolidated return is not filed.

The new deduction is applicable to tax years ended after June 30, 1958, and is in addition to the regular depreciation deduction. It may be taken by any corporation, except affiliated corporations as mentioned above, regardless of size. This deduction is combined with other depreciation in this report.

Casualty losses on certain uninsured property.—
Casualty or theft losses on uninsured property used in the trade or business (as defined by section 1231 of the Code) or on capital assets held more than 6 months (as defined by section 1221) may be deducted as ordinary losses for tax years beginning after December 31, 1957. Such losses are included in "Other deductions." Before enactment of the Tech-

nical Amendments Act of 1958, these losses were subject to the provisions of section 1231 of the Code and had to be aggregated with other gains and losses from sale, exchange, or involuntary conversion of property used in the trade or business and held more than 6 months and gains and losses from the involuntary conversion of capital assets held more than 6 months. If an aggregate net gain resulted, uninsured casualty losses were treated as long-term capital losses and were reflected in Statistics of Income only through a reduction in the amount of capital gain reported. If an aggregate net loss resulted, the net amount was presented as "Net loss, sales other than capital assets."

Net operating loss deduction.—The carryback period for net operating losses has been increased from two to three years, effective for losses sustained after December 31, 1957. An increase in the carryback period tends to decrease the net operating loss deduction shown in Statistics of Income since the amount shown is derived from prior year losses remaining to be carried forward after reduction by any profits in the carryback period.

INDUSTRIAL CLASSIFICATION

The industrial classification used for Statistics of Income has been revised to conform to the 1957 edition of the Standard Industrial Classification issued by the Office of Statistical Standards, Bureau of the Budget, Executive Office of the President. As in past years, the Standard Industrial Classification, which was developed to classify establishments has been adapted to an ownership or legal entity basis by combining appropriate groups. The new classification used for Statistics of Income contains 217 groups which are combined for most tables into 60 broad categories.

Although the definitions in the new classification conform closely to the Standard Industrial Classification, particular provisions of the Internal Revenue Code have also been considered. Therefore, the 217 groups provide for classification of regulated investment companies and life and mutual insurance companies as recognized by the Internal Revenue Code.

A detailed comparison of the industrial groups used for this report with those used in the 1957-58 report is given on pages 189-201.

EXPLANATION OF TERMS

These explanations include definitions and limitations based on income tax law, descriptions and limitations of classifications used, and adjustments made in preparing the data. They apply particularly to current year data but are also applicable to items shown in the historical tables 34-37. When using historical data, the Synopsis of Federal Tax Laws should also be consulted. Copies of all return forms referred to are shown at the end of this report.

Accounting periods.—See "Period covered," below.
Accounts and notes payable, shown in table 5,
consists of accounts payable and bonds, notes, and
mortgages payable with maturity of less than 1 year.

Alternative tax under section 1201 of the Internal Revenue Code is explained in schedule D, of the

return, Form 1120, page 232. It consists of an elective tax of 25 percent on net long-term capital gain reduced by any net short-term capital loss, plus normal tax and surtax at the usual rates on the balance of taxable income and was reported when less than the regular normal tax and surtax on the entire taxable income. Alternative tax is included in the income tax shown in this report.

Amortization is the sum of (1) deductions taken in lieu of depreciation for emergency facilities (under section 168 of the 1954 Code), and grain storage facilities (section 169), and (2) the amounts of deferred expenses written off in 1958 for research and experimental expenditures (section 174), exploration and development expenditures (sections 615 and 616), organizational expenditures (section 248); and trade-mark and trade name expenditures (section 177).

Each type of deduction comprising amortization is elective. Because of the choice of treating some amortizable expenditures as fully deductible current expenses and because of the nature of the various expenditures being written off, most of the deduction is attributable to the writeoff of emergency facilities. Section 168 provides for the amortization of such facilities over a 60-month period, with the privilege of changing to regular depreciation at any time. A considerable lapse in time between certification as an emergency facility and the beginning of amortization may result from (1) the time necessary to complete the facility and (2) an election to begin amortization with the next full tax year after acquisition or completion of the facility. Full amortization of some facilities brought into production in the early part of the emergency period may be reflected in the gradual decrease in the total amortization claimed.

Instructions for the reporting of amortization are shown on page 224.

Assets and liabilities are those reported on end-of-year balance sheets. See "Period covered" below. The classification "Assets zero or not reported" is used for corporations without assets, foreign corporations doing business in the United States (except foreign insurance companies providing balance sheet data for the United States branches), and for the small number of corporations failing to supply balance sheet information.

Among the corporations without assets are those making final returns where there were no remaining assets and those where balance sheet data were omitted to prevent duplication of assets of a merging corporation reported both on its own final return and on the return of the acquiring corporation

Bad debts.—Bad debts occurring during the year or a reasonable addition to a bad debt reserve may be taken as a deduction. In the case of mutual savings banks, domestic building and loan associations, and cooperative banks without capital stock and operated for mutual purposes without profit the amount claimed is deemed reasonable, by law, so long as it does not exceed the lesser of (1) taxable income before the bad debt deduction, or (2) the excess of 12 percent of deposits at end of year over the sum of surplus, undivided profits, and reserves at the beginning of the year.

Bonds, notes, mortgages payable. —Length of time from maturity is based on date of balance sheet

rather than date of issue. Accordingly, long-term obligations nearing maturity are classified, together with short-term obligations, as having maturity of less than 1 year.

Bonds and mortgages payable shown in table 5 are those having maturity of one year or more.

Business receipts.—This item is, in general, the gross operating receipts of the corporation less returns and allowances. It is comparable to the sum of the two items, gross sales and gross receipts from operations, shown in previous reports. Operating costs are shown as deductions.

Business receipts include rents reported as a principal business income by real estate operators and by certain types of manufacturing, public utility, and service corporations. These corporations include manufacturers who frequently rent rather than sell products, such as tabulating equipment, lessors of public utility facilities such as docks, warehouses, and pipelines, and rental services such as automobile and clothing rental agencies.

Sales reported on certain nonconsolidated returns of financial corporations require special treatment for statistical purposes. In lieu of gross sales and cost of goods reported by investment and holding companies (other than operating holding companies), security and commodity brokers, dealers, and exchanges, and real estate subdividers, developers, and operative builders, the net profit or loss from sale of securities of real estate is treated as a net gain (or loss) from sales of property other than capital assets. Net gains and losses from other sales reported by these companies and by insurance carriers other than life or mutual are included in "Other receipts" and "Other deductions."

Throughout the finance division, if business receipts were itemized on the return they were allocated to specific income items (e.g., interest, rents) with the exceptions of rent and cooperative apartment assessment rent reported by real estate operators which were allocated to business receipts.

Business receipts to total assets ratio.—See page 5.

Capital assets less reserves in table 5 include depreciable, depletable, and intangible assets plus land, reduced by accumulated amortization, depreciation, and depletion.

Capital gain or loss is (1) the gain or loss from sale or exchange of "capital assets" as defined by section 1221 of the 1954 Code, and (2) the aggregate net gain from sale or exchange of certain "property used in the trade or business" and from involuntary conversion of such property and of "capital assets" held for more than 6 months as provided in section 1231. Casualty losses on uninsured property or capital assets are excluded in determining gain or loss from involuntary conversions. (See pages 8-9.)

An alternative tax may be computed for returns with a net long-term capital gain in excess of net short-term capital loss. (See "Income tax.")

Losses from sale or exchange of capital assets are allowed only to the extent of capital gains, but a net capital loss, reduced by capital gains in intervening years, may be carried over to the five succeeding taxable years. An aggregate net

loss from sale or exchange of "property used in the trade or business" and from involuntary conversion of such property and of "capital assets" is treated as an ordinary loss.

In computing capital gains and losses-

"Capital assets" (as defined by section 1221) consists of all property held by taxpayer except: (1) property properly includible in inventory, or property held primarily for sale in the ordinary course of trade or business; (2) depreciable and real property used in trade or business; (3) accounts and notes receivable acquired in the ordinary course of trade or business for services rendered or from sale of property includible in inventory or ordinarily held for sale; (4) Government obligations issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from date of issue; and (5) certain copyrights, literary, musical, or artistic compositions or similar properties.

"Property used in the trade or business" means real property and depreciable property, used in the business and held for more than 6 months (but not certain copyrights, etc.), and certain timber, coal, unharvested crops, and livestock.

"Short-term" pertains to gains or losses from property held 6 months or less; "long-term" to property held over 6 months.

Capital stock.—If capital stock shown on a balance sheet could not be identified as common or preferred, it was tabulated as common stock.

Compensation of officers.—This item includes amounts reported on the income statement of the return or identified in supporting schedules. Amounts of compensation of officers were identifiable separately on 598,000 of the 990,000 active corporation returns covered in this report. On many returns officers' compensation was combined with other deductions.

Consolidated returns.—A single income tax return may contain the combined financial data of two or more corporations meeting the following requirements:

- (1) A common parent corporation owns at least 80 percent of the voting power of all classes of stock and at least 80 percent of each class of nonvoting stock (except stock which is limited and preferred as to dividends) of at least one member of the group.
- (2) These same proportions of stock of each other member of the group are owned within the group.

The filing of a consolidated return constitutes an election of group reporting which must, with certain exceptions, be followed in subsequent years. (See table C, Synopsis of Tax Laws.) Because of the Technical Amendments Act, enacted September 2, 1958, consolidated groups might again choose to file consolidated or nonconsolidated returns for the first accounting period for which returns could be filed after September 2, 1958 (including returns filed under an extension of time). Because of this new election privilege, data for some companies may have moved into new industry and size classifications for 1958-59. No measure of the changes in data caused by the privilege is available.

A consolidated return (filed by the common parent) is treated as a unit, each classification being determined on the basis of the combined data of the affiliated group. Filing changes, to or from a consolidated return basis, affect year-to-year comparability of data in each classification into which the individual companies or affiliated group would normally fall. The number of consolidated returns filed and the number of subsidiaries (exclusive of the common parent corporation) are shown in table G.

Table G.-NUMBER OF CONSOLIDATED RETURNS AND SUBSIDIARIES, BY INDUSTRIAL DIVISION

Industrial division			Number of subsidiaries with accounting periods ended—		
	July 1958-	July 1957-	July 1958-	July 1957-	
	June 1959	June 1958	June 1959	June 1958	
	(1)	(2)	(3)	(4)	
All industrial divisions	3,719	3,888	13,656	13,512	
Agriculture, forestry, and fisheries.	21	24	69	78	
	209	146	601	498	
Construction	135	169	307	339	
	1,001	933	3,509	3,082	
electric, gas, and sanitary services	336	341	1,862	1,831	
Wholesale and retail trade	829	995	2,888	5,156	
	808	810	2,559	2,615	
	374	436	1,852	1,868	
	6	34	9	45	

An additional surtax of 2 percent of taxable income computed (1) before deduction of partially tax-exempt interest, and (2) by excluding taxable income of regulated public utilities and Western Hemisphere trade corporations is imposed on affiliated groups filing consolidated returns.

For more detailed information and treatment prior to 1958-59, see table C, Synopsis of Laws.

Contributions or gifts.—Deductions for charitable contributions are limited by law to 5 percent of the net income (before this deduction). The deduction may include a carryover of excess contributions from the two preceding years as permitted by section 170 of the 1954 Internal Revenue Code.

No contributions or gifts are reported for tax purposes by mutual insurance companies since by law they report only investment expenses.

Cost of sales and operations.—Identifiable amounts of taxes, depreciation, amortization, depletion, advertising, pension and other employee benefit plan contributions reported in these costs were transferred to their specific headings.

This item is comparable to the sum of the two items, cost of goods sold and cost of operations, shown in previous reports. See "Business receipts," for use of net profit or loss for certain industrial groups.

Current assets.—In historical table 36 specified current assets consist of cash, notes and accounts receivable less reserve for bad debts, inventories, and, for banks and trust companies, mortgage and real estate loans. For 1954-55 and subsequent years specified current assets also include prepaid expenses and supplies.

The balance sheet schedule on the income tax return does not require classification of assets and liabilities as current or noncurrent. Therefore "Specified current assets" include only the accounts shown above.

Current liabilities.—In historical table 36 for 1949-50 through 1953-54 specified current liabili-

ties consist of accounts payable, and bonds, notes, and mortgages payable with original maturity of less than one year. Beginning with 1954-55 they consist of accounts payable, bonds, notes, and mortgages payable with maturity less than one year from date of balance sheet, and accrued expenses. For 1957-58 and 1958-59, they also include deposits and withdrawable shares (formerly in "Other liabilities"). See also Statistics of Income 1954, Corporation Income Tax Returns, page 23, for explanatory note concerning the change in definition of current bonds, notes, and mortgages payable.)

The balance sheet schedule on the income tax return does not require classification of assets and liabilities as current or noncurrent. Therefore "Specified current liabilities" include only the accounts shown above.

Declaration of estimated tax.—See Form 1120-ES and instructions, pages 268-269, and "Payments on declarations of estimated tax" below.

Deficit. — See "Net income or deficit."

Depletion may be based on cost or, in the case of natural deposits, on a fixed percentage of gross income, less rents and royalties paid, from the depletable property. Percentage depletion may not, however, exceed 50 percent of the taxable income from the property, computed without the depletion deduction. Percentage depletion rates for each type of deposit are listed in section 613 of the Code and range from 5 to 27 1/2 percent.

Deposits and withdrawable shares consist primarily of deposits held by banks and savings institutions. Other taxpayers occasionally use this item on the return form to report such liabilities as contingent and contract deposits. The amounts were tabulated as reported.

Depreciable assets.—For life and mutual insurance carriers filing returns on Forms 1120L and 1120M, and for all other insurance carriers which filed balance sheets in the form required by state laws in lieu of the income tax schedule, depreciable assets include only the home and branch office buildings and equipment. Other real estate holdings of these companies are included in "Other investments."

For the industry group "Real estate, except lessors of real property other than buildings," land and buildings are included in "Other investments," "Depreciable assets," or "Land" according to the method of reporting used on the return.

Depreciation.—This deduction is a composite amount resulting from the application of the following methods of depreciation allowed by the 1954 Code: straight line, declining balance, sum of the years-digits, and other methods. The accelerated methods of depreciation are applicable, in general, to tangible property acquired after December 31, 1953. This item also includes the additional first year depreciation deduction (see page 8). Amounts of depreciation identifiable in the cost of goods sold and cost of operations schedules are also included in this amount of depreciation. Methods of computing depreciation are further described in the return instructions, paragraph 26, pages 224-225.

Distributions to stockholders include distributions reported as a part of the analysis of earned surplus and undivided profits by most corporations,

actual (but not constructive) distributions reported by small business corporations filing Form 1120-S, and distributions by regulated investment companies. Liquidating dividends are not included in the amounts shown.

Dividends received.—Dividends, domestic corporations exclude those dividends (reported on Forms 1120, 1120L, and 1120M) received from certain domestic corporations not subject to income tax under chapter 1 of the Code. The excluded dividends were added to "Other receipts" and include dividends from China Trade Act corporations, corporations deriving a large percentage of their gross income from sources within a possession of the United States, and corporations exempt from income tax under sections 501 and 521 of the Code.

The sources of dividends received by small business corporations filing Form 1120-S were not reported and all such dividends are included in dividends, domestic corporations.

Corporations, other than small business corporations filing returns on Form 1120-S, are allowed a deduction from the net income with respect to dividends from domestic corporations and certain dividends from foreign corporations doing a substantial volume of business within the United States. If the sum of these deductions is larger than the net income, a net operating loss (subject to the carryback and carryover provisions of section 172 of the Code) results and the return is nontaxable. Computation of the dividend deduction is shown on page 217 and explained in paragraphs 36 and 37, page 226.

Earned surplus and undivided profits is a net figure after deduction of any negative amounts reported.

Employee benefit plans other than those within the purview of section 404 of the 1954 Code include insurance plans, noninsured death benefits, health, accident, and other welfare benefits deductible under section 162.

Estimated tax.—See return Form 1120-ES and instructions, pages 268 and 269, and "Payments on declarations of estimated tax" below.

Excess profits tax.—The excess profits tax shown in historical table 35 is that imposed by section 430 which was added to the 1939 Code by the Excess Profits Tax Act of 1950, effective July 1, 1950. The amounts shown are after limitation and certain adjustments and before credit for foreign taxes paid. This tax terminated December 31, 1953. For returns with accounting periods beginning before and ending after that date the tax is a prorated amount determined according to the number of days in the accounting period before January 1, 1954.

Foreign tax credit.—The foreign tax credit is a deduction from income tax allowed domestic corporations for income, war-profits, and excess profits taxes paid or accrued (or deemed to have been paid under section 902 of the Code) during the tax year to foreign countries or United States possessions. Income tax shown in this report is before the foreign tax credit.

When the foreign tax credit is taken, no deduction for the above foreign taxes may be taken in computing taxable income. The credit allowable with respect to each country to which taxes are paid is limited to the same proportion of the total tax (before foreign tax credit) which the taxable

income from the country (but not in excess of total taxable income) bears to the taxpayer's total taxable income. The tax credit shown is after this limitation and is the amount reported on returns with income tax liability by corporations choosing to take the credit in lieu of a deduction in determining taxable income. It is, therefore, not a measure of foreign taxes paid.

Form 1120-S.—See page 7.

Inactive corporations are defined as those which report no item of income or deduction. Returns are filed by inactive corporations in accordance with the regulation that a corporation existing during any portion of a year must file a return. The only information shown for inactive corporations is the number filed, in tables A and 34.

Income subject to tax.—See pages 5-6.

Income tax consists of normal tax, surtax, and alternative tax. The normal tax is 30 percent of the taxable income (defined below). Surtax is 22 percent of taxable income (plus partially tax-exempt interest) in excess of \$25,000. The alternative tax under section 1201 consists of a tax of 25 percent of net long-term capital gain reduced by any net short-term capital loss, plus the regular normal tax and surtax on the balance of taxable income, and is reported only if it is less than the regular normal tax and surtax. Income tax also includes the 2 percent additional tax imposed on consolidated returns.

Included with the income tax for returns with net income is a small amount of tax reported on returns without net income under special provisions applicable to certain insurance companies and to mutual savings banks having separate life insurance departments.

The income tax shown in this report is before credit for foreign taxes paid and does not include personal holding company tax under section 541 of the 1954 Code.

Industrial classification.—Each return was classified according to the business activity which accounted for the largest percentage of the total receipts. Even though a corporation had numerous kinds of activities, all of the data from its return are included in a single industrial group. Corporation data classified by industry are, therefore, necessarily subject to limitations.

Year-to-year changes in the classification of specific corporations result from mergers, other alterations in corporation activity or organization, and from the privilege of filing consolidated returns. Changes in the industrial classification structure, based on revisions in the Standard Industrial Classification made in 1957, also resulted in reclassification of some corporations for 1958-59. Comparisons of the industrial groups used for 1958-59 with those used in the 1957-58 report are shown on pages 189-201.

Intangible assets.—The corporation income tax return provides for the separate reporting of intangible assets subject to amortization. Intangible assets can be amortized for income tax purposes only if they have definite life and value. Since definition, valuation, and life of intangible assets vary from business to business no definitive description of this item can be given.

Interest on Government obligations.—Interest on obligations issued by the United States or its in-

strumentalities on or after March 1, 1941, is wholly taxable.

Interest on United States savings bonds and Treasury bonds owned in excess of the principal amount of \$5,000 issued prior to March 1, 1941, and interest on obligations of instrumentalities of the United States issued prior to March 1, 1941, is subject to surtax only. However, this interest, when included in the net income of a small business corporation reporting on Form 1120-S loses its identity and is fully taxable to the shareholder.

Interest on obligations of States, Territories, United States possessions, or their political subdivisions, or of the District of Columbia, and interest on United States obligations issued on or before September 1, 1917, and on all postal savings bonds is wholly tax-exempt. Amounts shown are less amortizable bond premium.

Interest paid.—Limitations applicable to this deduction are outlined in the return form instructions, paragraph 21, page 224.

Inventories.—Amounts reported as inventories on nonconsolidated returns by investment and holding companies (other than operating holding companies), security and commodity brokers, dealers, and exchanges, and real estate subdividers, developers, and operative builders are included in "Other investments." Inventories reported by insurance carriers other than life or mutual are included in "Other assets." Inventories include growing crops reported as assets by agricultural concerns.

Investments.—Obligations of States, Territories, and United States possessions include obligations of their political subdivisions and of the District of Columbia. United States obligations include those of instrumentalities of the Federal Government. Government obligations which could not be identified as to type were classified as "Investments, Government obligations, not stated." Investments which could not be classified at all are included, with nongovernment investments, in "Other investments." Investments include real estate not reported as a capital asset.

Investments shown in table 5 do not include mortgage and real estate loans.

Land.—Land acquired and certified as an emergency facility is amortizable under the provisions of

section 168 of the 1954 Code relating to emergency facilities. The net value of land, after deduction of this amortization, is reported on the balance sheet.

Liabilities. -- See "Assets and liabilities."

Net gain or loss, sales other than capital assets is the net gain or loss from the sale or exchange of (1) depreciable and real property used in trade or business; (2) accounts and notes receivable acquired in the ordinary course of trade or business for services rendered or from sale of property includible in inventory or ordinarily held for sale; (3) Government obligations issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from date of issue; (4) certain copyrights, literary, musical, or artistic compositions or similar properties; and (5) securities by dealers. (See "Capital gain or loss" for treatment of certain depreciable and real property used in trade or business and held over 6 months and pages 8-9 for change in the treatment of certain uninsured casualty losses.)

Amounts reported as profit or loss from sale of securities and real estate by investment and holding companies (other than operating holding companies) and by security and commodity brokers, dealers, and exchanges, and profit or loss from sale of real estate by real estate subdividers, developers, and operative builders are included in this item.

Net income on business receipts ratio. -See page 5. Net income or deficit is the difference between the gross income subject to tax and the ordinary and necessary business deductions allowed by the Code. The difference between net income and the smaller amount on which tax is imposed is shown below under "Taxable income."

Net income is reported on line 32, Form 1120 as "Taxable income before net operating loss deduction and special deductions," and on line 27, page 1 of Form 1120-S as "Taxable income." Net income for life insurance companies, Form 1120L, is described on pages 7-8. The amount tabulated from Form 1120M is "Net investment income" line 18.

Distribution of returns by size of net income or deficit is shown in table H.

Table H .- NUMBER OF RETURNS WITH ASSETS GREATER THAN ZERO AND RELATED NET INCOME OR DEFICIT, BY SIZE OF NET INCOME OR DEFICIT, JULY 1958-JUNE 1959

Net operating loss deduction.—A net operating loss must be carried back as an offset to net income during the statutory carryback period before being carried forward. The deduction shown in Statistics of Income is derived from the net operating losses of prior years remaining as a carryover offset to net income for the year tabulated. It does not take into account any carryback from a succeeding tax year which may subsequently be made. The 1939 Code provided a one year carryback and a five year carryforward for losses sustained after December 31, 1949, and before January 1, 1954. The 1954 Code provides a two year carryback and a five year carryforward for losses sustained after December 31, 1953, and before January 1, 1958. Losses sustained after that date may be carried back 3 years. The carryforward period remains 5

See paragraph 33, page 226, for further explanation of the net operating loss deduction.

Net worth in historical table 36 consists, in general, of capital stock and surplus. The items included are preferred and common stock, paid-in or capital surplus, surplus reserves, and earned surplus and undivided profits. For 1954-55, reserves for estimated expenses, reported separately for that year only, are also included.

Noncalendar year returns.—This classification includes returns with full-year accounting periods ended in the months July 1958 through November 1958 and January 1959 through June 1959. See "Part year returns."

Nontaxable returns with net income.—The net income presented in this report is the amount computed before taking the special deductions allowed corporations with respect to net operating losses of prior years, dividends received, certain dividends paid by public utilities, and Western Hemisphere trade. When these deductions equal or exceed the net income, the return is nontaxable.

Number of returns excludes returns of inactive corporations except in tables A and 34 where inactives are included in the total number of returns. The number of small business corporation returns of income, Form 1120-S, is included in each total and is also shown separately in most tables.

The number of returns of unincorporated businesses electing to be taxed as corporations under section 1361 of the 1954 Code are excluded from all tables. A count of these returns appears below:

	Number of unincorporated businesses filing
<u>Year</u> l	corporation returns
1958-59	559
1957-58	378
1956-57	223
1955-56	229

1Data for 1954-55 are not available.

Number of subsidiaries consists of the number of affiliated corporations other than the common parent corporations which were included inconsolidated income tax returns.

Other assets are those not reported separately on the return and include sinking funds; other funds;

deferred charges; suspense items; interest, discount, coupons, and dividends receivable; and guaranty deposits. Other assets of life insurance companies include market value of real estate and bonds and stocks in excess of book value; interest, rents, and premiums due; and agents' balances. Other assets of banks include assets held in trust if included in the banks' assets.

Other deductions include administrative, general and office expenses; salaries and wages not reported elsewhere on the return; bonuses and commissions; delivery charges; freight and shipping expenses; payments in connection with lawsuits; sales discount; selling costs; travel expenses; unrealized profits on installment sales; losses by abandonment, theft, fire, storm, shipwreck, or other casualty, including war losses and uninsured casualty losses on real and depreciable property and capital assets held more than 6 months; negative amounts reported under income; and Federal Deposit Insurance Corporation assessments reported by banks. For "Other deductions" of lifeinsurance companies, see pages 7-8.

Other investments. - See "Investments."

Other liabilities include deferred and suspense items; dividends payable; funds held in trust; borrowed securities; outstanding coupons and certificates; and overdrafts. "Other liabilities" of life insurance companies include the net value of outstanding policies and annuities and borrowed money. "Other liabilities" of banks include bank notes in circulation.

Other receipts include amounts not elsewhere reported on the return such as: Profits from sales of commodities other than the principal commodity in which the corporation deals; income from minor operations; bad debts recovered; cash discounts; income from claims, license rights, judgments, and joint ventures; net amount under operating agreements; profit from commissaries; profit on prior years' collections (installment basis); profit on purchase of corporation's own bonds; recoveries of bonds, stocks, and other securities; refunds for cancellation of contracts, for insurance management expenses, and processing taxes; and income from sales of scrap, salvage, or waste.

Paid-in or capital surplus is a net figure after deduction of any negative amounts reported.

Part year returns are those with accounting periods of less than 12 months resulting from newly organized businesses, liquidations, reorganizations, mergers, and changes to new annual accounting periods. Part year returns used in preparing this volume were those with accounting periods ended in the months July 1958 through June 1959.

Payments on declarations of estimated tax.—See return Form 1120-ES and instructions, pages 268 and 269. Corporations with accounting periods ended July through November 1958 were required to pay 30 percent of the estimated tax in lieu of the 40 percent shown in paragraph 6 of the return instructions and the installments, paragraph 7, were 15 percent.

Pension plans include pension, annuity, stock bonus, profit-sharing, or other deferred compensation plans, contributions to which are deductible by the employer under section 404 of the 1954 Code.

Period covered.—This report, summarizing corporate financial activities for the business year 1958, is derived from returns with accounting periods ended July 1958 through June 1959. Income tax law requires that returns be filed for the annual accounting period customarily used by the corporation in keeping its books. (The law also requires that, in general, the accounting period close at the end of the month.) Corporations tend to choose annual accounting periods that best fit their business cycle and many file noncalendar year returns. Thus, it is necessary, in preparing statistics from tax returns representative of all corporations for a business year, to combine data for both calendar and noncalendar year accounting periods. Returns from which the statistics were compiled for this report include calendar year returns with accounting periods ended December 31, 1958, and noncalendar year returns with accounting periods ended July through November 1958 and January through June 1959.

Although representative of the business year 1958, a span of some 23 months exists between the beginning of the first included accounting year (August 1, 1957) and the end of the last included accounting year (June 30, 1959). Thus, business receipts is the sum of business receipts for some corporations for the 12 months ended July 1958 plus business receipts for corporations with other accounting periods, and thus includes some receipts for each of 23 different months. Also, balance sheet items, such as end-of-year inventories and investments, are combinations of data representative not only of the position of many companies at December 31,1958, but of some companies at July 31, 1958, and of other companies 11 months later, or June 30, 1959.

Tables 10 through 12, and table 21 show data separately for calendar and noncalendar year periods.

Personal holding company schedules are filed by corporations meeting the tests prescribed on page 236. Such companies are subject to an additional tax on undistributed income (exclusive of long-term capital gains) imposed by section 541 of the Internal Revenue Code. Computation of undistributed personal holding company income and the tax rates are shown on page 233 and the items are explained on pages 237-238. "Personal holding company income" is defined on page 236 and reported in the schedule shown on page 234. Personal holding company income does not necessarily represent the total gross income of the corporation. Line 1 of the schedule PH, facsimile on pages 233-238, was used as the source of "corporate net income or deficit;" line 18, as the source of "undistributed personal holding company income;" and the schedule at the top of the second page of the facsimile, as the source of personal holding company income and its components. Total assets are those reported on the balance sheet of the corporation in schedule L, Form 1120, facsimile on page 218. Personal holding company schedules filed by nonresident foreign corporations were not used for this report.

Prior year net income or deficit.—See page 6.
Rents received consist of gross amounts. Depreciation, repairs, interest, taxes, and other ex-

penses, which are deductible from gross rents, are included in the respective deduction items. See also "Business receipts."

Reserve for bad debts includes reserves reported for mortgage and real estate loans and may, therefore, exceed the amount of notes and accounts receivable reported.

Returns with or without net income.—See definition of net income above. Returns with equal income and deductions are included, with deficit returns, in the classification "Returns without net income" except in table 17 where the number is shown separately.

Royalties consist of gross amounts received. Depletion based on royalties was reported in deductions.

Small business corporation returns.—See page 7. Specified current assets.—See "Current assets." Specified current liabilities.—See "Current liabilities."

Surplus and undivided profits in table 5 consists of surplus reserves, paid-in or capital surplus, and earned surplus and undivided profits, less negative amounts reported.

Taxable income.—A considerable difference exists between the amount of net income presented in this report and taxable income as defined by the Code. Most of this difference results from certain statutory deductions used in computing taxable income but not used in computing net income. Only ordinary and necessary business deductions, as allowed and computed under the Internal Revenue Code, are used in determining net income. Additional deductions used in computing taxable income include:

	Sec	tion
	of	Code
Net operating loss deduction (derived from		
losses in other tax years)		172
Deductions for dividends received 243,	244,	245
Deduction for certain dividends paid by public		
utilities		247
Deduction allowed companies qualifying as		
Western Hemisphere trade corporations		922
Deduction allowed regulated investment com-		
panies for dividends paid		852
	losses in other tax years)	Net operating loss deduction (derived from losses in other tax years)

Some additional differences between net income and taxable income result from tax provisions for insurance companies.

See also "Income subject to tax," pages 5-6.

Taxes paid excludes (1) Federal income and excess profits taxes, (2) estate, inheritance, legacy, succession, and gift taxes, (3) income and profits taxes paid to a foreign country or possession of the United States if any portion was claimed as a tax credit, (4) taxes assessed against certain local benefits, (5) Federal taxes paid on tax-free covenant bonds, and (6) unidentifiable amounts of taxes reported in cost of sales and operations.

Total compiled receipts.—Total compiled receipts includes the gross taxable receipts before deduction of cost of sales and operations and net loss from sale of property other than capital assets. It also includes nontaxable interest, but excludes all other nontaxable income recognized by the corporation. For items included, see table 2.

DESCRIPTION OF THE SAMPLE AND LIMITATIONS OF DATA

The statistics in this report reflect the activities of all corporations filing returns with accounting periods ended July 1958 through June 1959. The total number of such returns is estimated to be 1,033,000. This figure includes income tax returns filed on Forms 1120, 1120L (life insurance), 1120M (mutual insurance), and small business corporation returns of income filed on Form 1120-S. It also includes an allowance for the late filing of returns pertaining to these fiscal periods. The total number of returns includes about 42,000 returns of inactive corporations, although no data were tabulated from these returns. Both domestic and resident foreign corporations file returns.

The number of returns excludes tentative returns and amended returns not associated with original returns, and about 560 unincorporated businesses which elected to be taxed as corporations. Returns filed by exempt organizations are also excluded.

Description of the sample

The returns were stratified by type of return, by volume of business, by taxable and nontaxable status, by taxpayment status, and by the 64 district offices and the International Operations Division. The sample rates for each sample class were determined so as to achieve approximate optimum allocation of the sample with respect to the volume of business. The sample returns were selected using prescribed serial number endings.

The returns were sorted and numbered in several groups by the district offices for their own operations. For sampling purposes, these groups were combined into seven sample classes which can be identified as follows:

Forms 1120, 1120L, and 1120M:

Sample class A.—Returns with gross sales, gross receipts, or total income of \$1,000,000 or more which also had a net income or deficit of \$1,000,000 or more or total assets of \$10,000,000 or more.

Sample class B.—Consolidated returns, life and mutual insurance company returns, and returns with overpayment of tax which were not included in sample class A. In addition, other returns with gross sales, gross receipts, or total income of \$1,000,000 or more which were not included in sample class A.

Sample class C.—Returns in which at least one of the items—gross sales, gross receipts, or total income—was between \$100,000 and \$1,000,000 but none with \$1,000,000 or more.

Sample class D.—Returns with gross sales, gross receipts, or total income, each less than \$100,000.

Form 1120-S:

Sample class E.—Returns with gross receipts or total income of \$1,000,000 or more which also had net income or deficit of \$1,000,000 or more or total assets of \$10,000,000 or more.

Sample class F.—Returns with gross receipts or total income of \$1,000,000 or more which were not included in sample class E.

Sample class G.—Returns with gross receipts or total income each less than \$1,000,000.

For each of these classes the number of returns filed, the number of returns in the sample, the prescribed sampling rates, and the achieved sampling rates are given below.

Number of returns and sampling rates, by sample class

	Number of			ng rates
Sample class	Filed	In sample	Pre- scribed	Ach1eyed
All classes	² 1,032,766	155,550		
-M, total	988,615	149,948		
A	7,478	7,478	1.0000	1.0000
В	82,256	80,576	1.0000	0.9796
C	310.872	31.231	0.1000	0.1005
D	588,009	30,663	0.0500	0.0521
Form 1120-S, total	44.151	5.602		
E	2	2	1.0000	1.0000
F	2.029	1.768	1.0000	0.8714
G	42,120	3,832	0.1000	0.0910

1 Includes both active and inactive corporation returns.

2 There is a slight disparity between the total number of returns in this table and the rounded estimate of 1,032,632 in table A.

Method of estimation.—The total number of returns filed was determined from counts made in each of the district offices and reported to the Statistics Division. The adequacy of response by sample class was reviewed by applying the prescribed sample rates to the number of returns filed and comparing this expected sample size with the number of sample returns actually received. When receipts of tax returns appeared to be inadequate, district offices were requested to transmit additional returns. Sample data were extended to the sample class totals by weights obtained by dividing the total number of returns filed in a sample class by the number of sample returns received in that class.

Limitations of data

Sampling variability.—The maximum sampling variability for most United States totals is only a fraction of 1 percent. This occurs because returns in sample classes A and B which are practically without sampling error account for a large part of most amount estimates. The maximum sampling errors in important totals, for all industry groups combined, are given below. Approximately 19 out of 20 totals estimated from similarly selected samples would fall within these ranges.

<u>Item</u>	Percent
Net income Deficit Business receipts Income tax Total assets	±1.00 ±0.06 ±0.06

Table I shows relative sampling errors at the 95 percent level for selected frequency estimates. In many instances, it should be noted, the sampling error for the frequency may be larger than for the related amount. This may arise when the returns in sample classes A and B, which are practically without sampling error, account for a large part of an amount estimate for an industry, but for a smaller proportion of the number of returns.

1 Bach estimate includes returns filed on Form 1120-S. The relative sampling error in the number of Forms 1120-S, shown separately in table 1, is also shown in column 12.

2 The estimates for number of returns with net income (column 3) are from table 16 which excludes data from deficit returns.

NOTE: The table indicates the range in percent within which 19 out of 20 similarly derived estimates would fall.

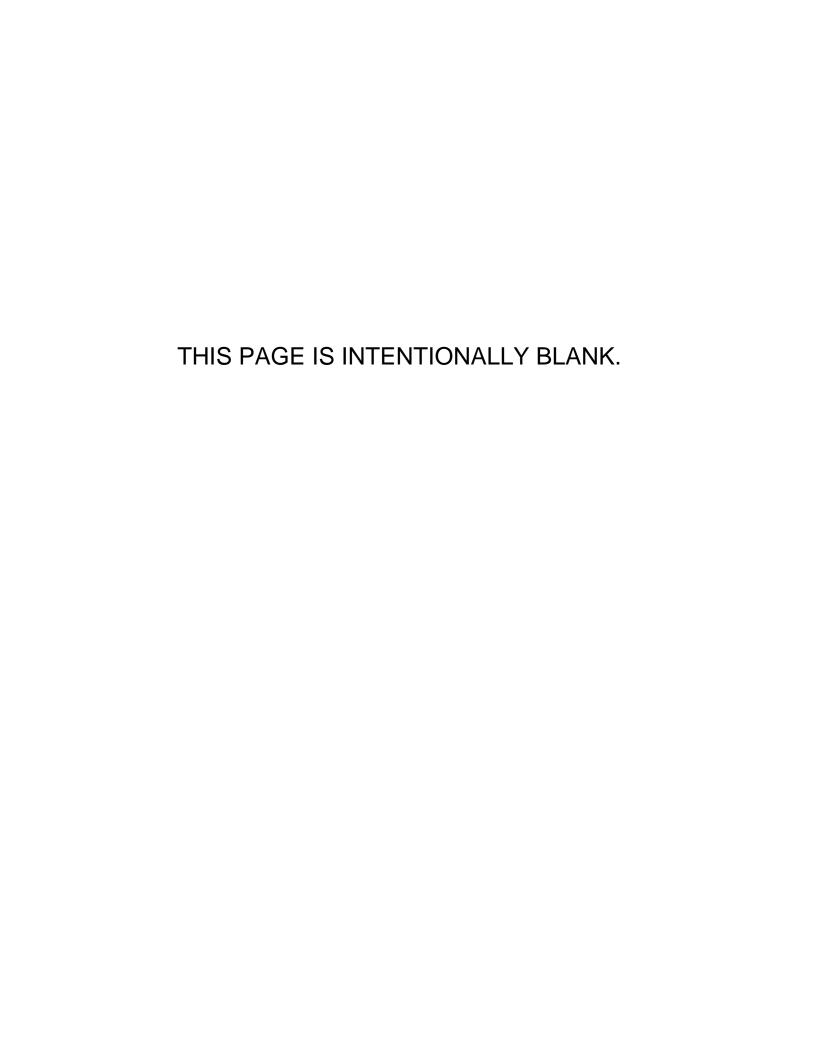

Response and other nonsampling errors.—In processing returns for collection purposes in the district offices and, later, in processing the sample of such returns for statistical purposes, several steps were taken to reduce taxpayer-reporting errors and other errors introduced in data processing operations. A large proportion of the returns were mathematically verified, but not audited, in the district offices before they were made available for sample selection. Any corrections resulting from mathematical verification of the taxpayer's entries are reflected in the data tabulated.

In transcribing and tabulating the information from the sampled returns, additional checks were imposed to improve the quality of the resulting estimates. Returns which showed data in accompanying schedules but not on appropriate return lines and returns with obvious errors were edited and properly transcribed. Mechanical transcribing was verified by the process of repeat punching, and, prior to tabulating, numerous tests for consistency

were applied by the electronic computer to assure that the proper balance and relationship between return items and statistical codes were maintained.

An extensive system of sample management and control was used to insure the selection of the prescribed sample and prevent inaccuracies in estimating the number of returns filed. Sample controls were maintained on a district basis by the most detailed sampling strata. In addition, a name control file containing a historical record of tax return information for taxpayers in sample class A provided a further check on the completeness of the sample.

However, the controls maintained over the selection of the sample returns and the processing of the source data in the field offices did not completely eliminate the possibility of error. Also, practical operating considerations necessitated allowance of reasonable tolerance in controlling the processing of these data within the Statistics Division.

Sampling variability of this estimate is too large to warrant showing separately. However, the data are included in totals.

Loss or deficit.

Loss after tax.

NOTE: See text for explanatory statements and for "Description of the Sample and Limitations of Data."

Includes data from returns not allocable to an industrial division. Computations for the Finance, insurance and real estate division are based on total compiled receipts rather than on business receipts.

Includes returns with no business receipts and large returns processed in thousands of dollars with either business receipts or net income of less than \$500.

Sampling variability of this estimate is too large to warrant showing separately. However, the data are included in totals.

NOTE: See text for explanatory statements and for "Description of the Sample and Limitations of Data."

Table 14. -- NUMBER OF RETURNS AND DEPRECIABLE ASSETS, BY PERCENT OF DEPRECIATION DEDUCTION TO DEPRECIABLE ASSETS. BY INDUSTRIAL DIVISION

Returns with zero percent include those without a deduction for depreciation and large returns processed in thousands of dollars with depreciation deduction of less than \$500.

Returns with no percent computed include those with no depreciable assets shown on the balance sheet and large returns processed in thousands of dollars with depreciable assets of less than \$500.

NOTE: See text for explanatory statements and for "Description of the Sample and Limitations of Data."

Data for the following major industrial groups are not shown separately because of high sampling variability, but are included in appropriate division totals: Metal mining, Motor vehicles and motor vehicle equipment, Electric and gas companies and systems, Holding and other investment companies, Security and commodity brokers, dealers, exchanges, and services, Insurance carriers. No Form 1120-S returns were classified as Tobacco manufactures. There may not be any returns of this type, or the sample may be too small to detect the presence of these returns.

2Loss or deficit.

NOTE: See text for explanatory statements and for "Description of the Sample and Limitations of Data."

¹Data for the following major industrial groups are not shown separately because of high sampling variability, but are included in appropriate division totals: Metal mining, Motor vehicles and motor vehicle equipment, Electric and gas companies and systems, Holding and other investment companies, Security and commodity brokers, dealers, exchanges, and services, Insurance carriers. No Form 1120-S returns were classified as Tobacco manufactures. There may not be any returns of this type, or the sample may be too small to detect the presence of these returns.

3 Sempling variability of this estimate is too large to varrent showing separately. However, the data are included in totals.

4 Less than \$500.

NOTE: See text for explanatory statements and for "Description of the Sample and Limitations of Data."

# CORPORATION INCOME TAX RETURNS, HISTORICAL DATA 1949-50 THROUGH 1958-59

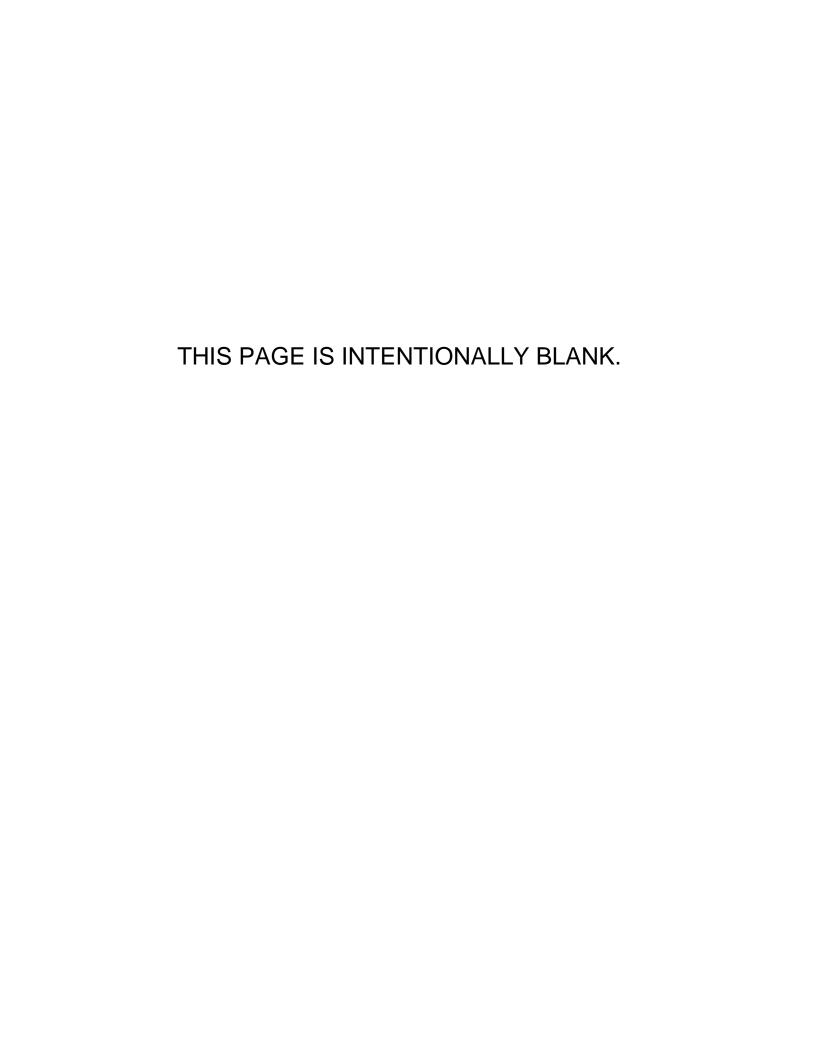

Data relating to corporation income and tax first became available when an excise tax, based on corporate income, was imposed by the Tariff Act of 1909. A so-called direct tax on the income of corporations was imposed in 1913 following adoption of the Sixteenth Amendment to the Constitution. Three years later the Revenue Act of 1916 directed that statistics concerning the operation of the income tax laws be published annually. This provision has been retained through each succeeding change in the revenue law.

Historical data in tables 34 through 37 were selected from tables published in *Statistics of Income* for the years 1949-50 through 1958-59. Data in these historical tables are, in general, statistically comparable, from year to year, for the period covered. The items included in the tables are described in the Explanation of Terms section of this report. All data are in current dollars.

"Specified current assets, except investments," shown in table 36, consist of cash; notes and accounts receivable less reserves and including mortgage and real estate loans of banks; inventories; and, after 1953-54, prepaid expenses and supplies. "Specified current liabilities" include accounts payable; bonds, notes, and mortgages payable and maturing within one year (prior to 1954-55, with original maturity of less than one year); and, beginning in 1954-55, accrued expenses. Beginning with 1957-58 "Specified current liabilities" also include deposits and withdrawable shares formerly in "Other liabilities." Since the balance sheet of Form 1120 did not require classification of accounts as current and noncurrent, data are not available for current assets and liabilities other than those specified.

"Other investments" include mortgage and real estate loans of all companies other than banks.

From 1909 to 1915 some corporation tax data were published in the Annual Report of the Commissioner of Internal Revenue. The first volume of Statistics of Income was published for the year 1916. It contained only five items for corporations, which were distributed geographically and by 104 types of industry. Data for 1909 through 1949 are summarized in Statistics of Income for 1949, Part 2.

#### CORPORATION INCOME TAX RETURNS, HISTORICAL DATA

#### ALL CORPORATION RETURNS

Table 34. -NUMBER OF RETURNS, 1949-50 THROUGH 1958-59

			Active corporations			
Year	All returns	Inactive		Consolidated returns		
104		corporations1	Total	Parent corporations	Subsidiary corporations	
	(1)	(2)	(3)	(4)	(5)

1953-54. 1952-53. 1951-52. 1950-51.	730,974 705,497 687,310 665,992 649,957	32,999 33,426 34,934 36,678 35,115	697,975 672,071 652,376 629,314 614,842	2,408 2,169 1,940 1,611 1,679	9,670 9,019 7,551 6,692 6,825	

Historical tables do not include any data for inactive returns other than the number of returns in this table.

NOTE: For explanatory statements and comparability of data, see the texts for the 1958-59 tables and for these historical tables. "Description of the Sample and Limitations of Data" for each of the years 1951-52 through 1958-59 appears in the annual volume for those years.

#### SOURCE BOOK OF STATISTICS OF INCOME

The Source Book consists of sets of unpublished worksheets showing information annually by more detailed classifications than those published in Statistics of Income. On these worksheets, from which the summary tables in Statistics of Income are derived, items of assets, liabilities, receipts, deductions, net income, income tax liability, and distributions to stockholders are cross-classified by over 200 industrial groups and by size of total assets.

The use of the Source Book, for research purposes, may be requested by writing to the Director, Statistics Division, Internal Revenue Service, Washington 25, D. C. After securing permission, the user or his representative may copy the data at the National Office of the Internal Revenue Service, Washington, D. C. Occasionally, however, analysts who need an unusually large volume of data may arrange to borrow, for a short time, microfilms of the Source Book. A request to use Source Book microfilms should specify the desired items, industrial groups, total assets size classes, and years.

A sample sheet from the 1958-59 Source Book is reproduced on the next page. This sheet, for the industrial group "Manufacturing: Food and kindred products," contains the 76 items shown in table 4 of this volume, classified by size of total assets. There are similar sheets for each of the 270 industrial groups and subgroups shown in table 1 of this report. Separate sets of Source Book sheets provide statistics for all active corporation returns and for corporation returns with net income.

Source Book data are available for each year beginning with 1926, except 1952. For a description of the data and classifications available for the years 1926 through 1956, see Statistics of Income-1956-57, Corporation Income Tax Returns, pages 134-142. The information in the Source Book has increased over the years but since 1948, when the second general revision of the Standard Industrial Classification was adopted, relatively few changes have occurred. These are listed below, and with these exceptions, data for any items shown in the 1958-59 Source Book can be obtained back through 1948.

General revisions of the industrial groups were made for 1958-59, 1948, and 1938. Supplemental tables showing these revisions are available on pages 189-201 of this volume and in the 1948 and 1938 volumes of Statistics of Income, Part 2. Also, changes in the industrial classification of certain groups were made in 1952 and 1949:

- 1. Mutual savings banks, and
- Savings and loan, building and loan associations became subgroups in 1952 when they were made taxable by the Revenue Act of 1951.
- 3..Jewelry stores became a separate retail trade subgroup in 1949. They had formerly been included in *Other retail stores."

The following items were first tabulated separately for the year indicated:

	<u> Item</u>	Year 1
1.	Business receipts (gross sales plus receipts	
	from operations)	1958
2.	Cost of sales and operations	1958
3.	Mortgage and real estate loans	1957
4.	Deposits and withdrawable shares	1957
5.	Inventories, last-in, first-out	1955
6.	Inventories, other than last-in, first-out	1955
7.		1955
	Earned surplus and undivided profits	1955
	Prepaid expenses and supplies	1954
10.	Investments, Government obligations, States,	
	Territories, and United States possessions	1954
11.	Investments, Government obligations, United	
	States obligations	1954
12.	Depreciable assets (and accumulated depreciation	
	and amortization)	1954
13.	Depletable assets (and accumulated depletion)	1954
14.	Intangible assets (net amount)	1954
	Intangible assets (and accumulated amortization)	1955
	Accrued expenses	1954
17.	Amounts contributed under other employee benefit	
	plans	1952
T8.	Excess profit tax and related data 1	.950-54

¹In each volume of Statistics of Income, data are presented for corporations with accounting years ended in July of the year specified below through June of the following year.

Before the years specified above, totals for inventories, surplus, Government obligations, and capital assets were available. Mortgage and real estate loans of banks were included in notes and accounts receivable; those of other industries were included in "Other investments." Prior to 1958 gross sales and receipts from operations and the related cost items were shown separately. The remaining new items above were formerly included in "Other assets," "Other liabilities," or "Other deductions."

In addition to the income statement and balance sheet data provided each year, additional information is occasionally available on a one-time basis. For example, the 1957-58 Source Book includes unpublished data on methods used by corporations to compute depreciation. This information is distributed by industrial groups and by size of total assets. Similarly, for 1958-59 frequency estimates are available for each of the amounts shown in the Source Book.

#### COMPARISON OF MAJOR INDUSTRIAL GROUPS, 1958-59 AND 1957-58

PART II.—INDUSTRIES WHICH WERE RECLASSIFIED FROM ONE MAJOR INDUSTRIAL GROUP IN 1957-58 TO ANOTHER GROUP IN 1958-59

ference number • Part I)	Industry	1958-59 major group in which classified	1957-58 major group in which classified
1 2	Zirconium ore mining	Metal mining	Nonmetallic mining and quarrying. Anthracite mining.
3	Flavoring extracts and flavoring sirups, not elsewhere classified (e.g., food colorings, except synthetic, and bever-	anthracite mining. Beverage industries	Food and kindred products.
4	age and fruit juice concentrates). Combined processing and wholesale distribution of fluid	Food and kindred products	Other wholesalers.
5	milk; wholesale milk pasteurisers.  Combined processing and retail distribution of fluid milk;	do	Retail: Food.
6	retail milk pasteurizers. Fresh fish patkagers.	do	Other wholesalers.
7	Shucking and packing oysters	dododo	do. Retail: Food.
<b>8</b> 9	Manufacturing bakery products for home service delivery Vegetable and animal oils and fats, except fatty acids	do	Chemicals and allied products.
10 11	Shrinking and sponging of cloth for the trade	Textile mill productsdo.	Apparel and products made from fabrics. Other wholesalers.
12	Apparel converters	Apparel and other finished products made from fab- rics and similar materials.	do.
13	Hats (except cloth and millinery), including men's and boys! hats, fur-felt, wool-felt, and straw hat bodies, and hat- ters fur.	do	Textile-mill products.
14 15	Parachutes	do	Transportation equipment, except motor vehicles. Textile-mill products.
16	Cork products	do	Other manufacturing. Furniture and fixtures.
17 18	Wood door and window screens and wood weather strip Booming, towing, and driving of timber	do	Transportation.
19	Sanitary mapkins	Paper and allied products	Scientific instruments; photographic equipment; watches, clocks.
20 21	Loose leaf fillers, except printed	do	Printing, publishing, and allied industriesdo.
22 23	Playing cards	Printing, publishing, and allied industries Chemicals and allied products	Paper and allied products. Primary metal industries.
24 25	Fireworks and pyrotechnics	do	Other manufacturingdo.
26 27	Hydraulic brake fluid	Petroleum refining and related industries Rubber and miscellaneous plastics products	Chemicals and allied products. Food and kindred products.
28	Rubber hard surface floor coverings	do.	Textile-mill products. Furniture and fixtures.
29 30	Miscellaneous plastics products	do	Other manufacturing.
31 32	Boats, life rafts, and pontoons, nonrigid: plastic	do. Leather and leather products	Transportation equipment, except motor vehicles.  Other manufacturing.  Textile-mill products.
33 34	Leather washers	Stone, clay, and glass products	Leather and products.
35 36	Optical glass Ready mixed concrete	do	Scientific instruments; photographic equipment; watches, clocks. Trade: Wholesale.
37	Powder metallurgy		Fabricated metal products, except ordnance, machinery, and transportation equipment.
38 39	Detinning of scrap.	Primary metal industriesdo	Chemicals and allied products. Petroleum and coal products.
40 41	Mails and spikes	do	Fabricated metal products, except ordnance, machi ery, and transportation equipment. do.
42 43	Insulated wire and cable	Fabricated metal products (including ordnance),	Electrical machinery and equipment. Furniture and fixtures.
44	strip. Metal clamps	except machinery and transportation equipment.	Machinery, except transportation equipment and electrical.
45	Blow torches.	do	do.
46 47	Mechanical stokers	do	do-
48 49	Heat exchangers, industrial	do	do-
50	Regulators (steam fittings); valves and fittings, except plumbers' brass goods; pipe elbows and nipples fabricated from purchased pipe; fabricated pipe and fittings.	do	
51	Electric soldering irons	do	Electrical machinery and equipment.
52 53	Ordnance and accessories	Classified by type of vehicle	Ordnance and accessories.  Machinery, except transportation equipment and
54	Steam, gas, and hydraulic turbine generator sets		electrical. Electrical machinery and equipment.
		equipment.	1
55 56	Dielectric heating units for furnaces and ovens	do	do.
57	Metal molds for use with foundry, plaster working, rubber working, plastic working, glass working, and similar machinery.	do	Other manufacturing.
58 59	Industrial patterns	dodo	do-
60 61	Picker sticks.  Bicycle and motorcycle drive chains.	do	Lumber and wood products, except furniture- Transportation equipment, except motor vehicles.
62	Gum data computers	do	Ordnance and accessories.
63 64	Machine shops, repair only	do	Miscellaneous repair services, hand trades. Fabricated metal products, except ordnance, machine.
65	Nonelectric commercial cooking and food warming equipment	do	ery, and transportation equipment.
66 67	Ricetric rasors	Electrical machinery, equipment, and supplies	do-
68 69	Lightning rods	dodo	do.
70	locomotives, etc. All sewing mechines and household laundry equipment, vacuum cleaners, refrigerators, freezers, dishwashers, and non-	do	Machinery, except transportation equipment and electrical.
	electric appliances, not elsewhere classified.	do	Scientific instruments; photographic equipment;
71	Electrocardiographs		Detending institution, photographic equipment,
71 72 73		Transportation equipment, except motor vehicles	watches, clocks.  Machinery, except transportation equipment and electricaldo.

COMPARISON OF MAJOR INDUSTRIAL GROUPS, 1958-59 AND 1957-58

Revenue Act of 1945 (Nov. 8, 1945).	1949	Income tax	Same as 1950-53, (1) through (7). Substitute 1939 Code Figs. 727(g) and (h) for 1939 Code secs. 454(f) and (g) in (7) above.	Same as 1950-53	See 1954-58. New option granted for— Fiscal wers ending in 1949. Calendar year or fiscal years ending in 1948.	Same as nonconsolidated returns plus an additional surtax equal to 2 percent of surtax net income. (See table A, pp. 205-206.)			

For footnotes, see pp. 209-211.

#### Footnotes for synopsis of laws tables

¹For income years before 1949, see Statistics of Income-1954, Corporation Income Tax Returns, and Statistics of Income for 1950, Part 2.

Returns for the income years 1954-58 were filed under the Internal Revenue Code of 1954, as amended. Returns for 1949-53 were filed under the provisions of the Internal Revenue Code approved Feb. 10, 1939, and the various amendments thereto. There is no one effective date for all provisions of an internal revenue law—some of the provisions may be retroactive, some apply to the current tax period, and some to a future tax year. Only acts substantially amending pertinent provisions of the Codes are cited in these tables.

³The income year is the calendar year and tax years begin-

ning therein.

The tax bases are, in general, the same for all corporations and are derived from the corporation's net income after allowance of certain statutory deductions. Net income is the gross income (exclusive of tax-exempt interest) less the ordinary business expenses deductible under secs. 161 through 171, 173 through 179, and 248 of the 1954 Code (sec. 23 of the 1939 Code). Treatment of the net operating loss deduction, derivation of the tax bases from net income, and significant variations in the bases applicable to certain classes of corporations are shown in (a) through (j) below.

(a) The net operating loss deduction is allowed as a deduction against the gross income by sec. 172 of the 1954 Code (sec. 23(s) of the 1939 Code). The net income presented in Statistics of Income is the net income for the current year, i.e., before the deduction permitted with respect to a loss year. Therefore, the net operating loss deduction must be taken into account in relating net income to the tax base. The net operating loss of any tax year is first carried back against the net income of certain preceding tax years and the excess, if any, may then be carried over to certain succeeding tax years. The amount reported

on the return and shown in Statistics of Income is the net operating loss carryover from prior tax years. The carryback and carryover periods for a net operating loss sustained under the 1954 Code is, carryback 2 years, carryover 5 years except that for years ended after Dec. 31, 1957, the carryback is 3 years; under the 1939 Code, the carryback for loss years 1950-53 was 1 year, the carryover 5 years; and for 1949, carryback 2 years, carryover 3 years.

For additional information on the net operating loss deduction, see the description on p. , par. 33, and , par. 33, and

appropriate sections of the 1954 and 1939 Codes.

(b) Taxable income. - Under the 1954 Code the tax base, subject to normal tax, is designated "Taxable income." is the net income less any net operating loss deduction and the statutory deductions shown in the table below. As indicated in footnote (e), under the 1954 Code these deductions can result in a net operating loss. The surtax base is the taxable income computed without deduction of partially tax-exempt interest.

The tax bases under the 1939 Code were computed in essentially the same way but were designated "normal-tax net income" and "surtax net income" and were derived from net income less net operating loss deduction through use of limited credits which could never result in complete elimination of taxable income.

Variations in computation of the two tax bases in the period 1949-58 are shown in the table. Deductions used in computing the amounts subject to normal tax are identified by the symbol (N) in the table column, and those used in computing the amounts subject to surtax are identified by

the symbol (S).

The terms "taxable income" and "deductions" are used throughout this synopsis in lieu of the "normal-tax net income," "surtax net income" and "credit" designations of the 1939 Code.

ase footnote 8 for proration of deductions. For deductions after Mar. 31, 1951, see col. (5). For a tax year 1949 ended after June 30, 1950, see col. (9) for deductions ap-

fThis percentage is derived from a formula contained in the Internal Revenue Code of 1864 which relates the amount of deduction to the tax rate.

For treatment of dividends paid with respect to dividends unpaid and accumulated for prior tax years, and for definitions of public utility and preferred stocks as used for this deduction, see sec. 247 of the 1854 Code and sec. 26(h) of the 1839 Code.

Admestic corporation, all of whose business is done in any country or countries of North, Central, or South America, or in the West Indies, is classified as a Western Hemisphere trade corporation if (1) 95 percent or more of its gross income for the 5-year period immediately preceding the close of the tax year (or for such part of that period as the corporation was in existence) was derived from sources outside the United States; and (2) 90 percent or more of its gross income for such period was derived from the active conduct of a trade or business.

For a tax year 1849 ended after June 30, 1950, see col. (9) for deductions applicable after that date.

"Under the 1839 Code net income less the deduction for partially tax-exempt interest was designated "Adjusted net income." (Sec. 13(a) of 1839 Code.)

"Under the 1854 Code, total deductions for dividends received (lines 2 through 4 of the table) in excess of net income results in a net operating loss for the year. However, if the total dividend deduction is less than the net income, the deduction is limited to 85 percent of the net income after deduction. Under the 1939 Code the total dividends received deduction for each tax base could not exceed: 1950-53, 85 percent of the net income adjusted by the deduction for partially tax-exempt interest (line 1) but before any net operating loss deduction for partially 1949, 85 percent of the net income adjusted by the deduction for partially tax-exempt interest and after net operating loss deduction.

(c) Net long-term capital gain in excess of net short-term capital loss.—Capital gain and loss provisions are shown in table B of this synopsis.

(d) Consolidated return provisions are shown in table C of

this synopsis.

(e) The adjusted excess profits net income for 1950-53 was the excess profits net income less the amounts of the excess profits credit and the unused excess profits credit adjustment. A minimum credit of \$25,000 was provided. Excess profits net income and methods of credit computation are discussed on pp. 9-11 of Statistics of Income for 1951, Part 2. A change in the percentage of average base period net income used in computing the excess profits credit under the income credit method was made on July 1, 1951. For the period July 1, 1950 through June 30, 1951, this percentage was 85 percent. Beginning July 1, 1951, it was 83 percent. The credit was prorated for tax years which began before and ended after July 1, 1951, and an 84 percent intermediate rate was provided for the calendar year 1951 by the 1939 Code.

Special provisions applicable to computation of excess profits credit of certain companies are shown in Statistics of Income for 1951, Part 2, pp. 11-12.

The unused excess profits credit, which was the excess of the excess profits credit over the excess profits net income for the tax year, was, for 1950-53, carried back as an unused excess profits credit adjustment to the first preceding tax year, and the remainder, if any, could then be carried forward as an adjustment to succeeding years. The carryforward period was 5 years. No carryback of unused excess profits credit computed under the provisions of the Excess Profits Tax Act of 1950 could be made to tax years ended before July 1, 1950, and no portion of the minimum \$25,000 credit could be considered as unused excess profits credit. For computation of the unused excess profits credit adjustment for the years 1950-53, see sec. 432 of the 1939 Code.

(f) Life insurance companies.—Beginning with 1958, life insurance company taxable income is computed under the Life Insurance Company Income Tax Act of 1959. Under the 1959 Act, underwriting income as well as investment income is included in the tax base. Life insurance company net income and taxable income for 1958 are described on pp. 7-8.

For 1949-1957, the net income for life insurance companies was the net investment income.

For 1955 through 1957, net investment income was defined as the gross amount of interest, dividends, rents, royalties, and income from trade or business other than insurance and from leases less deductions for investment and real estate expenses, tax-free interest, depreciation, depletion, and noninsurance trade or business expenses. A multiple-tax-base system was in effect, and the income tax was computed according to formulas which embodied in part the normal tax and surtax rates applicable to other corporations but which included a special alternative tax in the case of life insurance companies having nonlife insurance reserves.

Before 1955 the composition of net investment income was substantially the same as above, but royalties, income from noninsurance trade or business, and from leases, as well as the allowances for noninsurance trade or business deductions and for depletion were not specifically delineated. Taxable income and excess profits tax net income were derived in the same manner as for other corporations except that no deduction was allowed for a net operating loss. Before imposition of tax, however, recognition was made of requirements for reserve earnings, deferred dividends, and interest paid. In lieu of deductions for these items, for 1951-54 special income tax rates (footnote 5(b)) and a reserve interest credit for companies whose adjusted net income was less than 105 percent of their required interest were used. For 1949-50, a reserve and other policy liability credit based on representative data for the preceding year was allowed and the regular tax rates were imposed. These provisions were offset, in case of nonlife insurance business, by an adjustment for certain nonlife insurance reserves. In computing the excess profits net income for 1950-53, a deduction based on a reserve and other policy liability credit was allowed. The regular excess profits tax rates were imposed.

Facsimiles of Form 1120L, filed by life insurance companies are included in the Statistics of Income, Corporation Income Tax Returns volumes for each year and provide additional information on the computation of the taxable income and tax.

(g) Mutual insurance companies.—Net income for mutual insurance companies is the net investment income (see defini-

- tion under "Life insurance companies," above). For mutual insurance companies, however, net investment income includes net gain from sale or exchange of capital assets, and deductions are allowed for interest expense and for capital losses incurred because of abnormal insurance losses or because of distributions to policyholders. Taxable income is derived in the same manner as for other corporations except that no net operating loss deduction is allowed. See sec. 822 of the 1954 Code (sec. 207 of the 1939 Code). See footnote 5(c) for imposition of tax.
- (h) Insurance companies other than life or mutual.—Gross income of these companies includes investment and underwriting incomes, and deductions allowed include general business expenses, losses, and distributions to policyholders as provided by sec. 832 of the 1954 Code (sec. 204 of the 1939 Code). Taxable income is derived as shown in (b) above and the regular tax rates are imposed.
- (i) Regulated investment companies meeting the requirements of subch. M,ch. 1 of the 1954 Code (Supplement Q of the 1939 Code) are taxed only on undistributed income. One of the requirements is that distributions to shareholders, exclusive of capital gain dividends, shall equal 90 percent or more of investment company taxable income (exclusive of capital gains).

Undistributed capital gains are taxed at 25 percent. The regular normal tax and surtax rates apply to all other undistributed taxable income.

(j) Mutual savings banks conducting separate life insurance departments compute net income and tax for such departments under Internal Revenue Code provisions applicable to life insurance companies (see par. (f) above). For Statistics of Income tables, the life insurance department income and tax are added to those reported for the bank department. These banks were exempt from taxation under sec. 101 of the 1939 Code prior to 1952 and were exempt from excess profits tax for 1952-53 under sec. 454 of the 1939 Code.

⁵The tax rates shown are those applicable, in general, to all corporations, domestic and foreign. Credits against the tax and certain exceptions to the rates are shown in (a) through (i) below:

- (a) Credits against the tax.—Income and profits taxes paid to foreign countries and possessions of the United States may be used as a credit against the income and excess profits taxes in the manner and to the extent allowed by sec. 901 of the 1954 Code and sec. 131 of the 1939 Code. Differences under the 1954 and 1939 Codes with respect to the limitations imposed on this credit are discussed in Statistics of Income-1954, Corporation Income Tax Returns, p. 11. The tax shown in Statistics of Income is before any credits for foreign taxes paid.
- (b) Life insurance companies.—Special income tax rates were provided for the years 1951-54. They were: 3-3/4 percent on the first \$200,000 of life insurance company taxable income and 6-1/2 percent on that in excess of \$200,000. (As an offset to these rates, adjustments for nonlife reserves were multiplied by 8.) The regular corporate tax rates were applied in other years. For 1955 through 1957, an alternative one percent tax was applicable to nonlife insurance income if it resulted in a larger total tax. See also, footnote 4(f).
- (c) Mutual insurance companies, except life or marine, or fire insurance companies issuing perpetual policies.—Sec. 501 of the 1954 Code (sec. 101(11) of the 1939 Code) exempts certain of these companies from taxation. Sec. 821 (sec. 207 of the 1939 Code) provides income taxation of those not exempt based, in general, on the regular corporate rates, but with certain alternative provisions and limitations. The excess profits tax rate was the same as that for regular corporations with the exception of a limitation for companies whose gross income from interest, dividends, rents, and premiums (including deposits and assessments) was less than \$125,000. See sec. 430(d) of the 1939 Code.
- (d) Nonresident foreign corporations, not engaged in trade or business within the United States, are taxed, under sec. 881 of the 1954 Code (sec. 231(a) of the 1939 Code), on income (except interest on bank deposits) from sources within the United States. The tax is 30 percent of such income except as modified by treaties with other nations. Such corporations were not subject to the excess profits tax. The returns of nonresident foreign corporations are not included in Statistics of Income.

Under the provisions of sec. 551 of the 1954 Code (Supplement P of the 1939 Code), income of certain foreign personal holding companies is includible in the income of the shareholders and is not reported by the company for taxation.

- (e) Corporations exempt from taxation under sec. 501 of the 1954 Code or sec. 101 of the 1939 Code.—Such corporations include labor, agricultural or horticultural organizations, certain types of cooperative and mutual organizations, corporations organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, nonprofit civic, business, and social organizations, and for 1949-51, certain mutual savings banks, building and loan associations, and cooperative banks. Beginning with 1951 a normal tax and a surtax were imposed on the unrelated business net income in excess of \$1,000 of certain of these corporations by Supplement U of the 1939 Code. Secs. 501 and 511-515 of the 1954 Code expand and continue these taxes. The rates are similar to the regular corporate income tax rates. However, the returns filed by these corporations are not included in Statistics of Income, Corporation Income Tax Returns.
- (f) Additional corporations exempt from the excess profits tax (unless a member of an affiliated group of corporations filing a consolidated return). -- Specific exemption from the excess profits tax under the 1939 Code was granted to: (1) Regulated investment companies (defined in sec. 361 of the 1939 Code); (2) personal holding companies (defined in sec. 501); (3) domestic corporations if 95 percent of gross income for the 3-year period immediately preceding the close of the tax year was derived from sources outside of the United States and 50 percent of such income was derived from active conduct of a trade or business; (4) certain corporations subject to provisions of Title IV of the Civil Aeronautics Act of 1938; and (5) beginning in 1952, certain mutual savings banks, building and loan associations, and cooperative banks formerly exempt from taxation under sec. 101 of the 1939 Code. In addition, personal service corporations might elect to be exempt from the tax on excess profits, tax being imposed under Supplement S of the 1939 Code on the individual shareholders.
- (g) Western Hemisphere trade corporations (defined in footnote "h" of note 4(b) above) were exempt from the surtax for 1949. For exemption from the consolidated return tax for 1950-58, see table C of this synopsis.
- (h) Personal holding companies.—Personal holding companies are subject to an additional tax (not included in the income tax), imposed under sec. 541 of the 1954 Code (ch. 2, subch. A of the 1939 Code), and based on the undistributed personal holding company income. For the years 1949-58 the tax was 75 percent of the undistributed personal holding company income not in excess of \$2,000 plus 85 percent of such income in excess of \$2,000.

General definitions and differences between the 1954 and 1939 Code provisions affecting this tax are discussed in Statistics of Income—1954, Corporation Income Tax Returns, pp. 14-15.

(i) Mutual savings banks conducting separate life insurance departments.—See note 4(j).

⁶Subch. S, added to ch. 1 of the 1954 Code Sept. 2, 1958, permits certain corporations to forego payment of corporate income tax if all shareholders consent to the taxation of corporate profits at the shareholder level. To qualify for subch. S benefits, a corporation must:

- Be a domestic corporation with no more than 10 shareholders.
- Be entirely owned by shareholders who are individuals (or estates). Shareholders may not be nonresident aliens.
- 3. Have only one class of stock.
- 4. Not be a member of an affiliated group eligible to file a consolidated return.
- 5. Not receive more than 20 percent of its gross receipts from personal holding company income (rents, royalties, dividends, interest, annuities, and gains from sales or exchanges of stock or securities).
- 6. Not receive more than 80 percent of its gross receipts from sources outside the United States.

The provisions of subch. S are effective for taxable years beginning after Dec. 31, 1957, and ending after Sept. 2, 1958.

Taxable income of corporations filing returns, Form 1120-S, under subch. S is reported by the shareholders on their individual income tax returns together with their other income and deductions. Tax rates are those applicable to individuals, determined by the total taxable income of the individual and may range from 20 to 91 percent.

Corporate financial data from Forms 1120-S are included with other corporate data throughout this report.

Provisions of subch. S may be found in secs. 1371 through 1377 of the Internal Revenue Code.

"Limitations on the excess profits tax.—The excess profits tax under the Excess Profits Tax Act of 1950 became effective July 1, 1950, and ended Dec. 31, 1953. For tax years which began before or ended after those dates, the tax was the prorated portion applicable to that part of the year the tax was in effect. See footnote 8. Ceiling rates and special provisions affecting certain companies are discussed on pp. 12-13 of Statistics of Income for 1951, Part 2.

⁸When a return is filed for a tax year during which a change in tax rates occurs, tentative taxes are computed applying each rate in effect during the tax year to the entire taxable income. The amounts so determined are then prorated on the basis of the number of days in the year during which each rate is in effect. The prorated portions of the tentative taxes are then combined to determine the actual liability which is the amount used for Statistics of Income. To give effect to changes in the deductions from net income used in computing the tax bases, taxable income used in calculating each tentative tax is computed with the deductions applicable to the period to which the tax rate applies.

A tentative surtax was computed at 19 percent of the surtax net income in excess of \$25,000. The actual liability was then determined by reducing this amount by 1 percent of the lower of (a) partially tax-exempt interest, or (b) surtax net income in excess of \$25,000.

tax net income in excess of \$25,000.

10For tax years which began in 1949 and ended after June 30, 1950, the rates shown for the income year 1950 period beginning July 1, 1950, and ending Mar. 31, 1951, were effective after June 30, 1950. For proration of tax, see footnote 8.

11Net capital gain is the excess of gains from sales or ex-

11Net capital gain is the excess of gains from sales or exchanges of capital assets over losses from such sales or exchanges. Both short- and long-term gains and losses are included. Conversely net capital loss is the excess of losses over gains.

12Effective for tax years beginning after Sept. 23, 1950.

13See secs. 1231-1243, 165, 341, and 582 of the 1954 Code (secs.117(f) through (o) and sec. 23(g), (j), and (k) of the 1939 Code).

14Applicable to involuntary conversion of capital assets, involuntary conversion, sale, or exchange of real property and property subject to depreciation which was used in the trade or business, amounts received for timber and amounts received or accrued for coal after Dec. 31, 1950, where disposal was by contract under which owner retained an economic interest, all of above property having been held for more than 6 months; timber held for more than 6 months before beginning of tax year in which cut, if taxpayer so elects; certain unharvested crops on business real property held for more than 6 months and sold in a tax year beginning after Dec. 31,1950; and livestock, except poultry, held for draft, breeding, or dairy purposes for 12 months (prior to Dec. 31, 1950, holding period was 6 months and poultry was not excluded). Depreciable property in items 3(a) and (e) of table are excluded.

Beginning with 1958, casualty or theft losses on uninsured property used in the trade or business (as defined by sec. 1231 of the Code) or on capital assets held more than 6 months (as defined by sec. 1221) are deductible as ordinary losses.

¹⁵Applicable to sales or exchanges made after Nov. 19,1951.

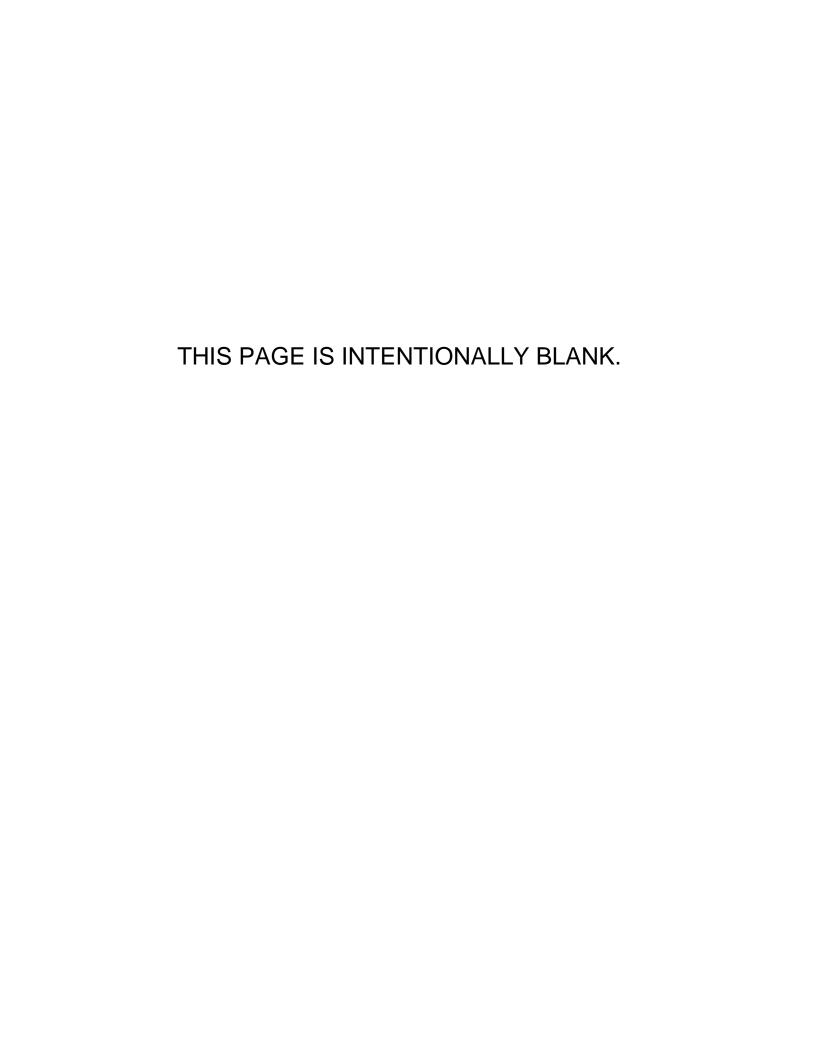

¹⁶Applicable to sales or exchanges made after May 3, 1951.

17Small Business Investment Companies are defined as those operating under the Small Business Investment Act of 1958. Secs. 1242 and 1243 dealing with the specified losses are effective for tax years beginning after Sept. 2, 1958.

¹⁸See sec. 542(b) of the 1954 Code for application of the personal holding company tax in the case of consolidated returns

turns.

19See sec. 1504(d) of the 1954 Code (sec. 141(g) of the 1939 Code) for exception.

# How To Prepare Your 1958 Corporation

# Income Tax Return on form 1120

(References are to the Internal Revenue Code).

Note: "Small Business Corporation" file Form 1120-S rather than Form 1120. See last paragraph of General Instruction H.

# GENERAL INSTRUCTIONS

A. Corporations required to make a return on Form 1120.-Every domestic and every resident foreign corporation not expressly exempt from taxation under chapter 1 (Section 501), whether or not having any taxable income, must file a return. The term "corporation" is defined by the Code to include associations, joint-stock companies, and insurance companies.

Partnerships and proprietorships may elect to be taxed as domestic corporations if an election is made not later than 60 days after the close of the taxable year and if certain qualifications (Section 1361.) If the return is filed by a proprietorship or partnership, electing to be taxed as a corporation under section 1361, it must be signed by the proprietor or a partner.

If a receiver, trustee in dissolution, trustee in bankruptcy, or assignee has possession of or holds title to all or substantially all the property or business of a corporation, whether or not the property or business is being operated, he must make a return of income for the corporation in the same manner and form required of other corporations. (Section 6012) of other corporations. (Section 6012.)

A mutual savings bank not having capital stock represented by shares; a domestic building and loan association, a domestic savings and loan association, a Federal savings and loan association, substantially all the business of which is confined to making loans to members; and a cooperative bank without capital stock, operated for mutual purposes and without profit, are subject to income tax and must file returns.

B. Period to be covered by return.—Returns shall be filed for the calendar year 1958 or fiscal year beginning in 1958 and ending in 1959. A fiscal year is an accounting period of 12 months ending on the last day of a calendar month other than December, but if a taxpayer has made the election provided in section 441 (f), the term "fiscal year" means an annual period varying from 52 to 53 weeks. If a taxpayer has no annual accounting period, or keeps no books, or has an accounting period which does not qualify as a fiscal year, the return must be filed for the calendar year, except as provided in section 443.

For the procedure to follow in changing an established accounting period, see your District Director.

C. Accounting methods.—Taxable income shall be computed in accordance with the method of accounting regularly used by the taxpayer in maintaining its books and records. In all cases the method adopted should clearly reflect taxable income. The basic methods of accounting are the "cash receipts and disbursements method" and the "accrual method." Section 446 permits the use of these methods or any other method permitted under the Code or any combination of these methods in accordance with reg-Code or any combination of these methods in accordance with regulations. If a taxpayer engages in more than one trade or business, it may, with respect to each trade or business, use a different method of accounting. Each method must, however, clearly reflect the income of the particular trade or business with which it is used, and separate profit and loss statements for each trade or business must be submitted. Except in those cases where the law specifically permits it, a taxpayer may not change the method of accounting upon the basis of which it has reported its income in prior years (for its income as a whole or with respect to any separate trade or business) without first securing consent. For procedure to be followed in securing consent, see your District Director. dure to be followed in securing consent, see your District Director.

Cash receipts and disbursements method.—Under this method, a taxpayer includes all items of taxable income (whether cash, property, or services) in the year when it is actually or constructively received and claims as deductible expenses only those expenses actually paid. Income is constructively received when the amount is credited to the taxpayer's account, or set aside for it, and is unconditionally subject to its command. This includes uncashed checks, bank interest credited, matured bond coupons, and other similar items which can be immediately turned into cash. Do not deduct capital expenditures.

Accrual method.-Under this method income is reported in the year when the taxpayer first has a definite right to income, the amount of which can be ascertained with reasonable accuracy while deductions are taken in the year in which there is first established a specific liability, the amount of which can be ascertained with reasonable accuracy. Where the right to income or the liability for expense is uncertain, or the amount of such income or expense cannot be ascertained with reasonable accuracy, accrual is generally postponed until a determination is possible.

Other methods.—Separate provisions are contained in section 453 for installment method of accounting. For other information on accounting methods, see your District Director.

Rounding off to whole-dollar amounts.—If you wish, the money items on your return or accompanying schedules required by such return may be shown as whole-dollar amounts. This means that you eliminate any amount less than 50 cents, and increase any amount from 50 cents through 99 cents to the next highest dollar.

D. Filing of return and payment of tax.—Returns of domestic and resident foreign corporations must be filed on or before the 15th day of the third month following the close of the taxable year with the District Director of Internal Revenue for the district in which the corporation's principal place of business or principal office or agency is located. (Section 6072.)

Request for automatic extension of 3 months for filing of return must be made on Form 7004. (Section 6081 (b).)

The halance of tax due as shown on line 3 page 1 of the return

The balance of tax due as shown on line 3, page 1 of the return, must be paid in full when the return is filed or in two installments, 50 percent on or before the 15th day of the third month and 50 percent on or before the 15th day of the sixth month following the close of the taxable year.

If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the District Director. The tax may be paid in cash or by check or money order drawn to the order of "Internal Revenue Service." Cash payment should be made. only in person at the District Director's office.

A declaration of estimated tax must be made by every corporation which is subject to income tax under section 11 or 1201 (a), or subchapter L of chapter 1 (relating to insurance companies), if its income tax for the taxable year can reasonably be expected to exceed \$100,000 plus the amount of any estimated credits against tax. (See Form 1120-ES.) In the case of affiliated corporations filing a consolidated return, see consolidated return regulations prescribed under section 1502.

Additional charge for underpayment of estimated tax.-Underpayment of installments of estimated tax will result in additional charges for the period from the due date of each installment until paid, or until the due date for filing the tax return, whichever is the earlier.

The charge with respect to any underpayment of any installment is mandatory and will be made unless the exceptions specified in section 6655 (d) are applicable.

If you have an underpayment of estimated tax and believe the additional charge should not be asserted due to the applicability of the "relief provisions" of section 6655 (d), attach a statement to your return explaining which of the provisions applies to you, showing any necessary computations. If you wish, you may obtain Form 2220 from the nearest Internal Revenue Service office for this purpose.

E. Signature and verification.—The return must be signed either by the president, vice-president, treasurer, assistant treasurer or chief accounting officer, or by any other corporate officer (such as tax officer) who is authorized to sign. A receiver, trustee, or astax officer) signee must sign any return which he is required to file on behalf of

Instructions 1120 (1958)

# PAGE 2

a corporation. The statement at the bottom of page 1 of the return is required to be signed by any person, firm, or corporation who prepared the taxpayer's return. If the return is prepared by a firm or corporation, it should be signed in the name of the firm or corporation. The statement is not required if the return is prepared by a regular, full-time employee of the taxpayer.

F. Failure to file, etc.—Substantial additions to the tax are imposed for failing to file a return, for late filing, and for filing a false or fraudulent return.

G-(1). Information at the source.—Every corporation making payments in the course of its trade or business of (1) interest, rents. commissions, or other fixed or determinable income of \$600 or more during the calendar year 1958 to an individual, a partnership, more during the calendar year 1958 to an individual, a partnership, or a fiduciary, or (2) salaries or wages of \$600 or more shall make returns on Forms 1096 and 1099, except that the making of such returns will not be required with respect to salary or wage payments included on Form W-2, provided copies of withholding statements on Form W-2 are furnished. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099. Except as stated below, the returns on Forms 1096 and 1099 shall also include dividend payments totaling \$10 or more during the calendar year 1958 to each shareholder who is an individual

the calendar year 1958 to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident. In the case of payments by a building and loan association, a cooperative bank, a homestead association, a credit union, or a savings and loan association, such total shall be \$600 or more. In the case of payments by a corporation described in sections 501 (c) (12), (15), (16), 521 and 522, or in the case of a national farm loan association or a production credit association, such total shall be \$100 or more.

The returns on Forms 1096 and 1099 shall also include (except in the case of insurance companies taxable under Subchapter L and corporations exempt under section 501 (c) (12) or (15)) patronage dividends, rebates, and refunds totaling \$100 or more during the calendar year 1958, whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, or in some other manner.

G-(2). Information regarding dissolution or liquidation.— Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966 setting forth the terms of such resolution or plan.

Every corporation making distributions in liquidation of the whole or any part of its capital stock shall also make returns on Forms 1096 and 1099L, as required by instructions on Form 1096,

for the calendar year 1958.

- G-(3). Certain transfers of property on or after January 1, 1951.—Under certain circumstances the \$25,000 exemption from surtax and the \$100,000 accumulated earnings credit are not allowed or may be reduced to a lesser figure. Section 1551 provides that if a corporation on or after January 1, 1951, transfers all or part of its property (other than money) to another corpora-tion which was created for the purpose of acquiring such property or which was not actively engaged in business at the time of such acquisition and if after such transfer the transferor corporation or its stockholders, or both, are in control of such transferee corpora-tion during any part of the taxable year of such transferee cor-poration, the transferee corporation shall not for such taxable year (except as may be otherwise determined under section 269 (b)) be allowed either the \$25,000 exemption from surtax provided in section 11 (c) or the \$100,000 accumulated earnings credit provided in section 535 (c), unless such transferee corporation shall establish by the clear preponderance of the evidence that the securing of such exemption or credit was not a major purpose of such transfer. For the purposes of section 1551, control means the ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of stock of the corporation. Rules are provided in sections 544 and 1551 for determining ownership of stock. For allocation of the surtax exemption and the accumulated earnings credit in certain cases, see section 269 (b).
- G-(4). Information regarding renegotiable contracts.—Every corporation which held, during the taxable year, contracts or subcontracts which were subject to the Renegotiation Act of 1951 shall, in answer to question H, page 1, state the actual or, if not accurately determinable, its best estimate of the aggregate gross

dollar amount billed during the current taxable year under all contracts and/or subcontracts

H. Returns of certain corporations. Domestic corporations entitled to benefits of section 931.—Domestic corporations within the possessions of the United States (except the Virgin Islands) may report as gross income only gross income from sources within the United States, provided (a) 80 percent or more of the gross income for the 3-year period immediately preceding the close of the taxable year (or such part thereof as may be applicable) was derived from sources within a possession of the United States and derived from sources within a possession of the United States, and (b) 50 percent or more of the gross income for such period or such part thereof was derived from the active conduct of a trade or business within a possession of the United States.

Resident foreign corporations.—Foreign corporations which at any time within the taxable year are engaged in trade or business within the United States shall make returns on Form 1120 of income derived from sources within the United States. (Section

Nonresident foreign corporations,—Foreign corporations not engaged in trade or business within the United States at any time within the taxable year are subject to tax upon gross income from sources within the United States (determined under the provisions of sections 861 through 864) consisting of fixed or determinable annual or periodical income and of certain gains derived from the disposal of timber and coal. Returns required from these corporations must be made on Form 1120NB.

Insurance companies.-Life insurance companies subject to tax imposed by section 811 shall make returns on Form 1120L. Mutual insurance companies subject to tax imposed by section 821 shall make returns on Form 1120M. Insurance companies described in section 831, and mutual savings banks described in section 594 and conducting life insurance business, shall make returns on Form 1120. There should be filed with the return a copy of the 1958 annual statement approved by the National Convention of Insurance Commissioners which contains the underwriting and investment exhibit.

Regulated investment companies.—If for any given year the investment company satisfies the requirements of section 851 it will be considered a regulated investment company.

Personal holding companies.—Section 541 imposes a tax upon the undistributed personal holding company income (as defined in section 545) of corporations classified as personal holding companies. Every personal holding company must file a schedule 1120PH with its return on Form 1120.

Under the provisions of section 542, a corporation is a "personal holding company" if at least 80 percent of its gross income for the taxable year is personal holding company income as defined in section 543, and if at any time during the last half of the taxable year more than 50 percent in value of its outstanding stock is owned, directly or indirectly, by or for not more than five individuals. (Sections 541-547.)

Foreign personal holding companies.—Section 551 (a) requires that the undistributed foreign personal holding company income of a foreign personal holding company, as defined in section 552, shall be included as a dividend in the gross income of the United States shareholders in the amount provided by subsection (b). Schedule 1120PH is not required, but monthly and annual information returns on Forms 957 and 958 must be filed by the officers, directors, and certain United States shareholders as provided by

A foreign corporation which is a personal holding company, as defined in section 542 but not within the definition of section 552, is subject to the tax imposed by section 541 on undistributed pe sonal holding company income and must file a schedule 1120PH with its return.

Exempt organizations.—Section 511 imposes a tax upon the income derived from an unrelated trade or business of certain exempt organizations. Every such organization subject to this tax must file a Form 990-T.

Exempt farmers' cooperatives.—Section 522 imposes a tax upon certain cooperatives exempt under section 521. organization subject to tax must file Form 990-C. Every such

Small business corporations.—Corporations which qualify and elect under section 1372 (a) to have their taxable income taxed directly to the shareholders (rather than to the corporation), must file Form 1120-S, instead of Form 1120. To qualify for this

treatment, a company must be a domestic corporation which is not a member of an affiliated group (as defined in section 1504) and which does not have (1) more than 10 shareholders; (2) a shareholder (other than an estate) who is not an individual; (3) a shareholder who is a nonresident alien; and (4) more than one

I. Consolidated returns.—Subject to the provisions of sections 1501 through 1552 and the regulations, an affiliated group of corporations may make a consolidated income tax return in lieu of separate returns. The making of a consolidated return shall be upon the condition that all corporations which at any time during the taxable year have been members of the affiliated group consent to all the consolidated return regulations prescribed under section 1502 prior to the last day prescribed by law for the filing of such return. The common parent corporation, when filing a consolidated return, shall attach thereto a schedule showing the names and addresses of all the corporations included in the return. Form 851, Affiliations Schedule, should be obtained from the District Director of Internal Revenue and filed as a part of the return. Each subsidiary must prepare two signed copies of Form 1122 authorizing the making of the return on its behalf. One such form shall be attached to the consolidated return as a part theseof and shall be attached to the consolidated return as a part thereof, and the other shall be filed, at or before the time the consolidated return is filed, in the office of the District Director for the subsidiary's district.

Supporting schedules shall be filed with the consolidated return. These schedules shall be prepared in columnar form, one column being provided for each corporation included in the consolidation, showing in detail the items of gross income and deductions and the computation of taxable income; one column for a total of like items before adjustments are made; one column for intercompany eliminations and adjustments; and one column for a total of like items after giving effect to the eliminations and adjustments. The items included in the column for eliminations and adjustments should be symbolized to identify contra items affected, and suitable explanations appended, if necessary. Similar schedules shall also contain in columnar form a reconciliation of surplus for each corporation, together with a reconciliation of the consolidated surplus.

Consolidated balance sheets as of the beginning and close of the taxable year of the group shall accompany the consolidated return in a form similar to that required for reconciliation of surplus.

J. Tax on improperly accumulated earnings.—In order to prevent accumulation of earnings and profits for the purpose of enabling shareholders to avoid the tax on individuals, section 531 provides an additional tax upon the accumulated taxable income of corporations formed or availed of for the purpose of such tax

- K. Stock ownership in foreign corporations.—In addition to the information to be shown in Schedule C of the return, a corporation owning directly or indirectly any stock of a foreign corporation must attach a statement showing the name and address of each company and the total number of shares of each class of outstanding stock owned during the taxable year. If the corporation owned 5 percent or more in value of the outstanding stock of a foreign personal holding company, attach a statement setting forth in complete detail the information required by section 551 (d).
- L. Balance sheets.—The balance sheets, Schedule L, should agree with the books of account or any differences should be recon-The balance sheets for a consolidated return of affiliated corporations should be furnished in accordance with Instruction I. All corporations reporting to the Interstate Commerce Commission or to any National, State, municipal, or other public officer, may submit, in lieu of Schedule L, copies of their balance sheets prescribed by such authorities as at the beginning and end of the taxable year.
- Line 10, Schedule L, should show land less any accumulated amortization of the land as an emergency facility under the authority of sections 124 and 124A of the Internal Revenue Code of 1939 or section 168 of the Internal Revenue Code of 1954.
- Line 15, Schedule L, should be used by banks, building and loan associations, and other financial institutions to report demand and time deposits of customers, including withdrawable shares, share accounts, and investment certificates.
- M. Forms other than prescribed by return.—Banks, insurance companies, and other corporations required to submit statements of income and expenses to any National, State, municipal, or other public officer may submit with the return a statement of income and expenses in the form furnished to such officer, in lieu of the information requested in lines 1 to 41, pages 2 and 3, except that a railroad company may submit with the return a statement on Form 1090. In such cases the taxable income will be reconciled by means of Schedule M with the net profits shown by the income and expense statement submitted, and should be entered as line 41, page 3.
- N. Attachments.—Attachments may be used in the preparation of your return and supplemental schedules, provided they contain all of the required information and that summarized totals of the items shown in the attachments are entered on the return and schedules. This does not apply to any tax computation portion of a form or schedule.

# SPECIFIC INSTRUCTIONS (Numbered to correspond with line numbers on pages 2 and 3 of return)

2. Cost of goods sold.—If the production, manufacture, purchase, or sale of merchandise is an income-determining factor in the trade or business, inventories of merchandise on hand should be taken at the beginning and end of the taxable year, and may be valued at cost, or at cost or market, whichever is lower, or by any other permissible method.

An inventory method once properly adopted is controlling until permission to change is obtained from the Commissioner. Appli-cation for permission to change an inventory method shall be made in writing and filed with the Commissioner within 90 days after the beginning of the taxable year in which it is desired to effect a change. In case the inventories reported do not agree with the balance sheet, attach a statement explaining the difference.

A corporation electing to use the last-in, first-out method of valuing inventory provided for in section 472 must file Form 970 with the return for the first year of the election. Thereafter, attach separate schedule showing: (1) a summary of all inventories; (2) with respect to any inventories computed under section 472, the computation of the quantities and cost by acquisition levels.

9. Interest on corporation bonds, etc.—Enter on line 9, page 2, the amount of interest on bonds, debentures, notes, or certificates or other evidences of indebtedness, issued by any corporation and bearing interest, with interest coupons or in registered form. Do not include interest on any such obligations which constitute stock in trade of the taxpayer or any such obligations of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or any such obligations held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business. Such interest should be

entered on line 8. For provisions relating to amortizable bond premium, see section 171.

10. Interest on obligations of the United States, etc.—Enter the interest on longations of the Onited States, etc.—Enter the interest on line 10, page 2; and in Schedule L, the amounts of the various obligations owned. Also enter on line 3, Schedule M, all interest received or accrued during the year on the various obligations listed therein. The net amount of interest reported on line 10 (a), page 2, is also allowable as a deduction. See paragraph 35 of these instructions. The amount of interest received or accrued on obligations issued on or after March 1, 1941, by the United on obligations issued on or after Match 1, 1571, by the Clinical States or any agency or instrumentality thereof should be entered on line 10 (b), page 2. For provisions relating to amortizable bond premium, see section 171.

For special rules applicable to dealers in securities, with respect to premium attributable to certain tax-exempt securities, see section 75.

Non-interest-bearing obligations issued at a discount.—Taxpayers on the cash basis may elect, as to all non-interest-bearing obligations issued at a discount and redeemable for fixed amounts increasing at stated intervals (for example, United States Savings Bonds), to include the increase in redemption price applicable to the current year. For the year of election the total increase in redemption price of such obligations occurring between the date of acquisition and the end of the year must be included. Attach statement listing obligations owned and computation of the increase. (Section 454.)

11. Rents.—Enter the gross amount received for the rent of property. Any expenses, including repairs, interest, taxes, and

### PAGE 4

depreciation should be included in the proper lines for deductions on pages 2 and 3. In the case of a lease entered into prior to January 1, 1954, if both lessor and lessee are corporations and if under the lease the lessee is obligated to pay any part of the lessor's income tax on the rental payment, this tax is excluded from lessor's gross income and may not be deducted by lessee. (Section 110.)

- 12. Royalties.—Enter the gross amount received as royalties. If a deduction is claimed for depletion, it must be reported on line 27, page 3.
- 13. Gains and losses from sales or exchanges of capital assets and other property.—The computation of gains and losses from sales or exchanges of capital assets and property other than capital assets should be made on separate Schedule D. Every sale or exchange of property, even though no gain or loss is indicated, must be reported in detail. If for any taxable year the net long-term capital gain exceeds the net short-term capital loss, or in case of only a net long-term capital gain, a computation of the alternative tax should be made on separate Schedule D.
- 14. Other income.—Enter total amount of other income not reported elsewhere in the return and attach schedule showing details, if spaces provided are not sufficient.
- 18. Rents.—Enter rent paid or accrued for business property in which the corporation has no equity. With respect to leases entered into prior to January 1, 1954, see instruction No. 11.
- 19. Repairs.—Enter the cost of incidental repairs, including labor, supplies, and other items, which do not add to the value or appreciably prolong the life of the property. Expenditures for new buildings, machinery, equipment, or for permanent improvements or betterments which increase the value of the property are chargeable to capital account.
- 20. Bad debts.—Bad debts may be treated in either of two ways—(1) by a deduction from income in respect of debts which become worthless in whole or in part, or (2) by a deduction from income of a reasonable addition to a reserve for bad debts. (Section 166.)

A taxpayer filing a first return of income may select either of the two methods, and that method must be followed for subsequent years, unless permission is granted by the Commissioner to change to the other method. Application for permission to change the method shall be made in writing at least 30 days prior to the close of the taxable year for which it is desired to effect the change.

Worthless debts arising from unpaid rents, and similar items of taxable income, will not be allowed as a deduction unless the income such items represent has been included in the return of income for the year for which the bad debt deduction is claimed, or for a previous year.

For treatment of bad debts of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit, see section 593 and the regulations thereunder.

21. Interest.—Enter interest paid or accrued on business indebtedness. Do not include in line 21 interest on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest on which is wholly exempt from income tax. (Section 265.)

See section 267 for limitation on deductions for unpaid expenses

See section 267 for limitation on deductions for unpaid expenses and interest in the case of transactions between related taxpayers.

- 22. Taxes.—Enter taxes paid or accrued during the taxable year. Do not include Federal income, war-profits, and excess-profits taxes; estate, inheritance, legacy, succession, and gift taxes; foreign or United States possession income taxes if any credit is claimed in line 47, page 3; Federal taxes paid on bonds containing a tax-free covenant, nor taxes not imposed upon the taxpayer. See section 164 (d) regarding apportionment of taxes on real property between seller and purchaser.
- 23. Contributions or gifts paid.—Enter contributions or gifts actually paid within the taxable year to or for the use of (1) a State, a Territory, a possession of the United States, or any political subdivision of any of the foregoing, or the United States or the District of Columbia for exclusively public purposes; (2) a corporation, trust, or community chest, fund, or foundation, created or organized in the United States or in any possession thereof or under the law of the United States, or of any State or Territory, or of the District of Columbia, or of any possession of the United

States, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes or the prevention of cruelty to children or animals (but in the case of contributions or gifts to a trust, chest, fund, or foundation only if such contributions or gifts are to be used within the United States or any of its possessions exclusively for such purposes), no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which iscarrying on propaganda, or otherwise attempting to influence legislation; (3) posts or organizations of war veterans, or auxiliary units of, or trusts or foundations for, any such posts or organizations, if such posts, organizations, units, trusts, or foundations are organized in the United States or any of its possessions, and if no part of their net earnings inures to the benefit of any private shareholder or individual; or (4) nonprofit cemetery or burial companies. The amount claimed shall not exceed 5 percent of the corporation's taxable income computed without regard to (1) this deduction, (2) the "special deductions" in lines 35 to 39, page 3, and (3) any net operating loss carryback to the taxable year under section 172.

In the case of a corporation on the accrual basis, any contribution or gift will, at the election of the taxpayer made at the time the return is filed, be considered as paid during the taxable year if payment is actually made on or before the fifteenth day of the third month following the close of the taxable year, and if the contribution or gift has during the taxable year been authorized by the board of directors of the corporation. A copy of such authorization must be attached to the return.

Do not deduct as a business expense charitable contributions which come within the above description, but which are unallowable in whole or in part because of the limitation contained in section 170. (Section 162 (b).)

section 170. (Section 162 (b).)

Any contributions paid during the taxable year in excess of the amount deductible may be carried over and deducted in the two succeeding taxable years subject to the 5 percent limitation provided in section 170 (b) (2). In a taxable year to which there is a net operating loss carryover and charitable contributions in excess of the amount deductible (or a charitable contribution carryover from a preceding taxable year), see section 170 (b) (3).

- 24. Losses by fire, storm, shipwreck, or other casualty, or theft.— Enter losses sustained during the year, arising from fire, storm, shipwreck, or other casualty. For determination of the amount deductible, see section 165 (b). Theft losses are deductible only in the year in which discovered.
- 25. Amortization.—If a deduction is claimed on account of amortization, fill in Schedule I. The law makes special provisions for amortization of the following kinds of assets and expenditures:
  - (a) Emergency facilities.—Section 168;
  - (b) Grain storage facilities.—Section 169;
  - (c) Research and experimental expenditures.—Section 174;
  - (d) Exploration expenditures.—Section 615;
  - (e) Development expenditures.—Section 616;
  - (f) Organizational expenses.—Section 248; and
- (g) Trade-mark and trade-name expenditures.—Section 177.

For details concerning the information which must be furnished in the statements of election required by these sections, consult your District Director.

26. Depreciation.—If a deduction is claimed on account of depreciation, fill in Schedule J. A reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in the trade or business or of property held by the taxpayer for the production of income shall be allowed as a depreciation deduction. (Section 167.) The allowance does not apply to inventories or stock-in-trade nor to land apart from the improvements or physical developments added to it. Depreciation on leasehold improvements, patents and copyrights shall be included in Schedule J.

The useful life of an asset can be measured in units of produc-

The useful life of an asset can be measured in units of production, etc., but the ordinary practice is to measure useful life in years. Business experience, engineering information, and other relevant factors provide a reasonable basis for estimating the useful life of property. The cost (or other basis) to be recovered should be charged off over the expected life of the property to the tax-payer. For guidance, comprehensive tables of "average useful lives" of various kinds of buildings, machines, and equipment in many industries and businesses have been published in a booklet called Bulletin F, which may be purchased for 30 cents from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. A brief description of the various methods of depreciation follows:

- (a) Straight line method.—The most common method of computing depreciation is the "straight line" method. It allows for the recovery of cost in equal annual amounts over the estimated useful life of the property, with only salvage value remaining at the end of its useful life. To compute the deduction, add the cost of improvements to the cost (or other basis) of the asset and deduct both the estimated salvage value and the total depreciation allowed or allowable in past years. Divide the result by the number of years of useful life remaining to the asset—the quotient is the depreciation deduction.
- (b) Declining balance method.—Under this method a uniform rate is applied each year to the remaining cost or other basis of property (without adjustment for salvage value) determined at the beginning of such year. For property acquired before January 1, 1954, or used property whenever acquired, the rate of depreciation under this method may not exceed one and one-half times the applicable straight-line rate.
- (c) Special rules for new assets acquired after December 31, The cost or other basis of an asset acquired after December 31, 1953, may be depreciated under methods proper in the past; or, it may be depreciated under any of the following methods provided (1) that the asset is tangible, (2) that it has an estimated useful life of three years or more to the taxpayer, and (3) that the original use of the asset commenced with the taxpayer and commenced after December 31, 1953. If an asset is constructed, reconstructed, or erected by the taxpayer, so much of the basis of the asset as is attributable to construction, reconstruction, or erection after December 31, 1953, may be depreciated under methods proper in the past; or, it may be depreciated under any of the following methods provided that the asset meets qualifications (1) and (2) above.
- (1) Declining balance method.—This method may be used with a rate not in excess of twice the applicable straight-line rate.

(2) Sum of the years-digit method.—Under this method annual allowances for depreciation are computed by applying changing fractions to the taxpayer's cost or other basis of property (reduced by estimated salvage).

- The deduction for each year is computed by multiplying the cost or other basis of the asset (reduced by estimated salvage value) by the number of years of useful life remaining (including the year for which the deduction is computed) and dividing the product by the sum of all the digits corresponding to the years of the estimated useful life of the asset. In the case of a 5-year life this sum would be 15 or (5+4+3+2+1). For the first year five-fifteenths of the cost reduced by estimated salvage value would be allowable, for the second year four-fifteenths, etc.
- (3) Other methods.—A taxpayer may use any consistent method which does not result in accumulated allowances at the end of any year greater than the total of the accumulated allowances which would have resulted from the use of the declining balance method. This limitation applies only during the first two-thirds of the useful life of the property.
- (d) Section 179-Additional first-year depreciation allow--Corporations may elect to write off in the year of acquisition 20 percent of the cost of tangible personal property having an aggregate value of not more than \$10,000. This additional first-year depreciation is allowed in full for the first taxable year for which a deduction is allowable under section 167, regardless of the date of acquisition. The cost of property does not include so much of the basis of such property as is determined by reference to the basis of other property held at any time by the person acquiring such property. This additional depreciation is limited to property acquired after December 31, 1957, with a remaining useful life of 6 years or more and which is not acquired from an affiliated corporation (as defined in section 1504, except that "more than 50 percent" stock ownership is substituted for "at least 80 percent" wherever it appears in section 1504 (a)). All members of the affiliated group will be treated as one taxpayer and the \$10,000 affiliated group will be treated as one taxpayer, and the \$10,000 limitation will be apportioned among the members in the manner prescribed by regulations. Further, for this allowance to apply in any case, the basis of the property must not be determined in whole or in part by reference to the transferor's basis. Depreciation on the remaining cost of the property may be taken under any of the methods indicated above. The additional first-year depreciation of an asset should be shown on a separate line of the depreciation schedule rather than included on the line used to show the regular depreciation of the asset.
- 27. Depletion of mines, oil and gas wells, timber, etc.-If a deduction is claimed on account of depletion, procure from the District Director: Form M (mines and other natural deposits), Form O (oil and gas), or Form T (timber), fill in and file with

- return. If complete valuation data have been filed with questionnaire in previous years, then file with your return information necessary to bring your depletion schedule up to date, setting forth in full statement of all transactions bearing on deductions from or additions to value of physical assets during the taxable year with explanation of how depletion deduction for the taxable year has been determined. (Sections 611, 612, and 613.) Expenditures to be deferred and deducted ratably under the election provided in sections 616 (b), relating to certain expenditures in the development of mines, and 615 (b), relating to deductions for mine exploration, are not to be taken into account in determining the adjusted basis for property for the purpose of computing a deduction for depletion under section 611.
- 28. Advertising.—Enter on line 28 the total amount paid or incurred during the year for advertising. Expenditures for advertising, to be deductible, must be ordinary and necessary and bear a reasonable relation to the business activities in which the corporation is engaged.
- 29 (a). Pension, annuity, stock bonus, or profit-sharing plans.— Enter on line 29 (a) the total amount deductible under section 404. A corporation claiming a deduction under section 404 must submit with its return, in addition to the information specified in the regulations concerning such deduction, a statement with respect to each plan showing the type of plan, i. e., pension, annuity, profit-sharing, stock bonus, or other plan deferring the receipt of compensation, whether or not the plan is qualified under section 401 (a), and if trusteed, whether or not the trust is exempt under section 501 (a), and the method of funding, i. e., individual annuity or insurance contracts, group annuity contract, group permanent contract, or self-insured trust. If not funded, so indicate. Contributions paid by an employer to or under a pension, annuity, stock bonus, or profit-sharing plan or compensation paid or accrued on account of any employee under a plan deferring the receipt of such compensation, are deductible only under section 404, and are not deductible under section 162.
- 29 (b). Other employee benefit plans.—Enter on line 29 (b) deductions for contributions to employee benefit plans (other than those claimed on line 29 (a)), such as insurance, health, or welfare plans. Submit with the return a schedule for each plan showing (1) the nature of benefits, i. e., group term life insurance, group permanent life insurance, noninsured death benefit, hospitalization, surgical, medical, sickness, accident, major medical expense, unemployment benefit, or other welfare benefits; (2) method of financing, i. e., insured, industry or areawide fund, self-insured fund, or direct benefit payments; (3) the amount of deduction; (4) the amount of employee contributions; (5) the number of employees covered; and (6) if a self-insured plan, the amount of benefits paid during the taxable year. Also show the number of employees employed by the corporation.
- 30. Other deductions authorized by law.—Enter on line 30 any other authorized deductions for which no space is provided on the return. Any deduction claimed should be explained in Schedule K. No deduction is allowable for the amount of any item or part

thereof allocable to a class of exempt income other than interest. For nonallowance of interest on indebtedness incurred or continued to purchase or carry tax-exempt securities, see instruction 21. Items directly attributable to wholly exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. A taxpayer receiving any such exempt income, or holding any property or engaging in any activity the income from which is exempt shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of expense items allocated to each such class (the amount allocated by apportionment being shown separately).

In the case of mutual savings banks, cooperative banks, and

domestic building and loan associations, any amounts paid or credited to the accounts of depositors or holders of accounts as dividends on their deposits or withdrawable accounts, if such amounts may be withdrawn on demand subject only to customary notice of intention to withdraw, are allowable deductions in computing

taxable income. (Section 591.)
Under section 592 a special deduction in computing taxable income is allowed a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, or a cooperative bank without capital stock organized and operated for mutual purposes and without profit, for repayment during the

### PAGE 6

taxable year of loans made before September 1, 1951, by the United States or its wholly owned agencies, or by a mutual fund established under the authority of State law.

3. Net operating loss deduction.—The "net operating loss deduction" is the sum of the net operating loss carryovers and carrybacks to the taxable year. (Section 172 (a).) A net operating loss for taxable years ending after December 31, 1957, may be carried back 3 years and carried over 5 years. The net operating loss must first be carried to the earliest of the 8 taxable years to which it may be carried, then to the next earliest year, etc. The portion of such loss which shall be carried to each of the other 7 taxable years shall be the excess, if any, of the amount of such loss over the sum of the taxable income for each of the prior taxable

years to which such loss may be carried. (Section 172 (b).)

The term "net operating loss" means, for taxable years ending after December 31, 1953, the excess of allowable deductions over gross income, computed with the following modifications:

(a) No net operating loss deduction is allowed.
(b) The special deductions provided in section 242 (partially tax-exempt interest) and section 922 (Western Hemisphere trade corporations) are not allowed.

(c) The special deductions allowed by section 243 (dividends received by corporations), section 244 (dividends received on certain preferred stock of public utilities), and section 245 (dividends received from certain foreign corporations) are computed without regard to the 85-percent limitation provided in section 246 (b). See section 1.172-2 of the regulations.

(d) The special deduction allowed by section 247 (dividends paid on certain preferred stock of public utilities) is computed without regard to the provisions of subsection (a) (1) (B) of such section. (Section 172 (d).)

As stated, the net operating loss deduction is the sum of the carryovers and carrybacks. However, the following modifications must be taken into account in determining the taxable income for any year which must be subtracted from a net operating loss to determine the portion of such loss which will still be available

to carry to a subsequent year:
(a) The special deductions provided in sections 242 (partially tax-exempt interest) and 922 (Western Hemisphere trade corpora-

tions) are not allowed.

(b) The amount of the net operating loss deduction is determined without regard to the net operating loss for the loss year or

any taxable year thereafter.

With respect to all taxable years, whether they begin before, on, or after January 1, 1954, in determining the amount of any net operating loss carryback or carryover to any taxable year, the necessary computations involving any other taxable year must be made under the law applicable to such other taxable year. (Section 172 (e).)

The determination of any taxable year to which a net operating loss sustained in a taxable year ending before January 1, 1954, may be carried, must be made under the Internal Revenue Code

may be carried, must be made under the Internal Revenue Gode of 1939; such determination for a net operating loss sustained in any taxable year ending after December 31, 1953, shall be made under the 1954 Code. (Section 172 (g).)

If the corporation desires prompt adjustment for an overpayment attributable to a net operating loss carryback, an application for a tentative adjustment should be filed on Form 1139 within 12 months after the close of the taxable year in which the net operating loss is sustained. (Section 6411.)

For treatment of net operating loss carryovers in certain corpo-

rate acquisitions, see section 381.

For special limitation on net operating loss carryovers in case of a corporate change of ownership, see section 382.

Section 852 (b) (2) provides that no net operating loss deduc-

tion shall be allowed in the case of a regulated investment

35. Partially tax-exempt interest.—Enter the amount received as interest on obligations of the United States or on obligations of corporations organized under Act of Congress which are instrumentalities of the United States, but only if (1) such interest is included in gross income; and (2) such interest is exempt from normal tax under the Act authorizing the issuance of such obligations. This deduction must be reduced by any amortischle beach premium as provided in action 171 amortizable bond premium as provided in section 171.

36. Dividends received deductions.—(a) Dividends received from a domestic corporation.—Enter an amount equal to 85 percent of the amount received as dividends (except dividends on certain preferred stock of public utilities) from a domestic corporation subject to income tax. Amounts received as dividends from mutual savings banks, cooperative banks, and domestic build-ing and loan associations and allowed as a deduction to such banks or building and loan associations shall not be treated as dividends. In the case of dividends received from a regulated investment company, see section 854 regarding limitations on amount deductible. For taxable years beginning after September 2, 1958, a small business investment company operating under the Small Business Investment Act of 1958 can take as a deduction an amount equal to 100 percent of the dividends received.

(b) Dividends received on certain preferred stock of public utilities.—Enter 62.115 percent for taxable years beginning prior to July 1, 1959 (59.681 percent for taxable years beginning on or after July 1, 1959), of the amount received as dividends on the preferred stock of a public utility which is subject to income tax and is allowed a deduction, as provided in section 247, for

dividends paid.

(c) Dividends received from certain foreign corporations .-Enter 85 percent of dividends received from certain foreign corporations. See section 245 for qualifications and limitations on the amount of this deduction.

In general, no dividend-received deduction will be allowed on any share of stock (A) which is sold or otherwise disposed of in any case in which the corporation has held such share for 15 days or less, or (B) to the extent the corporation is under an obligation to make corresponding payments with respect to substantially identical stock or securities. Where the stock has preference in dividends, the holding period is 90 days instead of 15 if the corporation receives dividends with respect to such stock which are attributable to a period or periods aggregating in excess of 366 days.

- 37. Total dividends-received deductions.-In a year in which a net operating loss occurs, sections 172 (d) and 246 (b) provide that the 85-percent limitation on the amount of these special deductions shall not apply. In the case of a small business investment company, the dividends received deduction of 100 percent reported on line 36 (a) is not subject to the overall 85 percent limitation.
- 38. Deduction for dividends paid on certain preferred stock of public utilities.—In the case of a public utility there is allowed, in accordance with section 247, an amount equal to 26.923 percent for taxable years beginning prior to July 1, 1959 (29.787 percent for taxable years beginning on or after July 1, 1959), of the lesser of (1) the amount of dividends paid on its preferred stock during the taxable year, or (2) the taxable income for the taxable year computed without regard to the deduction provided in section 247. In a year in which a net operating loss occurs, section 172 (d) provides that this special deduction shall be computed without regard to section 247 (a) (1) (B).
- 39. Deduction for Western Hemisphere trade corporations.—In the case of a Western Hemisphere trade corporation, as defined in section 921, there is allowed under section 922 a deduction equal to 26.923 percent for taxable years beginning prior to July 1, 1959 (29.787 percent for taxable years beginning on or after July 1, 1959), of the taxable income of such corporation computed without regard to the deduction provided in section 922. Under the provisions of section 172 (d), this special deduction is not allowed in a year in which a net operating loss occurs.

# TAX COMPUTATION INSTRUCTIONS

- 1. Normal tax.—Section 11 provides a normal tax for taxable years beginning before July 1, 1959, equal to 30 percent of taxable income. In the case of a taxable year beginning after June 30, 1959, the normal tax is equal to 25 percent of taxable income.
- 2. Surtax.—Section 11 provides a surtax equal to 22 percent of the amount by which the taxable income (computed without regard to the deduction, if any, provided in section 242 for partially tax-exempt interest) exceeds \$25,000.
  - 3. Exceptions.—The tax imposed by section 11 shall not apply
- to a corporation subject to a tax imposed by—(1) section 594 (relating to mutual savings banks conducting life insurance business), (2) subchapter L (section 801 and following, relating to insurance companies), (3) subchapter M (section 851 and following, relating to regulated investment companies) or (4) section 881 (a) (relating to foreign corporations not engaged in business in United States).
- 4. Change in accounting period.—Under the provisions of section 443 (b) (1) if a corporation changes its accounting period,

the taxable income for the short period beginning on the day after the close of the former taxable year and ending at the close of the day before the day designated as the first day of the new taxable year shall be placed on an annual basis by multiplying the amount thereof by 12 and dividing by the number of months in the short period. The tax shall be that same part of the tax computed on the annual basis which the number of months in the short period is of 12 months.

However, taxpayers may elect to compute the tax for the short period according to the method described below if an application to do so is filed not later than the date when (giving effect to any extensions granted) the return for the first full taxable year after the beginning of the short period must be filed. (Section 443 (b) (2).) For details concerning the form and content of such an application, consult your District Director.

If a proper application is filed, the taxpayer may elect to pay whichever tax under the following two methods is greater, in place of the short period tax under section 443 (b) (1): (1) Establish the actual taxable income for the 12 months beginning with the first day of the short period; then compute the tax on that income. Then determine as a short period tax that part of the tax so computed which bears the same proportion to the total tax so computed as the taxable income of the short period bears to the taxable income of the 12 months. However, a taxpayer which distributes substantially all its assets before the end of the 12-month period described above, shall employ in the above computation the 12-month period ending with the last day of the short period. (2) Compute a tax on the taxable income of the short period as if the short period were a full taxable year.

In annualizing income of a short period consisting of 7 days or more, but less than 359 days, by reason of a change to a 52-53 week fiscal year, the annualization is made on a daily basis as provided in section 441 (f) (2) (B) (iii).

- 5. Consolidated returns.—Section 1503 provides that the tax imposed under section 11 (c) or section 831 shall be increased for any taxable year for which an affiliated group of includible corporations makes or is required to make a consolidated return by 2 percent of the consolidated taxable income (computed without regard to the deduction, if any, provided in section 242 for partially tax-exempt interest). If the affiliated group includes one or more Western Hemisphere trade corporations or one or more regulated public utilities, the increase of 2 percent shall be applied only on the amount by which the consolidated taxable income of the affiliated group exceeds the portion (if any) of the consolidated taxable income attributable to the Western Hemisphere trade corporations and regulated public utilities included in such group.
- 6. Insurance companies other than life or mutual.—All insurance companies (other than life or mutual insurance companies), including mutual marine insurance companies and mutual fire insurance companies exclusively issuing either perpetual policies or policies for which the sole premium charged is a single deposit, are subject to the taxes imposed by section 11. The taxable income of such insurance companies is defined in section 832 and differs from the taxable income of other corporations. This paragraph does not apply to foreign insurance companies not carrying on an insurance business within the United States. (Section 831.)
- 7. Life insurance departments of mutual savings banks.—A mutual savings bank not having capital stock represented by

shares, authorized under State law to conduct a life insurance business and which conducts such business in a separate department the accounts of which are maintained separately from the accounts of other departments of the bank is taxable under section 594 provided the life insurance department would, if it were treated as a separate corporation, qualify as a life insurance company under section 801.

The tax consists of the sum of—(1) a partial tax computed under section 11 upon the taxable income of the bank determined without regard to any items of gross income or deductions properly allocable to the business of the life insurance department; and (2) a partial tax upon the taxable income (computed as provided in section 811) of the life insurance department determined without regard to any items of gross income or deductions not properly allocable to such department, at the rates and in the manner provided in subchapter L with respect to life insurance companies.

Tax computation.—For the purpose of computing the first partial tax, a mutual savings bank should use Form 1120, filling in all applicable items (except lines 46 and 48, page 3) and schedules. The first partial tax should be computed by using lines 42 to 46 on page 3 of Form 1120. For the purpose of computing the second partial tax Form 1120L should be used. The first partial tax should be added to the second partial tax and the sum thereof entered on line 46 as the total income tax. Subtract from line 46 the sum of any credits on line 47 and enter on line 48 the balance of income tax. Form 1120L properly filled in should be attached to and made a part of Form 1120 and properly identified as an accompanying schedule. However, any Form 1120L so used need not be separately executed under the penalty of perjury.

8. Credit for taxes.—If, in accordance with section 901, a credit is claimed by a domestic corporation on line 47, page 3, on account of income, war profits and excess profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return. In case credit is sought for taxes accrued but not paid, the District Director may require a bond on Form 1119 as a condition precedent to the allowance of the credit. For carryback and carryover of a foreign tax credit, see section 904 (c).

If the corporation is entitled to a credit for taxes paid by a

If the corporation is entitled to a credit for taxes paid by a regulated investment company on undistributed capital gains, include the credit on line 2 B, page 1, and indicate by amount that such a credit is being claimed. Attach Copy B of Form 2439 to page 1 of the Form 1120.

- 9. Overpayment credited to estimated tax.—If the taxpayer elects to have all or part of the overpayment shown by his return applied to his estimated tax for his succeeding taxable year, no interest shall be allowed on such portion of the overpayment credited.
- 10. Resident foreign corporations.—Foreign corporations engaged in trade or business within the United States are subject to tax on their income from sources within the United States at the rates specified in section 11. (Section 882.)
- 11. Regulated investment companies.—For provisions relating to the method of taxation of regulated investment companies, see sections 851 through 855.

### PAGE 8

# PRINCIPAL BUSINESS ACTIVITY

In reporting the "Principal business activity," on page 1, give the one business activity that accounts for the largest percentage of "total receipts." "Total receipts" means gross sales (line 1, page 2), plus gross receipts (line 4, page 2), plus all other income (lines 7 through 14, page 2). State the broad field of business activity as well as the specific product or service, such as "Mining copper," "Manufacturing cotton broad woven fabric," "Wholesale food," or "Retail apparel." Where receipts are derived from two or more of the detailed industry groups listed below, show only one which is the major source of receipts. Use the appropriate group under the heading "FINANCE" if over 50 percent of "total receipts" consists of investment income.

Enter the "business group code number" on page 1 from the following list. Give the code for the specific industry group from which the largest percentage of "total receipts" is derived.

### AGRICULTURE, FORESTRY, AND FISHERY

# Code

### 011 Agriculture, forestry, and fishery.

### MINING AND QUARRYING

- Metal mining: 101 Iron ores. 102 Copper, lead, zinc, gold, silver ores. 109 Other metal mining.

# 121 Bituminous coal and lignite mining.

- Crude petroleum and natural gas: 131 Crude petroleum, natural gas, and natural gas liquids. 138 Oil- and gas-field services.

# Nonmetallic mineral and anthracite mining:

141 Stone, sand, gravel.
 149 Other nonmetallic minerals, except fuels, including anthracite.

## CONSTRUCTION

- 151 General contractors: buildings.
  152 General contractors: other.
  155 Special trade contractors.

## MANUFACTURING

- Beverages:

  191 Soft drinks, carbonated waters, and flavoring extracts and sirups.

  192 Malt liquors and malt.

  194 Wines, brandy, and brandy spirits.

  195 Distilled, rectified, blended liquors.

- 195 Distilled, rectified, blended liquors.
  Food and kindred products:
  200 Ment products.
  201 Dairy products, including combined processing and distribution of milk.
  202 Canning, preserving, and freezing fruits, vegetables, and seafoods.
  203 Grain-mill products, cereal preparations, wet corn milling, starch.
  204 Bakery products, including production for retail, except on premises.
  205 Sugar, cane and beet.
  206 Confectionery, related products.
  207 Vegetable and animal oils and fats, except fatty acids.
  208 Other food preparations and kindred products, including manufactured ice and sweetening sirups.
  211 Tobacco manufacturers.

# 211 Tobacco manufacturers.

- 211 Tobacco manufacturers.

  Textile mill products:
  220 Yarn and thread mills, including carpet and rug yarn.
  221 Broad woven fabric mills, cotton.
  222 Broad woven fabric mills, man-made fiber and silk.
  223 Broad woven fabric mills, wool: including dyeing and finishing.
  224 Narrow fabrics and other small-wares mills: cotton, wool, silk, and man-made fiber.
  225 Knitting mills and converters.
  226 Dyeing and finishing textiles, except wool fabrics and knit goods.
  227 Floor covering mills, except hard surface floor coverings.
  228 Other textile goods, including wool scouring and combing, tow to top mills, tire cord and fabrics.

  Apparel, finished products made from fabrics,

- mins, tire cord and mories.

  Apparel, finished products made from fabrics, similar materials; converters:

  231 Men's and boys' clothing, except fur, rubber, and leather.

  233 Women's clothing, and children's and infants' wear, except fur, rubber, and leather.
- 237 Other apparel and accessories, hats,
- 23/ Utner apparel and accessories, hats, caps, millinery, fur goods, raincoats, belts, leather garments.
   238 Other fabricated textile products, including housefurnishings, textile bags, canvas products, stitching, and apparel findings.

# Lumber and wood products, except furniture:

- 241 Logging camps, logging contractors, sawmills, and planing mills.
  243 Millwork, veneer, plywood, prefabricated structural wood products.
  249 Other wood products, wooden containers, cork, wood preserving.

- Furniture and fixtures, wood or metal: 251 Household furniture. 259 Other furniture, office and store fixtures, venetian blinds, shades, except scientific and medical furniture.

## Paper and allied products:

- 261 Pulp mills
- Pulp mills.

  Paper, paper board, and building paper and building board mills.

### Code

- 265 Paperboard containers and boxes, paper cups, sanitary food containers. 269 Converted paper and paperboard products, paper bags.

# Printing, publishing, and allied industries:

- 271 Newspapers.
  272 Periodicals, including comic books.
- 272 Periodicals, including comic books.
  273 Books.
  275 Commercial printing, manifold busi-
- ness forms, greeting cards.

  278 Other publishing, bookbinding, and service industries for the printing trade.

## Chemicals and allied products:

- Chemicals and allied products:

  280 Industrial inorganic and organic chemicals, including gases, pigments.

  281 Plastics materials and synthetic resins, rubber, and man-made fibers, except glass.

  282 Drugs and medicines, vitamins.

  283 Soap, detergents, and cleaning preparations, surface active agents, sulfonated oils and assistants.

  284 Paints, varnishes, lacquers, enamels, putty, except color pigments.

  285 Perfumes, cosmetics, and other tollet preparations.

  286 Agricultural chemicals.

  288 Other chemicals, including gum and wood, fatty acids, and explosives.

  Petroleum refining and related industries:

  291 Petroleum refining.

  299 Other petroleum and coal products, except coke and byproducts.

  Rubber and plastics products:

- Rubber and plastics products.

  Rubber and plastics products:

  301 Tires and inner tubes, camelback.

  306 Other rubber products, fabrics.

  307 Plastics products, except plastics materials.

Leather and leather products; converters: 314 Footwear, except rubber. 319 Other leather goods, patent leather gloves; leather tanning, finishing.

- gloves; leather tanning, finishing.

  Stone, clay, and glass products:
  321 Glass and glass products.
  324 Cement, hydraulic.
  325 Structural clay products.
  326 Pottery and related products.
  327 Concrete, gypsum, and plaster products, lime, and ready-mixed concrete.
  329 Other nonmetallic mineral products, abrasive, asbestos, mineral wool; cut stone and stone products.

  Primary metal industries:

- Primary metal industries:
  331 Blast furnaces, steel works, rolling and finishing mills, coke ovens; steel wire, nails, spikes, pipe, cold rolled sheet,
- hars, spikes, pipe, cold rolled sheet, bars.
  332 Iron and steel foundries.
  333 Primary and secondary smelting, refining, rolling, drawing, alloying of nonferrous metals, alloys, wire.
  336 Nonferrous foundries.
  338 Other primary metal industries, forgings, nonferrous nails, spikes.

- ings, nonferrous nails, spikes.

  Fabricated metal products, except machinery, and transportation equipment:

  340 Metal cans.

  341 Cutlery, hand tools, general hardware, except all-metal cutlery.

  342 Heating apparatus, except electric and plumbing fixtures.

  343 Fabricated structural metal products, boiler shops, heat exchangers, metal doors, windows, screens.

  344 Serew machine products, bolts, nuts.

  345 Metal stampings.

- screw machine products, boits, futs. Metal stampings.
  Metal coating, engraving, services.
  Ordnance and accessories.
  Other fabricated metal products; pipe, fittings, except plumbers' brass goods; valves; wire products except insulated wire and nails.
- Machinery, except electrical and transportation

- Machinery, except electrical and transportation
  equipment:
  350 Engines and turbines, turbine generator set units.
  351 Farm machinery and equipment.
  352 Construction, mining, materials handling machinery and equipment, elevators, escalators, monorall systems.
  353 Metalworking machinery and equipment, including dies and metal molds.
  354 Special industry machinery.
  355 General industry machinery
  356 General industry machinery and
  equipment, ball bearings, industrial
  patterns, dielectric heating units.
  356 Office, computing, and accounting
  machines, except photocopy equipment.

- 357 Service industry machines, automatic merchandising, commercial cooking and soda fountain equipment.
  358 Other machinery, parts, machine shops.

- shops.

  Electrical machinery and equipment:

  361 Electrical transmission and distribution equipment, except wiring devices, carbon and graphite products.

  362 Electrical industrial apparatus, motors and generators, controls, welding, carbon and graphite products.

  363 Household appliances, electrical, non-electrical.

- 363 Household appliances, electrical, nonelectrical.
  364 Electric lighting and wiring equipment, except insulated wire.
  365 Radio and television receiving sets,
  except communication types; phonographs, records, and parts.
  366 Communication equipment, transmitting, signaling apparatus.
  367 Electronic components, and accessories, electron tubes, except X-ray.
  368 Other electrical machinery, equipment, supplies, batteries, X-ray,
  equipment for internal combustion
  engines.

  Transportation equipment, except electrical and

# Transportation equipment, except electrical and

- Transportation equipment, except electrical and motor vehicle equipment:
  371 Aircraft, complete.
  372 Aircraft parts, rocket motors.
  373 Ship and boat building, repairing.

# TRANSPORTATION, COMMUNICATION, AND OTHER PUBLIC UTILITIES

- AND OTHER PUBLIC UTILITIES

  Transportation.

  411 Railroads, railway express.

  412 Local and suburban passenger transportation.

  413 Trucking and warehousing.

  414 Other motor vehicle transportation, including taxleabs and intercity and school busses.

  415 Petroleum pipeline transportation.

  416 Water transportation.

  417 Air transportation.

  418 Services, supplementary to transportation.

- tation.

# Communication: 421 Telephone (wire or radio). 422 Telegraph (wire and radio). 423 Radio and television broadcasting.

- 429 Other communication. Heetric and gas utilities:
  431 Electric companies and systems.
  432 Gas production and distribution except natural gas production.
- 441 Water supply and other public utilities.

# WHOLESALE TRADE

- Food and related products:
  477 Meat and products, except cannot and frozen, or poultry and fish.
  479 Other food and related products.
- Electrical goods, hardware, plumbing: 486 Electrical goods. 487 Hardware, plumbing and heating equipment and supplies. Other wholesalers:
  491 Alcoholic beverages.
  492 Dry goods and apparel.
  493 Drugs, chemicals, paints.

494 Lumber and construction materials. 495 Machinery, equipment, and supplies. 496 Motor vehicles and equipment. 497 Farm products—raw materials. 498 Other wholesalers.

RETAIL TRADE

- General merchandise:
  531 Department stores.
  532 Mail order houses; general, special.
  533 Limited price variety stores.
  539 Other general merchandise.
- 541 Apparel and accessories. 551 Furniture, home furnishings, appliance, radio, music stores.

- Automotive dealers and service stations:
  561 Automobiles and trucks.
  563 Tires, batteries, accessories; aircraft and other automotive dealers.
  564 Service stations.
- 581 Eating and drinking places.

# Building materials, hardware, farm: 591 Lumber and building materials. 595 Hardware and farm equipment.

- Other retail trade:
- 601 Drug stores. 602 Liquor stores. 607 Jewelry stores
- 608 Other retail stores.

# FINANCE, INSURANCE, AND REAL ESTATE Banks and trust companies: 621 Banks and trust companies, except mutual savings banks. 622 Mutual savings banks.

- Credit agencies other than banks:
  632 Savings and loan associations.
  634 Personal credit agencies.
  635 Business credit agencies.
  638 Other credit institutions.

- 638 Other credit institutions.
  Holding and other investment companies:
  641 Operating-holding companies (companies which derived less than 90 percent but more than 50 percent of "total receipts" from investments).
  642 Regulated investment companies.
  643 Small business investment companies,
  1958 Act.
  649 Other investment and holding companies (other companies which derived 90 percent or more of total receipts from investments).
  651 Security and commodity brokers, dealers.

# 651 Security and commodity brokers, dealers, exchanges, and services.

- Insurance carriers:
  661 Life insurance.
  662 Mutual, except life or marine, and except mutual fire insurance companies issuing perpetual policies.
  669 Other insurance carriers.
- 671 Insurance agents, brokers, and service. 671 Insurance agents, brekers, and service.
  Real estate:
  681 Real estate owners and operators, including lessors of buildings (excludes developers of real property and lessors of real property of real property, including traders on own account.
  684 Agents, brokers, managers, etc.
  685 Title abstract companies.
  689 Other real estate.

# Lessers of real property, except buildings: 692 Mining, oil, and similar properties. 693 Railroad property. 699 Other real property except buildings.

## SERVICES 701 Hotels, camps, other lodging places.

- Personal services:
  721 Laundries, cleaning and dyeing.
  723 Photographic studios including commercial photography.
  729 Other personal services.

Business services:
731 Advertising.
739 Other business services.

# Automobile and other repair services: 751 Automobile repair services and garages. 759 Other repair services.

Motion pictures:
781 Motion picture production, distribu-tion, and service industries.
783 Motion picture theaters.

791 Amusement and recreation services except motion pictures.
801 Other service organizations, schools.

# INSTRUCTIONS (References are to the Internal Revenue Code)

Gains and losses from sales or exchanges of capital assets and other property.—Report sales or exchanges of capital assets and sales or exchanges of property other than capital assets in Schedule D. Every sale or exchange of

property, even though no gain or loss may be indicated, must

be reported in detail.

Losses from sales or exchanges of capital assets shall be allowed only to the extent of gains from such sales or exchanges. However, the amount of a net capital loss sustained in any taxable year may be carried over to each of the five succeeding taxable years and treated in each such succeeding taxable year as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable year intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried.

Definition of capital assets.—The term "capital assets' means property held by the taxpayer (whether or not connected with its trade or business), but does not include (1) stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business; or (2) property used in the trade or business, of a character which is subject to the allowance for depreciation provided in section 167, or real property used in the trade or business of the taxpayer; or (3) certain copyrights, literary, musical, or artistic compositions, or similar properties; or (4) accounts or notes receivable acquired in the ordinary course of trade or business for services rendered or from the sale of property described in (1) above; or (5) an obligation of the United States or any of its possessions, or of a State or Territory, or any political subdivision thereof, or of the District of Columbia, issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding 1 year from the date of issue.

Classification of capital gains and losses.—The phrase "short-term" applies to the category of gains and losses arising from the sale or exchange of capital assets held for 6 months or less, and the phrase "long-term" to the category of gains and losses arising from the sale or exchange of capital assets held for more than 6 months.

Enter full description of each item of property sold or exchanged, even though no gain or loss may be indicated. Such description should include the following facts: (a) For real estate, location and description of land, description of improvements, details explaining depreciation; (b) for bonds or other evidences of indebtedness, name of issuing corporation, description of the particular issue, denomination, and amount; (c) for stocks, name of issuing corporation, class of stock, number of shares, and capital changes affecting basis (nontaxable stock dividends, other nontaxable distributions, stock rights, etc.).

The "basis" for the property is not subject to the same rule for reporting gains as for losses, if the property was acquired before March 1, 1913. If the property sold or exchanged was acquired prior to March 1, 1913, the basis for determining GAIN is the cost or the fair market value as of March 1, 1913, adjusted as provided in section 1016, whichever is greater, but in determining LOSS the basis is cost so adjusted. If property was acquired after February 28, 1913, basis for both gain and loss is the cost of such property, except as otherwise provided. The exceptions arise chiefly where property was acquired by bequest, gift, tax-free exchange, involuntary conversion, or wash sale of stock; see sections 1014, 1015, 1031, 1033, and 1091, respectively. If the amount shown as the basis is other than actual cash cost of the property sold or exchanged, full details must be furnished regarding the acquisition of the property.

Enter in column "e," the amount of depreciation, exhaustion, wear and tear, obsolescence, amortization and depletion in respect of the property. This amount shall be the sum of the following:

(a) The amount of depreciation, exhaustion, wear and tear, obsolescence, amortization, and depletion which has been allowed (but not less than the amount allowable) in respect of such property since date of acquisition, or since February 28, 1913, if the property was acquired before that date. For any period after December 31, 1951, the amount of depreciation, etc., allowed (and which is in excess of the amount allowable) shall be disregarded to the extent that such excess does not result in a reduction for any taxable year of the taxpayer's income or excess profits taxes. In respect of any period after February 28, 1913, and before January 1, 1952, the taxpayer may disregard depreciation, etc., which was in excess of the amount allowable and which did not result in reduction of income or excess profits taxes only if an election is made in accordance with regulations. See section 1020; and

(b) The amount of depreciation, exhaustion, wear and tear, obsolescence, amortization, and depletion actually sustained prior to March 1, 1913, if the property was ac-

quired before that date.

Subsequent improvements to be entered in column "f" include expenditures for additions, improvements, renewals, and replacements made to restore the property or prolong its useful life. Do not include ordinary repairs, interest, or taxes in column "f" or elsewhere in computing gain or loss.

If emergency facilities are sold or exchanged, see section 1238.

Losses on securities becoming worthless.—If any securities (as defined below) become worthless within the taxable year and are capital assets, the loss resulting therefrom shall, in the case of a taxpayer other than a bank, as defined in section 581, be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. Section 165 (g) (1).

**Definition of security.**—For the purpose of determining capital losses under section 165, the term "security" means a share of stock in a corporation; a right to subscribe for, or to receive, a share of stock in a corporation; or a bond, debenture, note, or certificate, or other evidence of indebtedness, issued by a corporation or by a government or political subdivision thereof, with interest coupons or in registered form. However, securities issued by certain affiliated corporations shall not be deemed capital assets. Section 165 (g) (3).

Losses not allowable.—No loss shall be recognized in any sale or other disposition of shares of stock or securities where there has been acquired substantially identical stock or securities, or there has been entered into a contract or option to acquire substantially identical stock or securities, within 30 days before or after the date of such sale or disposition, except in cases of dealers in stocks and securities which have sustained the loss in a transaction made in the ordinary course of business. Section 1091.

Except in the case of distributions in liquidation, no deduction shall be allowed in respect of losses from sales or exchanges of property, directly or indirectly, between an individual and a corporation in which such individual owns, directly or indirectly, more than 50 percent in value of the outstanding stock; or (except in the case of distributions in liquidation) between two corporations more than 50 percent in value of the outstanding stock of each of which is owned, directly or indirectly, by or for the same individual, if either one of such corporations, with respect to the taxable year of the corporation preceding the date of the sale or exchange was, under the law applicable to such taxable year, (1) a personal holding company, as defined in section 542, or (2) a foreign personal holding company, as defined in section

Page 4

552. (For the purpose of determining the ownership of stock, | in applying this paragraph, see section 267.)

Gain on sales by a "controlled" corporation.—In the case of a sale or exchange, directly or indirectly, of property between an individual and a corporation more than 80 percent in value of the outstanding stock of which is owned by such individual, his spouse, and his minor children and minor grandchildren, any gain recognized to the transferor from such sale or exchange shall be treated as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231, if such property in the hands of the transferee is depreciable under section 167. Section 1239.

Gains and losses from involuntary conversion and from the sale or exchange of certain property used in the trade or business.—The term "property used in the trade or business," as used in section 1231, means property which has been held more than 6 months, which is used in the trade or business, and which is either real property or property subject to depreciation under section 167, and which is not (a) property of a kind which would properly be includible in the inventory of the taxpayer if on hand at the close of the taxable year, (b) property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business, or (c) certain copyrights or similar properties. Such term also includes timber and coal with respect to which section 631 applies as well as unharvested crops to which section 1231 (b) (4) applies. Such term also includes livestock (but not poultry) held for draft, breeding, or dairy purposes and held for 12 months or more from the date of acquisition.

Section 1231 provides special treatment for the gains and losses upon the sale or exchange of "property used in the trade or business" and upon the compulsory or involuntary conversion of (1) such property and (2) capital assets held for more than 6 months. Such gains and losses during the taxable year are treated as gains and losses from the sale or exchange of capital assets held for more than 6 months, if the aggregate of such gains exceeds the aggregate of such losses. If, however, such gains do not exceed such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets.

In determining whether gains do or do not exceed losses, it is necessary to include the gains and losses to the extent that they would be included if they were all ordinary gains and losses. The limitation of section 1211 on the deductibility of capital losses does not operate to exclude any such losses from the computation as to the excess of gains over losses, but all such losses are included in full.

For special treatment of gain or loss upon the cutting of timber, or upon the disposal of timber or coal under a contract by which the owner retains an economic interest in such timber or coal, see section 631.

Long-term capital gains from regulated investment companies.—Include in income as a long-term capital gain the amount the corporation has been notified constitutes its share of the undistributed capital gains of a regulated investment company. See Instruction 8 of Tax Computation

Instructions, Form 1120, for method of claiming credit of tax paid on such gains.

Alternative tax.—If for any taxable year the net long-term capital gain exceeds the net short-term capital loss, or if there is only a net long-term capital gain, section 1201 imposes an alternative tax in lieu of the normal tax and surtax imposed upon taxable income, if any, only if such tax is less than the tax imposed by section 11 (relating to normal tax and surtax on corporations), sections 821 and 831 (relating to normal tax and surtax on insurance companies, other than life insurance companies), or section 511 (a) (1) (relating to taxation of business income of certain organizations described in section 511 (a) (2)). The alternative tax is the sum of (1) apartial tax, computed at the normal tax and surtax rates on the taxable income decreased by the amount of the excess of the net long-term capital gain over the net short-term capital loss, and (2) 25 percent of such excess.

If the corporation computes an alternative tax under section 1201 and is entitled to special deductions for dividends received (sections 243, 244, 245), the special deduction for dividends paid (section 247), the special deduction for a Western Hemisphere trade corporation (section 922), or the special deduction for a China Trade Act corporation (section 941), such special deductions are to be based upon taxable income including the excess of net long-term capital gain over net short-term capital loss.

Bonds, etc., losses of banks.—In the case of a bank, as defined in section 581, if the losses in the taxable year from sales or exchanges of bonds, debentures, notes, or certificates. or other evidences of indebtedness, issued by any corporation (including one issued by a government or political subdivision thereof) exceed the gains from such sales or exchanges, such excess shall be considered as an ordinary loss and deductible in full against other income. Section 582

Dealers in securities. Capital gains and ordinary losses.—Under the provisions of section 1236, gain by a dealer in securities from the sale or exchange of a security. as defined in section 1236, shall in no event be considered as gain from the sale or exchange of a capital asset unless (a) the security was, before the expiration of the thirtieth day after the date of its acquisition, clearly identified in the dealer's records as a security held for investment or, if acquired before October 20, 1951, was so identified before November 20, 1951; and (b) the security was not, at any time after the expiration of such thirtieth day, held by the dealer primarily for sale to customers in the ordinary course of trade or business. A loss from the sale or exchange of a security shall, if section 582 (c) is not applicable, be considered a capital loss if at any time after November 19, 1951, the security was clearly identified in the dealer's records as a security held for investment.

Short sales of capital assets.—For rules regarding tax consequences of certain short sales of stock or other securities (including those dealt with on a "when issued" basis), and transactions in commodity futures, see section 1233.

# Additional Instructions For Insurance Companies Using This Schedule

Companies taxable under section 831 and having losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses, etc., shall attach a schedule corresponding to Schedule B, Form 1120M.

For companies taxable under section 831 or section 821, "net capital loss" means the amount by which the losses for the taxable year from sales or exchanges of capital assets exceed the sum of the gains from such sales or exchanges and the lesser of (1) the taxable income (computed without regard to gains or losses from sales or exchanges of capital provided in section 242) or (2) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders.

For companies taxable under section 811 or section 821, all references to "line" numbers, Form 1120, shall be considered as references to the appropriate "line" in Form 1120L or Form 1120M. It will be necessary for life insurance companies to substitute for lines 11 through 20 of Schedule D assets or to the deduction for partially tax-exempt interest | computations conforming to those in Form 1120L.

# **GENERAL INSTRUCTIONS** (Under Subtitle A, Internal Revenue Code)

es are to the Internal Revenue Code unless otherwise noted)

Corporations which must file Schedule PH (1120).—Every corporation which comes within the classification of a "personal holding company" must file a Schedule PH. The term "personal holding company" means any corporation, other than those listed in the exceptions below, if at least 80 percent of its gross income for the taxable year is personal holding company income and if at any time during the last half of the taxable year more than 50 percent in value of its outstanding stock is owned, directly or indirectly, by or for not more than 5 individuals. For purposes of determining such stock ownership, an organization described in section 503 (b) or a portion of a trust permanently set aside or to be used exclusively for the purposes described in section 642 (c) or a corresponding provision of a prior income tax law shall be considered an individual, unless such organization or trust meets the requirements of section

In the case of corporations filing consolidated returns, see section 542 (b). The term "personal holding company," as referred to above, does not include any of the following:

(1) A corporation exempt from tax under subchapter F (sec. 501 and following);

a bank as defined in section 581; a life insurance company;

a surety company;

- (5) a foreign personal holding company as defined in section 552;
   (6) a licensed personal finance company as defined in section 542
- (7) a lending company as defined in section 542 (c) (7); (8) a loan or investment corporation as defined in section 542
- (9) a finance company as defined in section 542 (c) (9); and (10) a foreign corporation the gross income and stock ownership of

which falls within the provisions of section 542 (c) (10).

A foreign corporation, whether resident or nonresident, which is classified as a personal holding company under section 542 (not including a foreign personal holding company as defined in section 552) is subject to the tax imposed by section 541 with respect to its income from sources within the United States even though such income is not fixed or deterwithin the United States even though such income is not fixed or determinable annual or periodical income specified in section 881 (a). (See section 861.) In the case of a nonresident foreign corporation, Schedule PH shall be attached to Form 1120NB. The term "personal holding company" as used in subtitle (A) does not include a foreign corporation if (1) its gross income from sources within the United States for the period specified in section 861 (a) (2) (B) is less than 50 percent of its total gross income from all sources and (2) all of its stock outstanding during the last half of the taxable year is owned by nonresident alien individuals, whether directly or indirectly through other foreign corporations. corporations.

Personal holding company income.—The term "personal holding company income" is defined by section 543 as the portion of the gross income which consists of:

- (1) DIVIDENDS, ETC.—Dividends, interest, royalties (other than mineral, oil, or gas royalties), and annuities. This paragraph shall not apply to interest constituting rent as defined in paragraph (7) or to interest on amounts set aside in a reserve fund under section 511 or 607
- of the Merchant Marine Act, 1936.
  (2) STOCK AND SECURITIES TRANSACTIONS.—Except in the case of regular dealers in stock or securities, gains from the sale or exchange stock or securities.
- (3) COMMODITIES TRANSACTIONS.—Gains from futures transactions in any commodity on or subject to the rules of a board of trade or commodity exchange. This paragraph shall not apply to gains by a producer, processor, merchant, or handler of the commodity which arise out of bona fide hedging transactions reasonably necessary to the conduct of its business in the manner in which such business is customarily and usually conducted by others.
- (4) ESTATES AND TRUSTS.—Amounts includible in computing the taxable income of the corporation under part I of subchapter J (sec. 641 and following, relating to estates, trusts, and beneficiaries); and gains from the sale or other disposition of any interest in an estate or trust.
- PERSONAL SERVICE CONTRACTS.
- (A) Amounts received under a contract under which the corporation is to furnish personal services; if some person other than the corporation has the right to designate (by name or by description) the individual who is to perform the services, or if the individual who is to perform the services is designated (by name or by description) in the contract;
- (B) amounts received from the sale or other disposition of such a contract. This paragraph shall apply with respect to amounts received for services under a particular contract only if at some time during the taxable year 25 percent or more in value of the outstanding stock of the corporation is owned, directly or indirectly, by or for the individual who has performed, is to perform, or may be designated (by name or by description) as the one to perform, such services.
- (6) Use of corporation property by shareholder.—Amounts received as compensation (however designated and from whomsoever received) for the use of, or right to use, property of the corporation in

any case where, at any time during the taxable year, 25 percent or more in value of the outstanding stock of the corporation is owned, directly or indirectly, by or for an individual entitled to the use of the property; whether such right is obtained directly from the corporation or by means of a sublease or other arrangement. This paragraph shall apply only to a corporation which has personal holding company income for the tax-

a corporation which has personal holding company income for the tax-able year, computed without regard to this paragraph and paragraph (7), in excess of 10 percent of its gross income.

(7) Rents, unless constituting 50 percent or more of the gross income. For purposes of this paragraph, the term "rents" means compensation, however designated, for the use of, or right to use, prop-erty, and the interest on debts owed to the corporation, to the extent such labbte represent the price for which real percent held principle for debts represent the price for which real property held primarily for sale to customers in the ordinary course of its trade or business was sold or exchanged by the corporation; but does not include amounts con-

stituting personal holding company income under paragraph (6).
(8) MINERAL, OIL, OR GAS ROYALTIES.—Mineral, oil, or gas royalties,

(A) such royalties constitute 50 percent or more of the gross income, and

(B) the deductions allowable under section 162 (relating to trade or business expenses) other than compensation for personal services rendered by the shareholders, constitute 15 percent or more of the gross income.

Stock ownership.—Section 544 contains the following provision with

reference to stock ownership.

(a) Constructive Ownership.—For purposes of determining whether (a) CONSTRUCTIVE OWNERSHIP.—For purposes of determining whether a corporation is a personal holding company, insofar as such determination is based on stock ownership under section 542 (a) (2), section 543 (a) (5), or section 543 (a) (6)—

(1) STOCK NOT OWNED BY INDIVIDUAL.—Stock owned, directly or

indirectly, by or for a corporation, partnership, estate, or trust shall be considered as being owned proportionately by its shareholders, partners,

(2) FAMILY AND PARTNERSHIP OWNERSHIP.—An individual shall be considered as owning the stock owned, directly or indirectly, by or for his family or by or for his partner. For purposes of this paragraph, the family of an individual includes only his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants.

(3) OPTIONS.—If any person has an option to acquire stock, such stock shall be considered as owned by such person. For purposes of this paragraph, an option to acquire such an option and each one of a series of such options, shall be considered as an option to acquire such stock.

(4) APPLICATION OF FAMILY-PARTNERSHIP AND OPTION RULES.—

(4) APPLICATION OF FAMILY-PARTNERSHIP AND OPTION RULES.—
Paragraphs (2) and (3) shall be applied—
(A) for purposes of the stock ownership requirement provided in section 542 (a) (2), if, but only if, the effect is to make the corporation a personal holding company;
(B) for purposes of section 543 (a) (5) (relating to personal service contracts), or of section 543 (a) (6) (relating to the use of property by shareholders), if, but only if, the effect is to make the amounts therein referred to includible under such paragraph as personal holding company income

sonal holding company income.

(5) Constructive ownership as actual ownership.—Stock constructively owned by a person by reason of the application of paragraph (1) or (3) shall, for purposes of applying paragraph (1) or (2), be treated as actually owned by such person; but stock constructively owned by an individual by reason of the application of paragraph (2) shall not be treated as owned by him for purposes of again applying such paragraph in order to make another the constructive owner of such stock.

graph in order to make another the constructive owner of such stock.

(6) OPTION RULE IN LIEU OF FAMILY AND PARTNERSHIP RULE.—

If stock may be considered as owned by an individual under either paragraph (2) or (3) it shall be considered as owned by him under paragraph (3).

(b) CONVERTIBLE SECURITIES.—Outstanding securities convertible into stock (whether or not convertible during the taxable year) shall be considered as outstanding stock.

considered as outstanding stock—

(1) for purposes of the stock ownership requirement provided in section 542 (a) (2), but only if the effect of the inclusion of all such

securities is to make the corporation a personal holding company;

(2) for purposes of section 543 (a) (5) (relating to personal service contracts), but only if the effect of the inclusion of all such securities is to make the amounts therein referred to includible under such para-

is to make the amounts therein referred to includible under such paragraph as personal holding company income; and

(3) for purposes of section 543 (a) (6) (relating to the use of property by shareholders), but only if the effect of the inclusion of all such securities is to make the amounts therein referred to includible under such paragraph as personal holding company income.

The requirement in paragraphs (1), (2), and (3) that all convertible securities must be included if any are to be included shall be subject to the exception that, where some of the outstanding securities are convertible only after a later date than in the case of others, the class having the earlier conversion date may be included although the others are not included. but conversion date may be included although the others are not included, but no convertible securities shall be included unless all outstanding securities having a prior conversion date are also included.

Detach pages 5 and 6 before filing.

Page 5

### SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with line numbers on page 1 of this schedule

1. Taxable income before net operating loss deduction and special deductions, Form 1120.—Enter here the amount shown on line 32, page 3, Form 1120, computed in accordance with the provisions of subtille A, but without regard to section 443 (b) (relating to income placed on an annual basis). In the event such taxable income on line 1 includes any amount with respect to coal royalties to which section 631 (c) is applicable, see section 631 (c) and the regulations thereunder.

In the case of a nonresident foreign corporation (not engaged in trade or business within the United States) which qualifies as a personal holding company under section 542 but not as a foreign personal holding company under section 552, the amount to be entered on line 1 must be computed under section 861 rather than under section 881 (a). The taxable income so computed will reflect, in addition to income from all other sources within the United States, gains from sales or exchanges made within the United States of capital assets including stocks, securities, and commodities. Although such gains may not be subject to tax under section 881 (a), they are subject to the tax imposed by section 541.

3. Expenses and depreciation applicable to property of the taxpayer in excess of amount allowable under section 545 (b) (8).—If the corporation derived rent or other compensation for the use or right to use property which was less than the sum of the expenses incurred in connection therewith and deductible under section 162 and the depreciation allowable under section 167, Schedule A should be filled in and the excess of the expenses and depreciation over the rent or other compensation shown therein should be entered on line 3, page 1. This adjustment must be made unless the taxpayer establishes, in accordance with section 545 (b) (8), that the rent or other compensation received was the highest obtainable, or, if none was received, that none was obtainable; that the property was held in the course of a business carried on bona fide for profit; and either that there was reasonable expectation that the operation of the property would result in a profit, or that the property was necessary to the conduct of the business.

The burden of proof will rest upon the taxpayer to sustain the deduction of the aggregate of the expenses and depreciation allowed under subtitle A in excess of the rent or other compensation derived from the property. A corporation claiming such excess deductions shall, in lieu of filling in Schedule A, attach to the return a statement setting forth its claim for allowance of the deductions together with a complete statement of facts, circumstances, and arguments on which it relies in support of the deductions. Such statement shall show:

- (a) A description of the property;
- (b) The cost or other basis to the corporation and the nature and value of the consideration paid for the property;
- (r) The name and address of the person from whom the property was acquired and the date thereof;
- (d) The name and address of the person to whom the property was leased or rented, or the person permitted to use the property, and the number of shares of stock, if any, held by such person and the members of his family;
- (e) The nature (cash, securities, services, etc.) and gross amount of the rent or other compensation received or accrued for the use of, or the right to use, the property during the taxable year and for each of the 5 preceding years and the amount of the expenses incurred with respect to, and the depreciation sustained on, the property for such years;
- (f) Evidence that the rent or other compensation was the highest obtainable and if none was received or accrued, a statement of the reasons therefor;
  - (g) A copy of the contract, lease, or rental agreement;
  - (b) The purpose for which the property was used;
- (i) The business carried on by the corporation with respect to which the property was held and the gross income, expenses, and net income derived from the conduct of such business for the taxable year and for each of the 5 preceding years;
- (j) A statement of any reasons which existed for expectation that the operation of the property would be profitable, or a statement of the necessity for the use of the property in the business of the corporation and the reasons why the property was acquired;
- (k) Any other information on which the corporation relies.
- 4. Amount added to taxable income where lien in favor of the United States is satisfied or released.—The sum of the amounts deducted from taxable income under section 545 (b) (9) with respect to any lien in favor of the United States must be added to taxable income, in computing undistributed personal holding company income, in the taxable year in which the lien is satisfied or released. Similarly, in the case of a partial satisfaction or release of such lien, to the extent satisfied or released. Where an amount is so added to taxable income, the shareholders of the corporation may, pursuant to regulations prescribed by the Secretary or his delegate, elect to compute the income tax with respect to such dividends as are attributable to such amount as though they were received ratably over the period the lien was in effect. See Specific Instruction 13.

7. Federal and foreign income, war profits, and excess profits taxes.—Section 545 (b) (1) provides that there shall be allowed as a deduction from taxable income Federal income and excess profits taxes accrued during the taxable year, but not including the accumulated earnings tax imposed by section 531, the personal holding company tax imposed by section 541, or the taxes imposed by corresponding sections of a prior income tax law. However, a taxpayer shall deduct Federal income and excess profits taxes under this paragraph when paid if for each taxable year in which it was subject to tax imposed by section 500 of the Internal Revenue Code of 1939 it deducted such taxes when paid, unless it elects, in its return for a taxable year ending after June 30, 1954, to deduct the taxes described in this paragraph when accrued, in which case only taxes accrued may be deducted. Such an election shall be irrevocable and shall apply to the taxable year for which the election is made and all subsequent taxable years.

The credit allowed to domestic corporations by section 901 for income, war profits, and excess profits taxes of foreign countries and United States possessions is not allowed as a credit with respect to the personal holding company tax. There shall be allowed as a deduction from taxable income, however, the income, war profits, and excess profits taxes accrued during the taxable year to foreign countries and possessions of the United States if the taxpayer claims a credit for such taxes in computing its income tax.

Foreign corporations should treat such taxes as deductions to be allocated in accordance with section 861 in computing income from sources within the United States, and in such cases taxes of this nature will be reflected in taxable income stated on line 1 instead of being stated separately as a deduction on line 7.

8. Contributions or gifts deductible under section 545 (b) (2).—For purposes of the personal holding company tax, section 545 (b) (2) provides for a different limitation on deductions for charitable contributions than the 5 percent limitation for purposes of determining the corporate tax. The limitations on charitable deductions of individuals are applicable but are to be applied to the amount of taxable income to which the 5 percent limitation applied. (See Specific Instruction 23, Form 1120.) However, a further adjustment for this purpose is that the taxable income shall also be computed without the deduction of the amount disallowed under section 545 (b) (8) (relating to expenses and depreciation applicable to property of the taxpayer)

For purposes of the personal holding company tax, the contribution carryover under the provisions of section 170 (b) (2) is not allowed (section 542 (b) (2) of the Code, as amended).

- 9. Net operating loss for the preceding year deductible under section 545 (b) (4).—Section 545 (b) (4) provides that in lieu of the net operating loss deduction provided in section 172 there shall be allowed the amount of the net operating loss (as defined in section 172 (c)) for the preceding taxable year computed without the deductions provided in Part VIII (except organizational expenses, section 248) of subchapter B.
- 12. Amounts used or irrevocably set aside to pay or retire indebtedness of any kind incurred prior to January 1, 1934.—Enter on line 12 the total amount reflected in line 12, Schedule D. Section 545 (b) (7) provides that in determining undistributed personal holding company income there shall be allowed as a deduction amounts used or irrevocably set aside to pay or retire indebtedness of any kind incurred before January 1, 1934, if such amounts are reasonable with reference to the size and terms of such indebtedness.
- 13. Lien in favor of the United States.—The taxpayer may deduct the amount of any lien in favor of the United States (notice of which has been filed as provided in section 6323 (a) (1), (2), or (3)) to which the taxpayer is subject at the close of the taxable year. However, the amount deducted may not exceed taxable income as adjusted under section 545 (b), computed without regard to this deduction. Thus the amount to be entered on line 13 shall not exceed line 6 less the total of lines 7 through 12, inclusive.
- 14. Deduction for dividends poid.—Enter on line 14 the amount of the dividends-paid deduction as computed in Schedule E. The deduction for dividends paid is the sum of (1) the dividends paid during the taxable year, (2) the consent dividends for the taxable year, and (3) the dividend carryover from the 2 preceding taxable years.

In determining the deduction for dividends paid, the rules provided in section 562 (relating to rules applicable in determining dividends eligible for dividends-paid deduction) and section 563 (relating to dividends paid after the close of the taxable year) shall be applicable.

In general, a consent dividend is not an actual corporate distribution but is a hypothetical distribution evidenced by shareholders' consents to treat as a dividend an amount which would constitute a dividend if distributed in money to such shareholders on the last day of the taxable year of such corporation. Such consent dividend may be availed of only if the person filing such consent owns common stock (or participating preferred stock, the participating rights of which are unlimited), and the amount specified in the consent is pro rata, with no preference to any share of stock as compared with other shares of the same class, and with no preference to one class of stock as compared with another class except to the extent that the former is entitled to such preference. The effect of the consent is that the amount of the consent dividend is treated both as a dividend and as a

### SPECIFIC INSTRUCTIONS—Continued

contribution to the capital of the corporation by the shareholder on the last day of the taxable year of the corporation. A consent shall be filed in duplicate on Form 972 at any time but not later than the due date of the corporation's income tax return for the taxable year for which credit is claimed. In addition, Form 973 must be filed by the taxpayer corporation.

The dividend carryover to a taxable year shall be determined as follows:

- (1) For each of the 2 preceding taxable years there shall be determined the taxable income computed with the adjustments provided in section 545 (relating to the computation of undistributed personal holding company income) (whether or not the taxpayer was a personal holding company for either of such preceding taxable years), and there shall also be determined for each such year the deduction for dividends paid during such year as provided in section 561 (but determined without regard to the dividend carryover to such year).
- (2) There shall be determined for each such taxable year whether there is an excess of such taxable income over such deduction for dividends paid or an excess of such deduction for dividends paid over such taxable income, and the amount of each such excess.
- (3) If there is an excess of such deductions for dividends paid over such taxable income for the first preceding taxable year, such excess shall be allowed as a dividend carryover to the taxable year.
- (4) If there is an excess of such deduction for dividends paid over such taxable income for the second preceding taxable year, such excess shall be reduced by the amount determined in paragraph (5), and the remainder of such excess shall be allowed as a dividend carryover to the taxable year.
- (5) The amount of the reduction specified in paragraph (4) shall be the amount of the excess of the taxable income, if any, for the first preceding taxable year over such deduction for dividends paid, if any, for the first preceding taxable year.
- 17. Dividends paid after close of taxable year (excluding deficiency dividends as defined in section 547 (d)).—Enter on line 17 and not in Schedule E, the amount of the dividends paid after the close of the taxable year

and before the 15th day of the third month thereafter, if the taxpayer elects in its return for the taxable year to have such dividends considered as paid during such taxable year. The amount allowed as a dividend under this paragraph with respect to any taxable year shall not exceed either the undistributed personal holding company income of the corporation for the taxable year, computed without regard to the dividends paid pursuant to this paragraph (line 16 of page 1 of this Schedule) or 10 percent of the sum of the dividends paid during the taxable year, computed without regard to this paragraph (i. e., 10 percent of line 3, Schedule E).

Neither line 14 nor line 17 should include "deficiency dividends." The term "deficiency dividends" means in general only those dividends which are paid by a corporation pursuant to a specific procedure set forth in section 547, which includes a requirement that there must first be a determination by a court, by closing agreement, or (under regulations) a written agreement signed by the District Director and by or on behalf of the taxpayer relating to the liability of the corporation for personal holding company tax.

Schedule required under section 6501 (f).—Section 6501 (f) provides as follows:

- (f) Personal Holding Company Tax.—If a corporation which is a personal holding company for any taxable year fails to file with its return under chapter 1 for such year a schedule setting forth—
- (1) the items of gross income, described in section 543 (a), received by the corporation during such year, and
- (2) the names and addresses of the individuals who owned, within the meaning of section 544 (relating to rules for determining stock ownership), at any time during the last half of such year more than 50 percent in value of the outstanding capital stock of the corporation,

the personal holding company tax for such year may be assessed, or a proceeding in court for the collection of such tax may be begun without assessment, at any time within 6 years after the return for such year was filed.

# How To Prepare Your

# 1958 U.S. Life Insurance Company Income Tax Return On Form 1120L

(References are to the Internal Revenue Code)

# GENERAL INSTRUCTIONS

A. Companies required to file a return.—Every domestic life insurance company and every foreign life insurance company carrying on an insurance business within the United States (if with respect to its United States business it would qualify as a life insurance company), which is engaged in the business of issuing life insurance and annuity contracts (either separately or combined with health and accident insurance) or noncancelable contracts of health and accident insurance and of which the life insurance reserves, plus unearned premiums and unpaid losses (whether or not ascertained), on noncancelable life, health, or accident policies not included in life insurance reserves, comprise more than 50 percent of its total reserves, adjusted in each case for policy loans as required by section 801(d), shall file a return on this form. For this purpose the term "noncancelable" includes guaranteed renewable life, health, and accident insurance which is not cancelable by the company but under which the company reserves the right to adjust premium rates by classes, in accordance with experience under the type of policy involved. The terms "life insurance reserves" and "total reserves" do not include deficiency reserves.

If a receiver, trustee in bankruptcy, or assignee has possession of or holds title to all or substantially all the property or business of a corporation, whether or not the property or business is being operated, he must make a return of income for the corporation in the same manner and form as would be required were such corporation required to make its own return. (See sec. 6012.) If a life insurance company disposes of its life insurance business and life insurance reserves under a reinsurance agreement with another company, but continues its corporate existence for the purpose of winding up and liquidating its affairs, it will not be taxable as a life insurance company after the effective date of such agreement.

B. Period covered.—The return shall be for the calendar year ended December 31, 1958, and the taxable income computed on the calendar year basis in accordance with the provisions of section 843.

C. Accounting methods.—A return on this form shall be filed using the accrual method of accounting, or to the extent permitted under regulations, under a combination of an accrual method with any other method under chapter 1, other than the cash receipts and disbursement method.

Accrual method.—Under this method, income is reported in the year when the taxpayer first has a definite right to income, the amount of which can be ascertained with reasonable accuracy while deductions are taken in the year in which there is first established a specific liability, the amount of which can be ascertained with reasonable accuracy. Where the right to income or the liability for expense is uncertain, or the amount of such income or expense cannot be ascertained with reasonable accuracy, accrual is generally postponed until a determination is possible.

Rounding off to whole-dollar amounts.—If you wish, the money items on your return or accompanying schedules re-

quired by such return may be shown as whole-dollar amounts. This means that you eliminate any amount less than 50 cents, and increase any amount from 50 cents through 99 cents to the next highest dollar. Your choice as to whether you round off to whole-dollar amounts may not be changed after the due date for filing your return.

D. Time and place for filing.—The return for 1958 must be sent to the District Director of Internal Revenue for the district in which the company's principal place of business or principal office or agency is located, on or before September 15, 1959. All returns for the year 1958 must be filed under the provisions of the Life Insurance Company Income Tax Act of 1959. Any return filed under corresponding provisions of prior law shall not be considered for any purpose as a return for the year 1958

E. Signature and verification.—The return must be signed either by the president, vice president, treasurer, assistant treasurer or chief accounting officer, or by any other corporate officer (such as tax officer) who is authorized to sign. A receiver, trustee, or assignee must sign any return which he is required to file in behalf of a corporation. The statement at the bottom of page 1 of the return is required to be signed by any person, firm, or corporation who prepared the taxpayer's return. If the return is prepared by a firm or corporation, it should be signed in the name of the firm or corporation. The statement is not required if the return is prepared by a regular, full-time employee.

F. Payment of tax.—All payments made on or before September 15 with respect to this tax, to the extent that such payments have not been credited or refunded, will be deemed to be payments made on September 15, 1959. Accordingly, no interest shall be payable on any underpayment or overpayment of 1958 income tax liabilities prior to September 15, 1959.

The provisions of section 6152(a)(1) (installment payments) shall not apply.

No addition to the tax will be made under section 6655 of the Code with respect to estimated tax for a taxable year beginning in 1958.

Request for automatic extension of 3 months for filing of return must be made on Form 7004. (Sec. 6081 (b).)

G. Failure to file, etc.—Substantial additions to the tax are imposed for failing to file a return, for late filing, and for filing a false or fraudulent return.

H. Information at source.—Every insurance company making payments in the course of its trade or business of (1) interest, rents, commissions, or other fixed or determinable income of \$600 or more during the calendar year 1958 to an individual, a partnership, or a fiduciary; or (2) salaries or wages of \$600 or more shall make returns on Forms 1096 and 1099, except that the making of such return will not be required with respect to salary or wage payments included on Form W-2, provided copies of withholding statements on Form W-2 are furnished. If a portion of such salary or wage payments was reported on

### Page 2

a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099.

The returns on Forms 1096 and 1099 shall also include dividend payments totaling \$10 or more during the calendar year 1958 to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident.

- I. Information by corporation.—1. Contemplated dissolution or liquidation.—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966 setting forth the terms of such resolution or plan. (See sec. 6043.)
- 2. Distribution in liquidation.—Every corporation making distributions in liquidation of the whole or any part of its capital stock shall also make returns on Forms 1096 and 1099L, as required by instructions on Form 1096, for the calendar year 1958.
- J. Stock ownership in foreign corporations.—A corporation owning any stock of a foreign corporation must attach a statement showing the name and address of each company and the total number of shares of each class of outstanding stock owned during the taxable year. If the corporation owned 5 percent or more in value of the outstanding stock of a foreign personal holding company, attach a statement setting forth in complete detail the information required by section 551(d).
- K. Annual statement.—A copy of the annual statement for life insurance companies adopted by the National Association of Insurance Commissioners for the year 1958, as filed with the Insurance Department of the State, Territory, or District of Columbia, which shows the reserves used in computing the net income reported on the return, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany the return. Similar copies of the 4 preceding years must also be furnished, if not already filed for such years. In the case of a foreign life insurance company carrying on a life

insurance business within the United States, the copies submitted shall be those relating to the United States business of the company. Where companies use miniature statements, such statements may be filed in lieu of the larger statements.

- L. List of attached schedules.—Attach a list of the schedules accompanying the return, giving for each a brief title and the schedule number. Place name and address of company on each schedule.
- M. Consolidated returns.—Subject to the provisions of sections 1501 through 1552 and the regulations, an affiliated group of corporations, each qualifying as a life insurance company, may make a consolidated income tax return in lieu of separate returns. The common parent corporation, when filing a consolidated return, shall attach thereto a schedule showing the names and addresses of all the corporations included in the return. Form 851, Affiliations Schedule, should be obtained from the District Director of Internal Revenue and filed as part of the return. Each subsidiary must prepare two signed copies of Form 1122 authorizing the making of the return on its behalf. One such form shall be attached to the consolidated return as a part thereof, and the other shall be filed, at or before the time the consolidated return is filed, in the office of the district director for the subsidiary's district.
- N. Voting stock ownership.—Where the answer is "yes" to questions k and l, attach a separate schedule showing: (1) Name and address; (2) percentage of stock owned; (3) date stock was acquired; and (4) the district director's office in which the income tax return of such corporation, individual, partnership, trust, or association for the last taxable year was filed
- O. Percentage computations.—In computing earning rates, assumed rates, and policyholders' and company's share of investment yield, the computation should be carried out to a sufficient number of decimal places to insure substantial accuracy and to eliminate any significant error in the resulting tax liability.

# SPECIFIC INSTRUCTIONS

# SCHEDULE A.—INVESTMENT YIELD

The term "investment yield" means gross investment income, as defined in section 804(b), less the deductions allowed in section 804(c). The entire amount of the items of income and allowable deductions are to be reported in Schedule A. The purpose of including the entire amount of these items is to provide the basis for the exclusion of the policyholders' share of the investment yield from the life insurance company's taxable income

Line 1. Interest.—Enter interest from all sources during the taxable year. The gross amount of interest reported as gross income shall be decreased by the amortization of premium and increased by the accrual of discount attributable to the taxable year on bonds, notes, debentures, or other evidences of indebtedness, determined (1) in accordance with the method regularly employed, if reasonable, or (2) in accordance with regulations prescribed by the Secretary or his delegate. (Attach statement showing method and computation.)

Line 2. Dividends.—Enter on line 2(a) the amount of dividends from a domestic corporation which is subject to taxation under Chapter 1, except dividends on certain preferred stock of a public utility (see sec. 245), dividends from a corporation entitled to the benefits of section 931, and from a corporation organized under the China Trade Act, 1922. Enter on line 2(b) dividends on certain preferred stock of a public utility which is

subject to taxation under Chapter 1. Enter on line 2(c) dividends from foreign corporations. Enter on line 2(d) dividends from all other corporations, including dividends on share accounts in Federal savings and loan associations issued on or after March 28, 1942. Enter on line 1(c) dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942. Submit schedule, itemizing all dividends for the year, stating the names of the corporations declaring the dividends and amounts reported from each.

Line 3. Rents.—Enter gross amount of rents. Any expenses, including repairs, interest, taxes, and depreciation, should be included in the proper lines under deductions. In the case of a lease entered into prior to January 1, 1954, if both lessor and lessee are corporations and if under the lease the lessee is obligated to pay any part of the lessor's income tax on the rental payment, this tax is excluded from lessor's gross income and may not be deducted by lessee. (Sec. 110.)

Line 4. Royalties.—Enter the gross amount of royalties. If a deduction is claimed for depletion, it must be reported on line 11.

Line 5. Leases, terminations, etc.—Enter the gross amount of income from the entering into (or the alteration or termination) of any lease, mortgage, or other instrument or agreement from which the life insurance company derives interest, rents, or royalties.

Line 6. Gross income from trade or business other than insurance business.—Enter the gross income from any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a member.

Linc 8. Investment expenses.—Enter expenses which are properly chargeable to investment expenses, the total amount of which, if there be any allocation of general expenses to investment expenses, should not exceed line 5, Schedule H. Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount.

Line 9. Real estate expenses.—Enter the amount of taxes (sec. 164); all ordinary and necessary building expenses, such as fire insurance, heat, light, labor, etc.; and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinary efficient operating condition, exclusively on or with respect to the real estate owned by the company. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property is held for rental purposes. These taxes and other expenses should be itemized in an attached schedule. (For limitation on deduction, see Instruction 13(b).)

Line 10. Depreciation.—Enter the amount allowed by section 167 and the regulations thereunder. In general, the amount deductible is an amount reasonably measuring a portion of the investment in depreciable property which, by reason of exhaustion, wear and tear, or obsolescence, is properly chargeable against the operation for the year. In any event the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the in-

come specified in section 804(b). (For limitation on deduction, see Instruction 13(b).)

Line 11. Depletion of mines, oil and gas wells, timber, etc.—If a deduction is claimed on account of depletion, procure from the district director; Form M (mines and other natural deposits), Form O (oil and gas), or Form T (timber); fill in and file with return.

Line 12. Trade or business.—Enter the total of deductions attributable to any trade or business (other than an insurance business), the income from which is included in the life insurance company's gross investment income under section 804(b)(3). Do not include (a) losses from (or considered as from) sales or exchanges of capital assets, (b) losses from sales or exchanges of property used in the trade or business (as defined in section 1231(b)), and (c) losses from the compulsory or involuntary conversion of property used in the trade or business. The deductions to be entered on line 12 will be disallowed to the extent attributable to the carrying on of the insurance business. The deduction for net operating losses (sec. 172) and the special deductions (secs. 241–248) shall not be allowed.

Line 13. Total deductions.—(a). Enter the total of lines 8-12.

(b) Limitation on deductions relating to real estate owned and occupied.—The deductions included on lines 9 and 10 on account of real estate owned and occupied for insurance purposes in whole or in part by the company shall be limited to an amount which bears the same ratio to such deductions (computed without regard to the second sentence of section 804(c) (3)) as the rental value of the space not so occupied bears to the rental value of the entire property. Submit detailed schedule.

# SCHEDULE B

# PART I—POLICY AND OTHER CONTRACT LIABILITY REQUIREMENTS (805(a))

Purpose.—The next step after determining investment yield (Schedule A) is to determine the policy and other contract liability requirements. This computation furnishes the numerator, with the total of the investment yield as the denominator, to determine the policyholders' share of investment yield which is not included in computing taxable investment income

(Schedule C).

Definition.—For 1958, the term "policy and other contract liability requirements" means the sum of (1) the adjusted life insurance reserves (from Part V), multiplied by the adjusted reserves rate (from Part III), and (2) the interest paid (from Part VI).

# PART II—ASSETS (805(b)(4))

Purpose.—This computation is necessary in order to determine the earnings rates in Part III.

Definition.—The term "assets" for this purpose means all assets of the company (including nonadmitted assets). The term includes all moneys but does not include real and personal property (other than money) used by the company in carrying on an insurance trade or business.

Valuation.—The amount attributable to real property and to stocks is the fair market value thereof. The amount attributable to other assets is the adjusted basis of such assets for purposes of determining gain on sale or other disposition. This

adjusted basis is determined under section 1011 and other related provisions of subtitle A of the Code, without regard to section 817(b).

Section 806(a) adjustment.—If, during the taxable year, there is a change in life insurance reserves (either increases or decreases) attributable to the transfer between the taxpayer and another person of liabilities under contracts taken into account in computing such reserves, the mean of the assets is to be appropriately adjusted, on a daily basis, to reflect the amounts involved in such transfer. See the regulations. This adjustment should be reflected in an attached schedule.

# PART III—EARNINGS RATES (805(b))

The term "current earnings rate" means the percentage determined by dividing the investment yield for the taxable year (Schedule A), by the mean of the assets at the beginning and end of the taxable year (Part II—Assets). The earnings rate for any taxable year prior to 1958 is determined as if the law applicable to 1958 applied to such year, and the earnings rate for any taxable year of the company which, for such year, is

an insurance company (but not a life insurance company as defined in sec. 801(a)), is determined as if it were a life insurance company for such year. Therefore, the determination of the current earnings rate for pre-1958 years must be computed on the basis of its investment yield (determined under the provisions of the 1959 act) for those years, and on the basis of the mean of the assets (determined under the 1959 act) for

## Page 4

Adjustment under 818(c).—This adjustment is required where the company actually computes its life insurance reserves on one of the recognized preliminary term bases but elects to convert them to a net level premium basis in the computation of the reserves for tax purposes.

Where so elected, the conversion may be made by one of two methods.

Method 1, Exact Revaluation: Under this method, the company must compute the reserves for all contracts (with respect to which reserves are computed on a preliminary term basis) on a net level premium basis, using the same mortality assumptions and interest rates for both the preliminary term basis and the net level premium basis. Method 2, Approximate Revaluation: Under this method, with respect to contracts for which reserves are computed under the preliminary term basis, the reserves are increased by the sum of (A) \$21 per \$1,000 of insurance in force (other than term insurance), less 2.1 percent of reserves under such contracts; and (B) \$5 per \$1,000 of term insurance in force under contracts which at the time of issuance cover a period of more than 15 years, less 0.5 percent of reserves under such contracts.

If the company makes an election of one of the two methods, all contracts for which life insurance reserves are computed on a preliminary term basis must be so converted. Whichever

method is adopted, it must be adhered to in making the computations (other than for purposes of the definition of a life insurance company under sec. 801) for the taxable year of election and all subsequent years, unless a change in the basis of computing such reserves is approved by the Commissioner.

The exception to the above is that if the company elects for a taxable year beginning in 1958 the approximate revaluation basis, then it may change to the exact revaluation basis for its first taxable year beginning after 1958 without the Commissioner's approval.

Column 7.—Adjustment under 806 (a).—If, during the taxable year there is a change in life insurance reserves attributable to the transfer between the company and another of liabilities under contracts taken into account in computing such reserves, then the means of such reserves shall be appropriately adjusted on a daily basis, to reflect the amounts involved in such transfer. See the regulations. This adjustment is applicable whether or not the transferor of the liabilities was the original insurer. However, this adjustment is not applicable to reinsurance ceded by another person to the taxpayer, or by the taxpayer to another person. For the definition of "Life Insurance Reserves," see excerpts from the Internal Revenue Code, section 801 (b).

# PART V-PENSION PLAN RESERVES (805(d))

For 1959, the amount to be taken into account as "pension plan reserves" is 331/4 percent of that portion of the life insurance reserves which is allocable to contracts—

- (A) purchased under contracts entered into with trusts which (as of the time the contracts were entered into) were deemed to be (i) trusts described in section 401(a) and exempt from tax under section 501(a), or (ii) trusts exempt from tax under section 165 of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws;
- (B) purchased under contracts entered into under plans which (as of the time the contracts were entered into) were deemed to be plans meeting the requirements of section 401 (a) (3), (4), (5), and (6), or the requirements of section 165(a) (3), (4), (5), and (6) of the Internal Revenue Code of 1939:
- (C) provided for employees of the life insurance company under a plan which, for the taxable year, meets the requirements of section 401(a) (3), (4), (5), and (6); or
- (D) purchased to provide retirement annuities for its employees by an organization which (as of the time the contracts were purchased) was an organization described in sec-

tion 501(c)(3) which was exempt from tax under section 501(a) or was an organization exempt from tax under section 101(6) of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws. These reserves shall be adjusted under sections 806 and 818(c) as described in Part IV above.

SPECIAL TRANSITIONAL RULE.—For purposes of this part, the amount taken into account as pension plan reserves shall be—

- (A) in the case of a taxable year beginning after December 31, 1957, and before January 1, 1959, zero;
- (B) in the case of a taxable year beginning after December 31, 1958, and before January 1, 1960, 33\% percent of the amount thereof (determined without regard to this paragraph);
- (C) in the case of a taxable year beginning after December 31, 1959, and before January 1, 1961, 66% percent of the amount thereof (determined without regard to this paragraph); and
- (D) in the case of a taxable year beginning after December 31, 1960, 100 percent of the amount thereof.

# PART VI—ADJUSTED LIFE INSURANCE RESERVES (805(c)(1))

This term constitutes the mean of the life insurance reserves (as defined in section 801(b)), computed under Part IV (excluding 33½ percent of the pension plan reserves taken into

account under Part V), adjusted as set forth in Part VI, Schedule B, of the form.

## PART VII—INTEREST PAID (805(e))

Line 1.—Enter all interest for the taxable year on indebtedness, except on indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from taxation.

Line 2.—Enter all amounts in the nature of interest, whether or not guaranteed, for the taxable year on insurance or annuity contracts (including contracts supplementary thereto)

which do not involve, at the time of accrual, life, health, or accident contingencies.

Line 3.—Enter all amounts accrued for the taxable year for discounts in the nature of interest, whether or not guaranteed, on premiums or other consideration paid in advance on insurance or annuity contracts.

# SCHEDULE C.—TAXABLE INVESTMENT INCOME

General.—The policyholders' share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) of any life insurance company shall not be included in taxable investment income.

Line 1.—Enter on this line the percentage which represents the policyholders' share of each and every item of investment yield. This percentage is determined by dividing the policy and other contract liability requirements (Schedule B) by the investment yield (Schedule A); except that if the amount of the policy and other contract liability requirements exceeds the investment yield, then the policyholders' share of any item shall be 100 percent. See General Instruction O.

Line 2.—Enter on this line the percentage which represents the life insurance company's share of any item of investment yield. This percentage is obtained by ascertaining the percentage required to equal 100 percent when added to the percentage on line 1.

Line 2.—Enter on this line the percentage which represents the life insurance company's share of any item of investment yield. This percentage is obtained by ascertaining the percentage required to equal 100 percent when added to the percentage on line 1.

Lines 4-7.—Enter in column 1 the respective amounts from Schedule A. Multiply the amount on each line in column 1 by the percentage from line 1 and enter the product for each line in column 2. The amounts entered in column 2 represent the policyholders' share of these items which is not included in taxable investment income. Enter in column 3 the product obtained by multiplying each amount in column 1 by the percentage from line 2. The amounts entered in column 3 represent the company's share of these items of investment yield.

## Reductions

Line 9. Interest wholly tax-exempt.—Enter on this line the amount from line 4, column 3. This amount is the company's share of wholly tax-exempt interest which like the policyholders' share of such interest (from line 4, col. 2) is not included in taxable investment income.

Line 10. Interest partially tax-exempt.—The amount to be entered on this line is the product of the company's share of partially tax-exempt interest (from line 5, col. 3) multiplied by the ratio which (A) the normal tax rate for the taxable year prescribed by section 11 (30 percent) bears to (B) the sum of the normal tax rate and the surtax rate for the taxable year prescribed by section 11 (normal tax 30 percent plus surtax 22 percent), or, in other words, 30/52 of line 5, column 3.

Line 11. Dividends received deduction.—(a) Dividends received from domestic corporations.—Enter 85 percent of the

company's share (line 6(a), col. 3) of the amount received as dividends (except dividends on certain preferred stock of public utilities) from domestic corporations subject to income tax. Amounts received as dividends from mutual savings banks, cooperative banks, and domestic building and loan associations and allowed as a deduction to such banks or building and loan associations shall not be treated as dividends. In the case of dividends received from a regulated investment company, see section 854 regarding limitations on amount deductible.

- (b) Dividends received on certain preferred stock of public utilities.—Enter 62.115 percent of the company's share (line 6(b), col. 3) of the amount received as dividends on the preferred stock of a public utility which is subject to income tax and which is allowed a deduction for dividends paid under section 247.
- (c) Dividends received from certain foreign corporations.— Enter 85 percent of the company's share (line 6(c), col. 3) of dividends received from certain foreign corporations. See section 245 for qualifications and limitations on the amount of this deduction.

In general, no dividend-received deduction will be allowed on any share of stock (A) which is sold or otherwise disposed of in any case in which the corporation has held such share for 15 days or less, or (B) to the extent the corporation is under an obligation to make corresponding payments with respect to substantially identical stock or securities. Where the stock has preference in dividends, the holding period is 90 days instead of 15 if the corporation receives dividends with respect to such stock which are attributable to a period or periods aggregating in excess of 366 days.

Line 12. Small business deduction.—Enter 10 percent of the investment yield (Schedule A) but not to exceed \$25,000.

# SCHEDULE E.—GAIN AND LOSS FROM OPERATIONS

General.—The share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) of any life insurance company set aside for policyholders shall not be included in gain and loss from operations.

Line 1.—Enter on this line the percentage which represents the share of any item of investment yield which is set aside for policyholders. This percentage is determined by dividing the required interest (Schedule E-1) by the investment yield (Schedule A); except that if the amount of the required interest exceeds the investment yield, then the share of any item set aside for policyholders shall be 100 percent. See General Instruction O.

Line 2.—Enter on, this line the percentage which represents the life insurance company's share of any item of investment yield. This percentage is obtained by ascertaining the percentage required to equal 100 percent when added to the percentage on line 1

Lines 4-7.—Enter in column 1 the respective amounts from Schedule A. Multiply the amount on each line in column 1 by the percentage from line 1 and enter the product for each line in column 2. The amounts entered in column 2 represent the policyholders' share of these items which is not included in gain and loss from operations. Enter in column 3 the product obtained by multiplying each amount in column 1 by the percentage from line 2. The amounts entered in column 3 represent the company's share of these items of investment yield.

Line 9.—Enter the gross amount of premiums and other consideration (including advance premiums, deposits, fees, assessments, and consideration in respect of assuming liabilities under contracts not issued by the company) on insurance and annuity

contracts (including contracts supplementary thereto); less return premiums, and premiums and other consideration arising out of reinsurance ceded. Except in the case of amounts of premiums or other consideration returned to another life insurance company in respect of reinsurance ceded, amounts returned where the amount is not fixed in the contract but depends on the experience of the company or the discretion of the management shall not be included. However, amounts rebated or refunded due to policy cancellations or to erroneously computed premiums are to be treated as return premiums.

Line 10(a). Decrease in reserves.—Enter the excess of the sum of the items described in section 810(c) (see excerpts from the Code) as of the beginning of the taxable year over the sum of such items as of the close of the taxable year (reduced by the policyholders' share of investment yield not included in gain and loss from operations (from line 8, col. 2)).

Line 10(b). Decrease in 811(b)(2) reserves.—Enter the amount (from line 3, Part IV, Schedule E-2) by which the decrease for the taxable year in the reserves for policyholder dividends exceeds the amount of dividends paid to policyholders during such year.

Line 11. Other amounts.—Enter total amount of other income, not included in computing investment yield and not otherwise included above, to the extent that such items are includible in gross income, except that all gains from the sale or exchange of a capital asset or gains considered as gains from the sale or exchange of a capital asset are excluded.

Line 13. Death benefits, etc.—Enter the amount of all claims and benefits accrued (including' matured endowments and amounts allowed on surrender) and losses incurred (whether or not ascertained) during the year on insurance, annuity, and

supplementary contracts. The term "losses incurred (whether or not ascertained)" refers to a reasonable estimate of the amount of the losses incurred but not reported, as well as losses reported but where the amount thereof cannot be ascertained by the end of the year.

Line 14. Increase in reserves.—Enter the excess of the sum of the items described in section 810(c) (see excerpts from the Code) as of the close of the taxable year (reduced by the policyholders' share of investment yield not included in gain and loss from operations (line 8, col. 2)) over the sum of such items as of the beginning of the taxable year.

Line 15. Assumption by another person of liabilities under insurance, etc., contracts.—Enter the amount of the consideration (other than consideration arising out of reinsurance ceded) in respect of the assumption by another person of liabilities under insurance and annuity contracts (including contracts supplementary thereto).

Line 16. Interest wholly tax-exempt.—Enter on this line the amount from line 4, column 3. This amount is the company's share of wholly tax-exempt interest which, like the policyholders' share of such interest (from line 4, col. 2), is not included in gain and loss from operations.

Line 17. Interest partially tax-exempt.—Enter the product of the amount in line 5, column 3, multiplied by 30/52. See the instructions for Schedule C, line 10.

Line 18. Investment expenses.—Enter the excess of the total investment expenses over the amount allowed in computing investment yield (Schedule A), and the amount (if any) by which the sum of the deductions allowable (line 13, Schedule A) exceeds the gross investment income (line 7, Schedule A). Taxes and other expenses should be itemized in an attached schedule.

Line 19. Small business deduction.—Enter 10 percent of the investment yield (Schedule A) but not to exceed \$25,000.

Line 20. Other deductions.—Enter total amount of all other deductions, not included in computing investment yield and not included in lines 22-25 to the extent allowable as deductions in computing taxable income under Subtitle A of the Code except as modified below:

- 1. Interest.—No deduction is allowed under section 163 for interest in respect of the items described in section 810(c).
- 2. Bad Debts.—No deduction is allowed for an addition to reserves for bad debts under section 166(c), but a deduction for specific bad debts is permitted to the extent that the other provisions of that section are applicable.
- 3. Contributions or Gifts.—In applying section 170, the limitation on the total deduction shall be 5 percent of the gain from operations computed without regard to dividends to policyholders; certain nonparticipating contracts; group life, accident, and health insurance; interest wholly tax-exempt; interest partially tax-exempt; dividends received deduction; any operations loss carryback; and the contributions deductions. For limitation and the application of charitable contribution carryover, see the regulations.
- 4. Amortizable Bond Premiums.—No deduction is allowed under section 171 since a deduction for such premiums has already been taken into account in Schedule A.
- 5. NET OPERATING LOSS DEDUCTION.—The deduction under section 172 is not allowed since in lieu thereof an "operations loss deduction" is allowed. See line 23.
- 6. Partially Tax-Exempt Interest.—No deduction is allowed under section 242 in view of the deduction allowed under section 809(d)(8). See line 17.
- 7. DIVIDENDS RECEIVED.—No deduction is allowed under sections 243, 244, and 245 in view of the deduction allowed under section 809(d)(8). See line 22.

Also include in the amount reported on line 20 the deduction for certain mutualization distributions. This deduction represents the distributions to shareholders made in 1958 in acquisition of stock pursuant to a plan of mutualization adopted before January 1, 1958. For limitations on this deduction, see section 809(g) and the regulations issued thereunder.

Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount.

Line 22. Dividends received deduction.—(a) Dividends received from domestic corporations.—Enter 85 percent of the company's share (line 6(a), col. 3) of the amount received as dividends (except dividends on certain preferred stock of public utilities) from domestic corporations subject to income tax. Amounts received as dividends from mutual savings banks, cooperative banks, and domestic building and loans associations and allowed as a deduction to such banks or building and loan associations shall not be treated as dividends. In the case of dividends received from a regulated investment company, see section 854 regarding limitations on amount deductible.

- (b) Dividends received on certain preferred stock of public utilities.—Enter 62:115 percent of the company's share (line 6(b), col. 3) of the amount received as dividends on the preferred stock of a public utility which is subject to income tax and which is allowed a deduction for dividends paid under section 247.
- (c) Dividends received from certain foreign corporations.— Enter 85 percent of the company's share (line 6(c), col. 3) of dividends received from certain foreign corporations. See section 245 for qualifications and limitations on the amount of this deduction.
- (d) Section 246(b) limitation.—In applying this 85-percent limitation to the total dividends-received deduction, the gain from operations is computed without regard to the deductions for dividends to policyholders (line 25(c)); certain nonparticipating contracts (line 25(b)); group life, accident, and health insurance (line 25(a)); the operations loss deduction (line 23); and the dividends-received deduction. However, since these items have not as yet been deducted, the 85-percent limitation is applicable to the excess, if any, of line 12 over line 21.

**Exception.**—For any taxable year for which there is a loss from operations, the limitation shall not apply.

See also instructions for line 11, Schedule C.

Line 23. Operations loss deduction.—This deduction allowed under section 809(d)(4) and determined under section 812 is, in substance, the same as the net operating loss deduction provided by section 172.

The "operations loss deduction" is the sum of the operations loss carryovers and, carrybacks to the taxable year (sec. 812(a)). A loss from operations for taxable years beginning after December 31, 1954, may be carried back 3 years and carried over 5 years. If the company is a new company for the loss year, the carryover is for 8 years. For the definition of a new company and for the limitations on the 8-year carryover, see section 812(e) and the regulations applicable thereto. The loss from operations must first be carried to the earliest of the taxable years to which it may be carried, then to the next earliest year, etc. The portion of such loss which shall be carried to each of the other taxable years shall be the excess, if any, of the amount of such loss over the sum of the offsets for each of the prior taxable years to which such loss may be carried.

The term "offset" means, with respect to any taxable year, an amount equal to that increase in the operations loss deduction for the taxable year which reduces the life insurance company taxable income (computed without regard to sec. 802(b)(3)) for such year to zero.

The term "loss from operations" means the excess of allowable deductions (computed with the following modifications) over the amount on line 12:

- (a) No operations loss deduction is allowed.
- (b) The deductions allowed by section 243 (dividends received by corporations), section 244 (dividends received on certain preferred stock of public utilities), and section 245 (dividends received from certain foreign corporations) shall be computed without regard to section 246(b), as modified by section 809(d)(8)(B).

Special transitional rules for carrybacks.—A loss from operations for any taxable year beginning before January 1, 1958, shall not be carried back to any taxable year beginning before January 1, 1955. Furthermore, a loss from operations for any taxable year beginning after December 31, 1957, cannot be carried back to any year commencing prior to January 1, 1958.

The loss from operations for all taxable years beginning after December 31, 1954, and before January 1, 1958, shall be determined as if the law applicable to 1958 were in effect for those taxable years.

Examples of the carryback and carryover provisions are as follows:

Company A, organized in 1940, has a loss from operations of \$1,000 in 1958; this loss may not be carried back, but may be carried forward to each of the 5 taxable years following 1958. Company B, organized in 1940, has a loss from operations of \$1,200 in 1959; this loss must be carried back to the taxable year 1958 and then carried forward to each of the

5 taxable years following 1959. Company C, organized in 1940, had a loss from operations of \$1,300 for the taxable year 1956 (computed as if this part as in effect for 1958 applied to such year); this loss must first be carried back to the taxable year 1955 (computed as if this part as in effect for 1958 applied to such year) and then carried forward to each of the 5 taxable years following 1956. Company D, organized in 1958 and meeting the provisions of section 812(e), had a loss from operations of \$1,400 for the taxable year 1958; this loss may be carried forward to each of the 8 taxable years following 1958. Company E, organized in 1954 and meeting the provisions of section 812(e), had a loss from operations of \$1,500 for the taxable year 1956; this loss must first be carried back to the taxable year 1955 and then carried forward to each of the 8 taxable years following 1956.

Line 25. The amount of the deductions for Cvidends to policyholders, certain nonparticipating contracts, and group life, accident, and health insurance shall not exceed \$250,000 plus the amount, if any, by which (a) the gain from operations for the taxable year, computed without regard to these deductions, exceeds (b) the taxable investment income for the taxable year. The limitation provided in the foregoing sentence shall apply first to the amount of the deduction for group life, accident, and health insurance, then to the amount of the deduction for certain nonparticipating contracts, and finally to the amount of the deduction for dividends to policyholders. See Schedule E-2, Part I.

#### SCHEDULE E.—REQUIRED INTEREST

The term "required interest" for any taxable year means the sum of the products obtained by multiplying (A) each rate of interest required, or assumed by the taxpayer, in calculating the reserves described in section 810(c), by (B) the means of

the amount of such reserves computed at such rate at the beginning and end of the taxable year. See General Instruction O.

#### SCHEDULE E-2.—PART I-LIMITATION ON LINE 25, SCHEDULE E

Parts II, III, and IV should be completed before making entries in this schedule. Upon the proper completion of this schedule, the limitation provided in section 809(f) and ex-

plained in connection with line 25, Schedule E, automatically applies.

#### SCHEDULE E-2.—PART II—GROUP LIFE, ACCIDENT, AND HEALTH INSURANCE

This deduction is an amount equal to 2 percent of the premiums for the taxable year attributable to group life insurance contracts and group accident and health insurance contracts.

The term "premiums" means the net amount of the premiums and other consideration taken into account in Schedule E.

#### SCHEDULE E-2.—PART III—CERTAIN NONPARTICIPATING CONTRACTS

This deduction is an amount equal to 10 percent of the increase for the taxable year in the reserves for nonparticipating contracts (excluding group contracts) or (if greater) an amount equal to 3 percent of the premiums for the taxable year (excluding that portion of the premiums which is allocable to annuity features) attributable to nonparticipating contracts (other than group contracts) which are issued or renewed for periods of 5 years or more. The term "reserves for nonparticipating contracts" means such part of the life insurance reserves (excluding that portion of the reserves which is allocable to annuity features) as relates to nonparticipating contracts (other than group contracts). The term "premiums" means the net amount of the premiums and other consideration taken into account in Schedule E.

The premiums referred to include only premiums attributable to nonparticipating contracts (other than group contracts) which are issued for periods of 5 years or more or are renewed

for periods of 5 years or more, but do not include that portion of the premiums which is allocable to annuity features. The determination of whether a contract meets the 5-year requirement will be made as of the date it was issued, or as of the date it was renewed, whichever is applicable. Thus, a 20-year nonparticipating endowment policy will qualify under section 809(d)(5), even though the individual insured subsequently dies at the end of the second year, since the policy was issued for a period of 5 years or more. However, a 1-year renewable term contract will not qualify, in that, as of the date it was issued (or of any renewal date) it was not issued (or renewed) for a period of 5 years or more. In like manner, a policy originally issued for a 3-year period and subsequently renewed for an additional 3-year period will not qualify. However, if this policy were renewed for a period of 5 years or more, the policy would qualify under section 809(d)(5) from the date it was renewed.

#### SCHEDULE E-2.—PART III—DIVIDENDS TO POLICYHOLDERS

The term "dividends to policyholders" means dividends and similar distributions made to policyholders in their capacity as such. In general, amounts returned where the amount is not fixed in the contract but depends on the experience of the company or the discretion of the management are to be treated as dividends to policyholders. The term does not include interest paid (as defined in sec. 805(e)), or, for example, so-called excess interest payments made with respect to supplementary contracts not involving life, accident, or health contingencies merely because such interest payments exceed the amounts guaranteed under such contracts.

The deduction shall be an amount equal to the dividends paid to policyholders during the taxable year plus (or minus) any

increase (or decrease) in the reserves for policyholder dividends payable during the immediately succeeding taxable year. For this purpose, reserves for policyholder dividends at the end of any taxable year shall include all amounts set aside before the 16th day of the 3d month of the year following such taxable year for payment of policyholder dividends during the year following such taxable year.

If the amount of the decrease for the taxable year in the reserves for policyholder dividends exceeds the amount of dividends paid to policyholders during such year, the amount of the excess shall be taken into account as an income item (line 10(b), Schedule E).

#### SCHEDULE F.—SHAREHOLDERS SURPLUS ACCOUNT

Section 815(b)(1) provides that every stock life insurance company (both domestic and foreign) shall establish and maintain a shareholders surplus account. The account shall be

established as of January 1, 1958, and the beginning or opening balance shall be zero.

#### EXCERPTS FROM THE INTERNAL REVENUE CODE

#### SEC. 801. DEFINITION OF LIFE INSURANCE COMPANY.

- (a) LIFE INSURANCE COMPANY DEFINED.—For purposes of this subtitle, the term "life insurance company" means an insurance company which is engaged in the business of issuing life insurance and annuity contracts (either separately or combined with health and accident insurance), or noncancellable contracts of health and accident insurance, if—
- (1) its life insurance reserves (as defined in subsection (b)), plus  $\ \ \, (b, b) = 0$
- (2) unearned premiums, and unpaid losses (whether or not ascertained), on noncancellable life, health, or accident policies not included in life insurance reserves.

comprise more than 50 percent of its total reserves (as defined in subsection (c)).

- (b) LIFE INSURANCE RESERVES DEFINED .-
- (1) In general.—For purposes of this part, the term "life insurance reserves" means amounts—
- (A) which are computed or estimated on the basis of recognized mortality or morbidity tables and assumed rates of interest, and
- (B) which are set aside to mature or liquidate, either by payment or reinsurance, future unaccrued claims arising from life insurance, annuity, and noncancellable health and accident insurance contracts (including life insurance or annuity contracts combined with noncancellable health and accident insurance) involving, at the time with respect to which the reserve is computed, life, health, or accident contingencies.
  - (2) RESERVES MUST BE REQUIRED BY LAW.-Except-
- (A) in the case of policies covering life, health, and accident insurance combined in one policy issued on the weekly premium payment plan, continuing for life and not subject to cancellation,
- (B) in the case of policies issued by an organization which meets the requirements of section 501(c)(9) other than the requirement of subparagraph (B) thereof, and
- (C) as provided in paragraph (3), in addition to the requirements set forth in paragraph (1), life insurance reserves must be required by law.
- (3) ASSESSMENT COMPANIES.—In the case of an assessment life insurance company or association, the term "life insurance reserves" includes—

- (A) sums actually deposited by such company or association with State or Territorial officers pursuant to law as guaranty or reserve funds, and
- (B) any funds maintained, under the charter or articles of incorporation or association (or bylaws approved by a State insurance commissioner) of such company or association, exclusively for the payment of claims arising under certificates of membership or policies issued on the assessment plan and not subject to any other use.

For purposes of this part, the rate of interest assumed in calculating the reserves described in subparagraphs (A) and (B) shall be 3 percent.

- (4) Deficiency reserves excluded.—The term "life insurance reserves" does not include deficiency reserves. For purposes of this subsection and subsection (c), the deficiency reserve for any contract is that portion of the reserve for such contract equal to the amount (if any) by which—
- $(\mathbf{A})$  the present value of the future net premiums required for such contract, exceeds
- (B) the present value of the future actual premiums and consideration charged for such contract.
- (5) AMOUNT OF RESERVES.—For purposes of this subsection, subsection (a), and subsection (c), the amount of any reserve (or portion thereof) for any taxable year shall be the mean of such reserve (or portion thereof) at the beginning and end of the taxable year.
- (c) Total Reserves Defined.—For purposes of subsection (a), the term "total reserves" means—
  - (1) life insurance reserves,
- (2) unearned premiums, and unpaid losses (whether or not ascertained), not included in life insurance reserves, and
- (3) all other insurance reserves required by law.

The term "total reserves" does not include deficiency reserves (within the meaning of subsection (b)(4)).

(d) ADJUSTMENTS IN RESERVES FOR POLICY LOANS.—For purposes only of determining under subsection (a) whether or not an insurance company is a life insurance company, the life insurance reserves, and the total reserves, shall each be reduced by an amount equal to the mean of the aggregates, at the beginning and end of the taxable year, of the policy loans outstanding with respect to contracts for which life insurance reserves are maintained.

- (e) GUARANTEED RENEWABLE CONTRACTS.—For purposes of this part, guaranteed renewable life, health, and accident insurance shall be treated in the same manner as noncancellable life, health, and accident insurance.
- (f) Burial and Funeral Benefit Insurance Companies.— A burial or funeral benefit insurance company engaged directly in the manufacture of funeral supplies or the performance of funeral services shall not be taxable under this part but shall be taxable under section 821 or section 831.
  - (g) VARIABLE ANNUITIES .-
- (1) In general.—For purposes of this part, an annuity contract includes a contract which provides for the payment of a variable annuity computed on the basis of recognized mortality tables and the investment experience of the company issuing the contract.
- (2) Adjusted reserves rate; assumed rate.—For purposes of this part—
- (A) the adjusted reserves rate for any taxable year with respect to annuity contracts described in paragraph (1), and
- (B) the rate of interest assumed by the taxpayer for any taxable year in calculating the reserve on any such contract, shall be a rate equal to the current earnings rate determined under paragraph (3).
- (3) CURRENT EARNINGS RATE.—For purposes of this part, the current earnings rate for any taxable year with respect to annuity contracts described in paragraph (1) is the current earnings rate determined under section 805(b) (2) with respect to such contracts, reduced by the percentage obtained by dividing—
- (A) the amount of the actuarial margin charge on all annuity contracts described in paragraph (1) issued by the taxpayer, by
  - (B) the mean of the reserves for such contracts.
- (4) Increases and decreases in reserves.—For purposes of subsections (a) and (b) of section 810, the sum of the items described in section 810(c) taken into account as of the close of the taxable year shall, under regulations prescribed by the Secretary or his delegate, be adjusted—
- (A) by subtracting therefrom an amount equal to the sum of the amounts added from time to time (for the taxable year) to the reserves for annuity contracts described in paragraph (1) by reason of appreciation in value of assets (whether or not the assets have been disposed of), and
- (B) by adding thereto an amount equal to the sum of the amounts subtracted from time to time (for the taxable year) from such reserves by reason of depreciation in value of assets (whether or not the assets have been disposed of).
- (5) COMPANIES ISSUING VARIABLE ANNUITIES AND OTHER CONTRACTS.—In the case of a life insurance company which issues both annuity contracts described in paragraph (1) and other contracts, under regulations prescribed by the Secretary or his delegate—
- (A) the policy and other contract liability requirements shall be considered to be the sum of—
- (i) the policy and other contract liability requirements computed by reference to the items which relate to annuity contracts described in paragraph (1), and
- (ii) the policy and other contract liability requirements computed by excluding the items taken into account under clause (i); and
- (B) such additional separate computations, with respect to such annuity contracts and such other contracts, shall be made as may be necessary to carry out the purposes of this subsection and this part.

(6) TERMINATION.—Paragraphs (1), (2), (3), (4), and (5) shall not apply with respect to any taxable year beginning after December 31, 1962.

#### SEC. 802. TAX IMPOSED.

- (a) TAX IMPOSED .--
- (1) In GENERAL.—A tax is hereby imposed for each taxable year beginning after December 31, 1957, on the life insurance company taxable income of every life insurance company. Such tax shall consist of—
- (A) a normal tax on such income computed at the rate provided by section 11(b), and
- (B) a surtax, on so much of such income as exceeds \$25,000, computed at the rate provided by section 11(c).
- (2) Tax in case of capital gains.—If for any taxable year beginning after December 31, 1958, the net long-term capital gain of any life insurance company exceeds the net short-term capital loss, there is hereby imposed a tax equal to 25 percent of such excess.
- (3) Special rule for 1959 and 1960.—If any amount is subtracted from the policyholders surplus account under section 815(c)(3) for a taxable year beginning in 1959 or 1960 on account of a distribution in 1959 or 1960 (not including any distribution treated under section 815(d)(2)(B) as made in 1959 or 1960), the tax imposed for such taxable year on the life insurance company taxable income shall be the amount determined under paragraph (1) reduced by the following percentage of the amount by which the tax imposed by paragraph (1) is (without regard to this paragraph) increased, on account of the amount so subtracted, by reason of section 802(b)(3)—
- (A) in the case of a taxable year beginning in 1959, 66% percent; and
- (B) in the case of a taxable year beginning in 1960, 33\% percent.

The preceding sentence shall not apply with respect to any payment treated as a distribution under section 815(d) (3).

- (b) LIFE INSURANCE COMPANY TAXABLE INCOME DEFINED.—For purposes of this part, the term "life insurance company taxable income" means the sum of—
- (1) the taxable investment income (as defined in section 804) or, if smaller, the gain from operations (as defined in section 809).
- (2) if the gain from operations exceeds the taxable investment income, an amount equal to 50 percent of such excess, plus
- (3) the amount subtracted from the policyholders surplus account for the taxable year, as determined under section 815. SEC. 810. RULES FOR CERTAIN RESERVES.
- (a) ADJUSTMENT FOR DECREASE.—If the sum of the items described in subsection (c) as of the beginning of the taxable year exceeds the sum of such items as of the close of the taxable year (reduced by the amount of investment yield not included in the gain or loss from operations for the taxable year by reason of section 809(a) (1)), the excess shall be taken into account as a net decrease referred to in section 809(c) (2).
- (b) ADJUSTMENT FOR INCREASE.—If the sum of the items described in subsection (c) as of the close of the taxable year (reduced by the amount of investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1)) exceeds the sum of such items as of the beginning of the taxable year, the excess shall be taken into account as a net increase referred to in section 809(d)(2).
- (c) ITEMS TAKEN INTO ACCOUNT.—The items referred to in subsections (a) and (b) are as follows:
- (1) The life insurance reserves (as defined in section 801(b)).

- (2) The unearned premiums and unpaid losses included in total reserves under section 801(c)(2).
- (3) The amounts (discounted at the rates of interest assumed by the company) necessary to satisfy the obligations under insurance or annuity contracts (including contracts supplementary thereto), but only if such obligations do not involve (at the time with respect to which the computation is made under this paragraph) life, health, or accident contingencies.
- (4) Dividend accumulations, and other amounts, held at interest in connection with insurance or annuity contracts (including contracts supplementary thereto).
- (5) Premiums received in advance, and liabilities for premium deposit funds.

In applying this subsection, the same item shall be counted only

- (d) Adjustment for Change in Computing Reserves .-
- (1) IN GENERAL.—If the basis for determining any item referred to in subsection (c) as of the close of any taxable year differs from the basis for such determination as of the close of the preceding taxable year, then so much of the difference between—
- (A) the amount of the item at the close of the taxable year, computed on the new basis, and
- (B) the amount of the item at the close of the taxable year, computed on the old basis,

as is attributable to contracts issued before the taxable year shall be taken into account for purposes of this subpart as follows:

- (i) if the amount determined under subparagraph (A) exceeds the amount determined under subparagraph (B),  $\frac{1}{10}$  of such excess shall be taken into account, for each of the succeeding 10 taxable years, as a net increase to which section  $809 \, (\mathrm{d}) \, (2)$  applies; or
- (ii) if the amount determined under subparagraph (B) exceeds the amount determined under subparagraph (A),  $\frac{1}{10}$  of such excess shall be taken into account for each of the 10 succeeding taxable years, as a net decrease to which section 809(c)(2) applies.
- (2) TERMINATION AS LIFE INSURANCE COMPANY.—Except as provided in section 381(c)(22) (relating to carryovers in certain corporate readjustments), if for any taxable year the tax-payer is not a life insurance company, the balance of any adjustments under this paragraph shall be taken into account for the preceeding taxable year.
- (3) EFFECT OF PRELIMINARY TERM ELECTION.—An election under section 818(c) shall not be treated as a change in the basis for determining an item referred to in subsection (c) to which this subsection applies. If an election under section 818(c) applies for the taxable year, the amounts of the items referred to in subparagraphs (A) and (B) of paragraph (1) shall be determined without regard to such election. If such an election would apply in respect of such item for the taxable year but for the new basis, the amount of the item referred to in subparagraph (B) shall be determined on the basis which would have been applicable under section 818(c) if the election applied in respect of the item for the taxable year.
- (e) CERTAIN DECREASES IN RESERVES OF VOLUNTARY EMPLOY-EES' BENEFICIARY ASSOCIATIONS.—
- (1) DECREASES DUE TO VOLUNTARY LAPSES OF POLICIES ISSUED BEFORE JANUARY 1, 1958.—For purposes of subsections (a) and (b), in the case of a life insurance company which meets the requirements of section 501(c)(9) other than the requirement of subparagraph (B) thereof, there shall be taken into account only 11½ percent of any decrease in the life insurance reserve on any policy issued before January 1, 1958, which is attrib-

utable solely to the voluntary lapse of such policy on or after January 1, 1958. In applying the preceding sentence, the decrease in the reserve for any policy shall be determined by reference to the amount of such reserve as of the beginning of the taxable year, reduced by any amount allowable as a deduction under section 809(d)(1) in respect of such policy by reason of such lapse. This paragraph shall apply for any taxable year only if the taxpayer has made an election under paragraph (3) which is effective for such taxable year.

- (2) DISALLOWANCE OF CARRYOVERS FROM PRE-1958 LOSSES FROM OPERATIONS.—In the case of a life insurance company to which paragraph (1) applies for the taxable year, section 812(b)(1) shall not apply with respect to any loss from operations for any taxable year beginning before January 1, 1958.
- (3) ELECTION.—Paragraph (1) shall apply to any taxpayer for any taxable year only if the taxpayer elects, not later than the time prescribed by law (including extensions thereof) for filing the return for such taxable year, to have such paragraph apply. Such election shall be made in such manner as the Secretary or his delegate shall prescribe by regulations. Such election shall be effective for the taxable year for which made and for all succeeding taxable years, and shall not be revoked except with the consent of the Secretary or his delegate.

#### SEC. 811. DIVIDENDS TO POLICYHOLDERS.

- (a) DIVIDENDS TO POLICYHOLDERS DEFINED.—For purposes of this part, the term "dividends to policyholders" means dividends and similar distributions to policyholders in their capacity as such. Such term does not include interest paid (as defined in section 805(e)).
  - (b) Amount of Deduction .--
- (1) IN GENERAL.—Except as limited by section 809(f), the deduction for dividends to policyholders for any taxable year shall be an amount equal to the dividends to policyholders paid during the taxable year—
- (A) increased by the excess of (i) the amounts held at the end of the taxable year as reserves for dividends to policyholders (as defined in subsection (a)) payable during the year following the taxable year, over (ii) such amounts held at the end of the preceding taxable year, or
- (B) decreased by the excess of (i) such amounts held at the end of the preceding taxable year, over (ii) such amounts held at the end of the taxable year.

For purposes of subparagraphs (A) and (B), there shall be included as amounts held at the end of any taxable year amounts set aside, before the 16th day of the third month of the year following such taxable year (or, in the case of a mutual savings bank subject to the tax imposed by section 594, before the 16th day of the fourth month of the year following such taxable year), for payment during the year following such taxable year.

(2) CERTAIN AMOUNTS TO BE TREATED AS NET DECREASES.—If the amount determined under paragraph (1)(B) exceeds the dividends to policyholders paid during the taxable year, the amount of such excess shall be a net decrease referred to in section 809(c)(2).

#### SEC. 815. DISTRIBUTIONS TO SHAREHOLDERS.

- (a) GENERAL RULE.—For purposes of this section and section 802(b) (3), any distribution to shareholders after December 31, 1958, shall be treated as made—
- (1) first out of the shareholders surplus account, to the extent thereof,
- (2) then out of the policyholders surplus account, to the extent thereof, and
  - (3) finally out of other accounts.

## **REVISED PAGES FOR**

#### STATISTICS OF INCOME-1958-59

# Corporation Income Tax Returns With Accounting Periods Ended July 1958-June 1959

# Table 1.—TOTAL COMPILED RECEIPTS, NET INCOME OR DEFICIT, AND DISTRIBUTIONS TO STOCKHOLDERS, BY MINOR INDUSTRIAL GROUP

Please substitute the attached sheets for pages 22, 23, 24, 25, and 26 of Statistics of Income-1958-59, Corporation Income Tax Returns. These sheets provide revised data for two columns in table 1 of this volume. The revisions affect:

- 1. Column 7.—Net income reported on all corporation returns with net income
- 2. Column 9.—Net income reported on returns, Forms 1120, 1120L, and 1120M, with net income.

The complete table has been reproduced for convenient use.

These revisions do not affect data in any of the other tables in this volume of Statistics of Income.

Publication No. 16 (1-61)

U. S. Treasury Department Internal Revenue Service May 1961

For purposes of this section, the term "distribution" includes any distribution in redemption of stock or in partial or complete liquidation of the corporation, but does not include any distribution made by the corporation in its stock or in rights to acquire its stock, and does not (except for purposes of paragraph (3) and subsection (e) (2) (B)) include any distribution in redemption of stock issued before 1958 which at all times on and after the date of issuance and on and before the date of redemption is limited as to dividends and is callable, at the option of the issuer, at a price not in excess of 105 percent of the sum of the issue price and the amount of any contribution to surplus made by the original purchaser at the time of his purchase.

- (b) SHAREHOLDERS SURPLUS ACCOUNT .-
- (1) IN GENERAL.—Each stock life insurance company shall, for purposes of this part, establish and maintain a shoreholders surplus account. The amount in such account on January 1, 1958, shall be zero.
- (2) Additions to account.—The amount added to the share-holders surplus account for any taxable year beginning after December 31, 1957, shall be the amount by which—
  - (A) the sum of-
- (i) the life insurance company taxable income (computed without regard to section 802(b)(3)),
- (ii) in the case of a taxable year beginning after December 31, 1958, the amount (if any) by which the net long-term capital gain exceeds the net short-term capital loss,
- (iii) the deduction for partially tax-exempt interest provided by section 242 (as modified by section 804(a)(3)), the deductions for dividends received provided by sections 243, 244, and 245 (as modified by section 809(d)(8)(B)), and the amount of interest excluded from gross income under section 103, and
- (iv) the small business deduction provided by section 809(d)(10), exceeds
- (B) the taxes imposed for the taxable year by section 802(a), determined without regard to section 802(b)(3).
  - (3) SUBTRACTIONS FROM ACCOUNT.—
- (A) IN GENERAL.—There shall be subtracted from the shareholders surplus account for any taxable year the amount which is treated under this section as distributed out of such account.
- (B) DISTRIBUTIONS IN 1958.—There shall be subtracted from the shareholders surplus account (to the extent thereof) for any taxable year beginning in 1958 the amount of distributions to shareholders made during 1958.

#### SEC. 819. FOREIGN LIFE INSURANCE COMPANIES.

- (a) Carrying on United States Insurance Business.—A foreign life insurance company carrying on a life insurance business within the United States, if with respect to its United States business it would qualify as a life insurance company under section 801, shall be taxable on the United States business of such company in the same manner as a domestic life insurance company.
- (b) ADJUSTMENT WHERE SURPLUS HELD IN UNITED STATES IS LESS THAN SPECIFIED MINIMUM.—
- (1) In GENERAL.—In the case of any company described in subsection (a), if the minimum figure determined under paragraph (2) exceeds the surplus held in the United States, then—
- (A) the amount of the policy and other contract liability requirements (determined under section 805 without regard to this subsection), and
- (B) the amount of the required interest (determined under section 809(a)(2) without regard to this subsection),

shall each be reduced by an amount determined by multiplying such excess by the current earnings rate (as defined in section 805(b)(2)).

- (2) Definitions.—For purposes of paragraph (1)—
- (A) The minimum figure is the amount determined by multiplying the taxpayer's total insurance liabilities on United States business by—
- (i) in the case of a taxable year beginning before January 1, 1959, 9 percent, and
- (ii) in the case of a taxable year beginning after December 31, 1958, a percentage for such year to be determined and proclaimed by the Secretary or his delegate.

The percentage determined and proclaimed by the Secretary or his delegate under clause (ii) shall be based on such data with respect to domestic life insurance companies for the preceding taxable year as the Secretary or his delegate considers representative. Such percentage shall be computed on the basis of a ratio the numerator of which is the excess of the assets over the total insurance liabilities, and the denominator of which is the total insurance liabilities.

(B) The surplus held in the United States is the excess of the assets held in the United States over the total insurance liabilities on United States business.

For purposes of this paragraph and subsection (c), the term "total insurance liabilities" means the sum of the total reserves (as defined in section 801(c)) plus (to the extent not included in total reserves) the items referred to in paragraphs (3), (4), and (5) of section 810(c).

- (c) DISTRIBUTIONS TO SHAREHOLDERS .-
- (1) IN GENERAL.—In applying sections 802(b) (3) and 815 for purposes of subsection (a), the amount of the distributions to shareholders shall be determined by multiplying the total amount of the distributions to shareholders (within the meaning of section 815) of the foreign life insurance company by whichever of the following percentages is selected by the taxpayer for the taxable year:
- (A) the percentage which the minimum figure for the taxtable year (determined under subsection (b)(2)(A)) is of the excess of the assets of the company over the total insurance liabilities; or
- (B) the percentage which the total insurance liabilities on United States business for the taxable year is of the company's total insurance liabilities.
- (2) DISTRIBUTIONS PURSUANT TO CERTAIN MUTUALIZATIONS.—In applying section 815(e) for purposes of subsection (a)—
- (A) the paid-in capital and paid-in surplus referred to in section 815(e)(1)(A) of a foreign life insurance company is the portion of such capital and surplus determined by multiplying such capital and surplus by the percentage selected for the taxable year under paragraph (1); and
- (B) the excess referred to in section 815(e)(2)(A)(i) (without the adjustment provided by section 815(e)(2)(B)) is whichever of the following is the greater:
- (i) the minimum figure for 1958 determined under subsection (b)(2)(A), or
- (ii) the surplus described in subsection (b)(2)(B) (determined as of December 31, 1958).
- (d) No United States Insurance Business.—Foreign life insurance companies not carrying on an insurance business within the United States shall not be taxable under this part but shall be taxable as other foreign corporations.

Total gross receipts from soles, line 10, column 3, should not exceed the amount shown in line 9. If necessary, gross receipts from a particular sale should be apportioned in the above schedule and the excess reported in separate Schedule D (Form 1120).

Sales (except the apportionment mentioned above) reported in this schedule should not be reported in separate Schedule D (Form 1120).

Enter total other capital losses (line 10, column 7) as line 16, page 1.

#### GENERAL INSTRUCTIONS

A. Companies Required to File a Return.—Every mutual insurance company other than a life or marine insurance company and other than a fire insurance company subject to the tax imposed by section 831 (except a foreign mutual insurance company other than a life or marine insurance company or a fire insurance company subject to the tax imposed by section 831—not carrying on an insurance business within the United States) with gross amount received from sources indicated in section 501 (c) (15), in excess of \$75,000, shall file a return.

If a mutual insurance company subject to taxation under section 821 disposes of its insurance business and reserves or otherwise ceases to be entitled to be taxed under section 821, but continues its corporate existence for the purpose of winding up and liquidating its affairs, thereafter it will be taxable in the same manner as corporations generally.

- B. Period Covered.—The return shall be for the calendar year ended December 31, 1958, and the taxable income computed on the calendar year basis in accordance with the provisions of section 843.
- C. Accounting Methods.—A return on this form shall be filed using the cash or accrual method of accounting, except that whichever method is adopted in filing the company's first return must be followed until the consent of the Commissioner is received to change the method.

Rounding Off to Whole-Dollar Amounts.—If you wish, the money items on your return or accompanying schedules required by such return may be shown as whole-dollar amounts. This means that you eliminate any amount less than 50 cents, and increase any amount from 50 cents through 99 cents to the next highest dollar. Your choice as to whether you round off to whole-dollar amounts may not be changed after the due date for filing your return.

- **D. Time and Place for Filing.**—The return must be sent to the District Director of Internal Revenue for the district in which the company's principal place of business or principal office or agency is located, on or before March 15, 1959.
- E. Signature and Verification.—The return must be signed either by the president, vice president, treasurer, assistant treasurer or chief accounting officer, or other corporate officer (such as tax officer) who is authorized to sign. A receiver, trustee, or assignee must sign any return which he is required to file on behalf of a corporation. The statement at the bottom of page 1 of the return is required to be signed by any person, firm, or corporation who prepared the taxpayer's return. If the return is prepared by a firm or corporation, it should be signed in the name of the firm or corporation. The statement is not required if the return is prepared by a regular, full-time employee.
- F. Payment of Tax.—The tax must be paid in full when the return is filed or in two installments, 50 percent on or before the 15th day of the third month and 50 percent on or before the 15th day of the sixth month following the close of the taxable year.

A declaration of estimated tax must be made by every corporation which is subject to income tax under subchapter L of chapter 1 (relating to insurance companies), if its income tax for the taxable year can reasonably be expected to exceed \$100,000 plus the amount of any estimated credits against tax. (See Form 1120-ES.) In the case of affiliated corporations filing a consolidated return see consolidated return regulations prescribed under section 1502.

Additional Charge for Underpayment of Estimated Tax.—Underpayment of installments of estimated tax will result in additional charges for the period from the due date of each installment until paid, or until the due date for filling the tax return, whichever is the earlier.

The charge with respect to any underpayment of any installment is mandatory and will be made unless the exceptions specified in section 6655 (d) are applicable.

If you have an underpayment of estimated tax and believe the additional charge should not be asserted due to the applicability of the "relief provisions" of section 6655 (d), attach a statement to your return explaining which of the provisions applies to you, showing any necessary computations. If you wish, you may obtain Form 2220 from the nearest Internal Revenue Service office for this purpose.

- G. Failure to File, Etc.—Substantial additions to the tax are imposed for failing to file a return, for late filing, and for filing a false or fraudulent return.
- H. Information at Source.—Every insurance company making payments in the course of its trade or business of (1) interest, rents, commissions, or other fixed or determinable income of \$600 or more during the calendar year 1958 to an individual, a partnership, or a fiduciary, or (2) salaries or wages of \$600 or more shall make returns on Forms 1096 and 1099, except that the making of such return will not be required with respect to salary or wage payments included on Form W-2, provided copies of withholding statements on Form W-2 are furnished. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099.

The returns on Forms 1096 and 1099 shall also include dividend payments totaling \$10 or more during the calendar year 1958 to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident.

- I. Information by Corporations—1. Contemplated Dissolution of Liquidation.—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966, setting forth the terms of such resolution or plan. (See section 6043.)
- Distributions in Liquidation.—Every corporation making distributions
  in liquidation of the whole or any part of its capital stock shall also make returns
  on Forms 1096 and 1099L, as required by instructions on Form 1096, for the
  calendar year 1958.
- J. Stock Ownership in Foreign Corporations.—In addition to the schedule required by Specific Instruction 2, a corporation owning any stock of a foreign corporation must attach a statement showing the name and address of each company and the total number of shores of each class of outstanding stock owned during the taxable year. If the corporation owned 5 percent or more in value of the outstanding stock of a foreign personal holding company, attach a statement setting forth in complete detail the information required by section 551 (d).
- K. Annual Statement.—A copy of the annual statement for mutual insurance companies adopted by the National Convention of Insurance Commissioners for the year 1958, as filed with the Insurance Department of the State, Territory, or District of Columbia, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany the return. Similar copies for the preceding year must also be furnished, if not filed for such year.
- L. List of Attached Schedules.—Attach a list of the schedules accompanying the return, giving for each a brief title and the schedule number. Place name and address of company on each schedule.

#### SPECIFIC INSTRUCTIONS

#### The Following Instructions Are Numbered to Correspond With Line Numbers on Page 1 of the Return Unless Otherwise Indicated

- 1. Interest.—Enter interest received or accrued from all sources during the taxable year. The gross amount of interest reported as gross income shall be decreased by the amortization of premiums and increased by the accrual of discount attributable to the taxable year on bonds, notes, debentures or other evidences of indebtedness, determined (1) in accordance with the method regularly employed, if reasonable, or (2) in accordance with regulations prescribed by the Secretary or his delegate. (Attach statement showing method and computation.)
- 2. Dividends.—Enter on line 2 (a) the amount received or accrued as dividends from a domestic corporation which is subject to taxation under Subtitle A, except dividends on certain preferred stock of a public utility corporation, and dividends received from a corporation entitled to the benefits of section 931 and from a corporation organized under the China Trade Act, 1922. Enter on line 2 (b) dividends received on certain preferred stock of a public utility which is subject to tax under Subtitle A. Enter on line 2 (c) dividends from foreign corporations. Enter on line 2 (d) dividends from all other corporations including dividends on share accounts in Federal savings and loan associations issued on or after March 28, 1942. Enter on line 1 (c) dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942. Submit schedule, itemizing all dividends received during the year, stating the names and addresses of the corporations declaring the dividends and amounts received from each.
- 3. Rents and Royalties.—Enter the gross amount received from these sources
- 4. Income From Trade or Business Other Than Insurance Business.— Enter the gross income from any trade or business (other than an insurance business) carried on by the mutual insurance company, or by a partnership of which the mutual insurance company is a member.
- 5. Leases, Etc.—Enter the gross amount of income received from the entering into (or the alteration or termination) of any lease, mortgage or other instrument or agreement from which the mutual insurance company derives interest dividends, rents or royalties.
- 8. Gains and Losses From Sales or Exchanges of Capital Assets.— Report sales or exchanges of capital assets in separate Schedule D (Form 1120)

(but see Schedule B, page 2). Every sale or exchange of a capital asset, even though no gain or loss may be indicated, must be reported in detail.

Losses from sales or exchanges of capital assets (except losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders) shall be allowed to the extent of gains from such sales or exchanges, with respect to companies taxable under section 821 (a) or (b). The net capital loss for such companies shall be the amount by which losses for such year from sales or exchanges of capital assets exceed the sum of the gains from such sales or exchanges and (1) the corporation surtax net income (computed without regard to gains or losses from sales or exchanges of capital assets) or (2) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders, whichever is the lesser. However, the amount of a net capital loss sustained in any taxable year may be carried over to each of the five succeeding taxable years and treated in each such succeeding taxable year as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable year intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried.

- For further information relating to gains and losses from sales or exchanges of property, see instructions accompanying separate Schedule D (Form 1120).
- Interest Wholly Exempt From Tax.—Enter the amount of interest which is wholly exempt from taxation under the provisions of section 103.
- 9. Investment Expenses.—Enter expenses paid or accrued which are properly chargeable to investment expenses, the total amount of which, if there be any allocation of general expenses to investment expenses, should not exceed one-fourth of 1 percent of the mean of the invested assets reported on line 12, Schedule A, plus, in cases where the taxable income computed without any deduction for (1) investment expenses and (2) tax-free interest exceeds 3½ percent of the book value of such mean of the invested assets, one-fourth of such excess. Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount. (See section 822 (c) (2).)

(2/J 16--74781-1

- 10. Taxes.—Enter taxes paid or accrued exclusively upon real estate owned by the company as provided in section 164. For limitation on deduction, see Instruction 13 (b) below.
- 11. Real Estate Expenses.—Enter all ordinary and necessary building ex 11. Real Estate Expenses.—Enter all ordinary and necessary building expenses, paid or accrued, such as fire insurance, heat, light, labor, etc., and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property is held forth for rental purposes. For limitation on deduction, see Instruction 17 (b) below.
- tor rental purposes. For limitation on deduction, see Instruction 17 (b) below.

  12. Depreciation.—The amount deductible on account of depreciation is an amount reasonably measuring a portion of the investment in depreciable property which, by reason of exhaustion, wear and tear, or obsolescence, is properly chargeable against the operations of the year. In any event the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the income specified in section 822 (b). The amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life.

  (a) Straight Line Method.—The most common method of consenting and account in the common method of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of consenting and the probable of co
- remaining of its expected useful life.

  (a) Straight Line Method.—The most common method of computing depreciation is the "straight line" method. It allows for the recovery of cost in equal annual amounts over the life of the property, with only salvage value remaining at the end of its useful life. To compute the deduction, add the cost of improvements to the cost (or other) basis of the asset and deduct both the estimated salvage value and the total depreciation allowed or allowable in past years. Divide the result by the number of years of useful life remaining to the asset; the quotient is the depreciation deduction.
- (b) Declining Balance Method.—Under this method a uniform applied each year to the remaining cost or other basis of property (without adjustment for salvage value) determined at the beginning of such year. For property acquired before January 1, 1954, or used property whenever acquired, the rate of depreciation under this method may not exceed one and one-half times the applicable straight line rate.
- times the applicable straight line rate.

  (c) Special Rules for New Assets Acquired After December 31, 1953.—The cost or other basis of an asset acquired after December 31, 1953, may be depreciated under methods proper in the past; or, it may be depreciated under any of the following methods provided (1) that the asset is tangible, (2) that it has an estimated useful life of 3 years or more, and (3) that the original use of the asset commenced with the taxpayer and commenced after December 31, 1953. If an asset is constructed, reconstructed, or erected by the taxpayer, so much of the basis of the asset as is attributable to construction, reconstruction or erection after December 31, 1953, may be depreciated under methods proper in the past; or, it may be depreciated under any of the following methods provided the asset meets qualifications (1) and (2) above.

  (1) Declining Balance Method.—This method may be used with a rate not
- (1) Declining Balance Method.—This method may be used with a rate no excess of twice the applicable straight line rate.
- in excess of twice the applicable straight line rate.

  (2) Sum of the Years-Digits Method.—Under this method annual allowances for depreciation are computed by applying changing fractions to the taxpayer's cost or other basis of property (reduced by estimated salvage value). A deduction for each year is computed by multiplying the cost or other basis of the asset (reduced by estimated salvage value) by the number of years of useful life remaining (including the year for which the deduction is computed) and dividing the product by the sum of all the digits corresponding to the years of the estimated useful life of the asset. In the case of a five-year life this sum would be 15 (5 plus 4 plus 3 plus 2 plus 1). For the first year 5-15th of the cost reduced by estimated salvage value would be allowable, for the second year 4-15th, etc.
- (3) Other Methods.—A taxpayer may use any consistent method which does not result in accumulated allowances at the end of any year greater than the total of the accumulated allowances which would have resulted from the use of the declining balance method. This limitation applies only during the first two-thirds of the useful life of the property.

  (d) Section 179—Additional first-year depreciation allowance.—Corporations
- (d) Section 179—Additional first-year depreciation allowance.—Corporations may elect to write off in the year of acquisition 20 percent of the cost of tangible personal property having an aggregate value of not more than \$10,000. This additional depreciation is limited to property acquired after December 31, 1957, with a remaining useful life of 6 years or more and which is not acquired from an affiliated corporation (as defined in section 1504, except that "more than 50 percent" stock ownership is substituted for "at least 80 percent" wherever it appears in section 1504 (a)). All members of an affiliated group will be treated as one taxpayer, and the \$10,000 limitation will be apportioned among the members in the manner prescribed by regulations. Further, for this among the members in the manner prescribed by regulations. Further, for this allowance to apply in any case, the basis of the property must not be determined in whole or in part by reference to the transferor's basis. Depreciation on the remaining cost of the property may be taken under any of the methods indicated above.
- methods indicated above.

  If a deduction is claimed on account of depreciation, a schedule should be filed with the return showing: (1) description of the property; (2) date of acquisition of the property; (3) the cost or other basis of the asset; (4) the amount of depreciation allowed and allowable in prior years; (5) the method under which the depreciation allowance is being claimed; (6) rate of depreciation, and expected useful life; and (7) depreciation allowance this year. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Cost or value of land is not subject to depreciation, and when land and building were purchased for a lump sum the cost of the buildings subject to depreciation must be established.

  The adjusted property accounts and the accumulated depreciation shown to
- The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer. For limitation on deduction, see Instruction 17 (b) below.
- 13. Depletion of Mines, Oil and Gas Wells, Timber, Etc.—If a deduction claimed on account of depletion, procure from the District Director: Form M

- (mines and other natural deposits), Form O (oil and gas), or Form T (timber), fill in and file with return.
- 14. Trade or Business Deductions.—Enter the total of deductions attributable to any trade or business, the income from which is included in the mutual insurance company's gross investment income by reason of section 803 (b) (2). Do not include (a) losses from sales or exchanges of capital assets, (b) sales or exchanges of property used in the trade or business, and (c) losses from the compulsory or involuntary conversion of property used in the trade or business. The deductions to be entered on line 14 will be disallowed to the extent attributable to the carrying on of the insurance business.
- 15. Interest.—Enter the amount of interest paid or accrued during the taxable year on the company's indebtedness, except on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation.
- 16. Other Capital Losses.—Enter on line 16 losses from capital assets sold or exchanged to provide funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders. Capital to the payment of dividence and similar distributions to policy inciders. Capital assets shall be considered as sold or exchanged to provide for such funds or payments to the extent that the gross receipts from their sale or exchange are not greater than the excess, if any, for the taxable year of the sum of dividends and similar distributions paid to policyholders and losses and expenses paid, over the sum of lines 1 to 5, page 1, and net premiums received. (See Schedule B.)
- 17. Total Deductions.—(a) Enter the total of lines 8 to 16, inclusive
- (b) Limitation on deductions relating to real estate owned and occu-ied.—The deductions included on lines 10 to 12 on account of real estate owned and occupied in whole or in part by the company shall be limited to an amount which bears the same ratio to such deductions (computed without regard to section 822 (d) (1)) as the rental value of the space not so occupied bears to the rental value of the entire property. (Submit detailed schedule.)
- (c) Items Not deductible.—No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than wholly tax-exempt interest income. However, for interest on indebtedness incurred or continued to purchase or carry tax-exempt securities, see instruction 15. Items directly attributable to wholly exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable both to taxable income. and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. A taxpayer receiving any exempt income, other than interest, or holding any property payer receiving any exempt income, other than interest, or notating any property or engaging in any activity the income from which is exempt, shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of expense items allocated to each such class (the amount allocated by apportionment being shown separately).
- 19. Interest Partially Exempt From Tax.--Enter the amount of interest included in gross income which is partially exempt from toxation and for which a special deduction is allowed under the provisions of section 242.

  21. Dividends Received Deductions.—The deductions provided on line 21
- are as follows: (a) 85 percent of the amount received as dividends (except dividends on certain preferred stock of public utilities) from a domestic corporation subject to income tax. Amounts received as dividends from mutual savings banks, cooperative banks, and domestic building and loan associations and allowed as a deduction to such banks or building and loan associations shall not be treated as dividends. In the case of dividends received from a regulated interest the development of the amount received as dividends on amount deductible (b) 62.115 percent of the amount received as dividends on the preferred stock of a public utility which is subject to income tax and is allowed a deduction as provided in section 247, for dividends paid; and (c) 85 percent of dividends received from certain foreign corporations. See section 245 for qualifications and limitations on the amount of this deduction.
- Dividends received from a corporation described in section 246 (a) (China Trade Act Corporation, etc.) should be entered on line 2 (d).
- Page 1-26. Credit for Income Taxes Paid to a Foreign Country or United States Possession.—If, in accordance with section 901, a credit is claimed by a domestic corporation on line 26, on account of income, war-profits, and excess-profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return, together with the receipt States, Form 1118 should be submitted with the return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued but not paid, the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the District Director may require a bond on Form 1119 as a condition precedent to the allowance of a credit for such accrued taxes. A foreign company is not entitled to claim this credit.
- If the corporation is entitled to a credit for taxes paid by a regulated investment company on undistributed capital gains, include the credit on line 29 B, page 1, and indicate by amount that such a credit is being claimed. Attach Copy B of Form 2439 to page 1 of this form.
- Page 2-14. Net Premiums.—Enter the amount of gross premiums (including deposits and assessments) written or received on insurance contracts during the taxable year, less return premiums and premiums paid or incurred for reinsurance. Amounts returned where the amount is not fixed in the insurance contract but depends upon the experience of the company or the discretion of the management are not to be included in return premiums but are to be treated as dividends to policyholders and included on line 16. (See section 823 (1).)
- Page 2—16. Dividends to Policyholders.—Enter dividends and similar distributions paid or declared (depending upon the method of accounting regularly employed) to policyholders. (See section 823 (2).)

# Instructions for the 1958 Form 1120-S U.S. Small Business Corporation Return of Income

(References are to the Internal Revenue Code)

A. Corporations required to file Form 1120-S.—Every small business corporation (as defined in section 1371 (a)) which has filed a proper and timely election under section 1372 (a) not to be subject to the income tax imposed by chapter 1 must file Form 1120-S. See

B. Consents of shareholders.—Consents of all shareholders are required to be attached to the election form notifying the District Director of the election. However, where the election was made before the first day of the taxable year, the consents of persons who became share-holders after the date of election and on or before such first day must be filed with the District Director with whom the election was filed as soon as practicable after such first day and in no event later than the last day prescribed for making the election. Copies of such latter consents must be attached to the Form 1120-S at the time the return

New shareholders (any person who was not a shareholder on the first day of the first taxable year for which the election is effective, or on the day on which the election is made, whichever is later) must consent to the election and such statement of consent must be filed with the District Director with whom the election was filed within a period of 30 days after they become shareholders or the election is automatically terminated. Copies of such consents must also be attached to the return.

C. Termination.—The election by the corporation is automatically terminated (1) by the failure of a new shareholder to consent to such election as explained in B above; (2) where it ceases to be a small business corporation as defined in section 1371 (a); (3) where it derives more than 80 percent of its gross receipts from sources outside the U. S.; or (4) where it has gross receipts of which more than 20 percent is derived from royalties, rents, dividends, interest, annuities, and sales or exchanges of stock or securities (gross receipts from sales or exchanges being taken into account for this purpose only to the extent of gains therefrom). Such termination is effective for the taxable year in which anyone of the foregoing occurs and for all suc-

taxable year in which anyone of the foregoing occurs and for all succeeding taxable years of the corporation.

The election may be revoked for any taxable year after the first taxable year for which the election is effective. An election to revoke may be made only if all persons who are shareholders on the day on which the revocation is made consent to the revocation. The revocation is effective (1) for the taxable year in which made, if made before the close of the first month of the taxable year, or (2) for the taxable year following the taxable year in which made, if made after the close of the first month; and for all succeeding taxable years. the close of the first month; and for all succeeding taxable years.

The revocation is to be made in the manner prescribed by regulations.

Where the small business corporation has elected under section 1372 (a) and the election has been terminated or revoked, the corporation is not eligible to again elect under 1372 (a) for five years unless the Secretary or his delegate consents to such an election

- D. Period to be covered by return.—The return shall be filed for the calendar year 1958 or other taxable year beginning in 1958.
- E. Time and place for filing.—The return must be filed on or before the 15th day of the third month following the close of the taxable year with the District Director of Internal Revenue for the district in which the corporation's principal place of business or principal office or agency is located. (Section 6072.)
- F. Signature and verification.—The return must be signed either by the president, vice president, treasurer, assistant treasurer or chief accounting officer, or by any other corporate officer (such as tax officer) who is authorized to sign. A receiver, trustee, or assignee must sign any return which he is required to file on behalf of a corporation. The statement at the bottom of page 1 of the return is required to be signed by any person, firm, or corporation who prepared the taxpayer's return. If the return is prepared by a firm or corporation, it should be signed in the name of the firm or corporation. The statement is not required if the return is prepared by a regular fulltime employee of the taxpayer.
- G. Penalties.—Severe penalties are provided by law for willful failure to make and file a return on time and for willful attempt to evade or defeat payment of tax.
- H. Accounting methods.—Taxable income shall be computed in accordance with the method of accounting regularly used by the tax-payer in maintaining its books and records. In all cases the method adopted should clearly reflect taxable income. The basic methods of accounting are the "cash receipts and disbursements method" and

the "accrual method." Section 446 permits the use of these methods or any other method permitted under the Code or any combination of these methods in accordance with regulations. If a taxpayer engages in more than one trade or business, it may, with respect to each trade or business, use a different method of accounting. Each method must, however, clearly reflect the income of the particular trade or business with which it is used, and separate profit and loss statements for each trade or business must be submitted. Except in those cases where the law specifically permits it, a taxpayer may not change the method of accounting upon the basis of which it has reported its income in prior years (for its income as a whole or with respect to any separate trade or business) without first securing consent. For procedure to be followed in securing consent, see your

Rounding off to whole-dollar amounts.—If you wish, the money items on your return or accompanying schedules required by such return may be shown as whole-dollar amounts. This means that you eliminate any amount less than 50 cents, and increase any amount from 50 cents through 99 cents to the next highest dollar.

- I. (1) Information at the source.—Every corporation making payments in the course of its trade or business of (1) interest, rents, commissions, or other fixed or determinable income of \$600 or more during the calendar year 1958 to an individual, a partnership, or a fiduciary or (2) salaries or wages of \$600 or more shall make returns on Forms 1096 and 1099, except that the making of such returns will not be required with respect to salary or wage payments included on Form W-2, provided copies of withholding statements on Form W-2 are furnished. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099.
- I. (2) Information regarding dissolution or liquidation.—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966 setting forth the terms of such resolution or plan.

Every corporation making distributions in liquidation of the whole or any part of its capital stock shall also make returns on Forms 1096 and 1099L, as required by instructions on Form 1096, for the calendar year 1958.

- I. (3) Information regarding renegotiable contracts.—Every corporation which held, during the taxable year, contracts or subcontracts which were subject to the Renegotiation Act of 1951 shall, in answer to question E, page 3, state the actual or, if not accurately determinable, its best estimate of the aggregate gross dollar amount billed during the current taxable year under all contracts and/or
- J. Stock ownership in foreign corporations.—A corporation owning any stock of a foreign corporations.—A corporation owning any stock of a foreign corporation must attach a statement showing the name and address of each company and the total number of shares of each class of outstanding stock owned during the taxable year. If the corporation owned 5 percent or more in value of the outstanding stock of a foreign personal holding company, attach a statement setting forth in complete detail the information required by section 551 (d).
- K. Balance sheets.—The balance sheets, Schedule L, should agree K. Balance sheets.—The balance sheets, Schedule L, should agree with the books of account or any differences should be reconciled. All corporations reporting to the Interstate Commerce Commission or to any national, State, municipal, or other public offices, may submit, in lieu of Schedule L, copies of their balance sheets prescribed by such authorities as at the beginning and end of the taxable year. Line 11, Schedule L, should show land less any accumulated amortization of the land as an emergency facility under the authority of sections 124 and 124A of the Internal Revenue Code of 1939 or section 168 of the Internal Revenue Code of 1954.

- L. Net operating loss and other deductions.—The deduction for net operating losses provided by section 172 and the Special Deductions provided in Part VIII (except section 248) of subchapter B, shall not be allowed to an electing small business corporation. (Section 1373 (d).)
- M. Attachments may be used in the preparation of your return and supplemental schedules, provided they contain all of the required information and that summarized totals of the items shown in the attachments are entered on the return and schedules.

#### SPECIFIC INSTRUCTIONS

(Numbered to correspond with line numbers on page 1 of return)

1. Gross receipts.—Include all income derived from your trade or business. Enter in the space provided such items as returned sales, rebates, allowances from the sale price or service charge.

2. Cost of goods sold.—If the production, manufacture, purchase, or sale of merchandise is an income-determining factor in the trade or business, inventories of merchandise on hand should be taken at the beginning and end of the taxable year, and may be valued at cost, or at cost or market, whichever is lower, or by any other permissible method.

An inventory method once properly adopted is controlling until permission to change is obtained from the Commissioner. Applicapermission to change is obtained from the Commissioner. Application for permission to change an inventory method shall be made in writing and filed with the Commissioner within 90 days after the beginning of the taxable year in which it is desired to Grant and the Commissioner within 90 days after the beginning of the taxable year in which it is desired to Grant and the Commissioner. beginning of the taxable year in which it is desired to effect a change. In case the inventories reported do not agree with the balance sheet, attach a statement explaining the difference.

A corporation electing to use the last-in, first-out method of val-uing inventory provided for in section 472 must file Form 970 with the return for the first year of the election. Thereafter, attach sepa-rate schedule showing: (1) a summary of all inventories; (2) with respect to any inventories computed under section 472, the computation of the quantities and cost by acquisition levels.

5. Interest.—Enter the total interest from Schedule C. visions relating to amortizable bond premium, see section 171.

Non-interest-bearing obligations issued at a discount.—Taxpayers on the cash basis may elect, as to all non-interest-bearing obligations issued at a discount and redeemable for fixed amounts increasing at stated intervals (for example, United States Savings Bonds), to include the increase in redemption price applicable to the current year. For the year of election the total increase in redemption price of such obligations occurring between the date of acquisition and the end of the year must be included. Attach statement listing obligations owned and computation of the increase. (Section 454.)

- 6. Rents.—Enter the gross amount received for the rent of property. Any expenses, including repairs, interest, taxes, and depreciation should be included in the proper lines for deductions. In the case of a lease entered into prior to January 1, 1954, if both lessor and lessee are corporations and if under the lease the lessee is obligated to pay any part of the lessor's income tax on the rental payment, this tax is excluded from lessor's gross income and may not be deducted by lessee. (Section 110.)
- 7. Royalties.—Enter the gross amount received as royalties. If a deduction is claimed for depletion, it must be reported on line 31.
- 8. Gains and losses from sales or exchanges of capital assets and other property.—The computation of gains and losses from sales or exchanges of capital assets and property other than capital assets should be made on separate Schedule D. Every sale or exchange of property, even though no gain or loss is indicated, must be reported in detail.
- 9. Other income.—Enter total amount of other income not reported elsewhere in the return and attach schedule showing details, if spaces provided are not sufficient.
- 13. Rents.—Enter rent paid or accrued for business property in which the corporation has no equity. With respect to leases entered into prior to January 1, 1954, see instruction No. 6.
- 14. Repairs.—Enter the cost of incidental repairs, including labor, supplies, and other items, which do not add to the value or appreciably prolong the life of the property. Expenditures for new buildings, machinery, equipment, or for permanent improvements or betterments which increase the value of the property are chargeable to
- 15. Bad debts.—Bad debts may be treated in either of two ways (1) by a deduction from income in respect of debts which become worthless in whole or in part, or (2) by a deduction from income of a reasonable addition to a reserve for bad debts. (Section 166.) No change of method is allowed without permission of the Commissioner.
- 16. Interest.—Enter interest paid or accrued on business indebtedess. Do not include in line 16 interest on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest on which is wholly exempt

from income tax. (Section 265.).

See section 267 for limitation on deductions for unpaid expenses and interest in the case of transactions between related taxpayers.

- 17. Taxes.—Enter taxes paid or accrued during the taxable year. Do not include Federal income, war-profits, and excess-profits taxes; estate, inheritance, legacy, succession, and gift taxes; Federal taxes paid on bonds containing a tax-free covenant, nor taxes not imposed upon the taxpayer. See section 164 (d) regarding apportionment of taxes on real property between seller and purchaser.
  - 18. Contributions or gifts paid.—Enter contributions or gifts actu-

ally paid within the taxable year to or for the use of organizations and governmental bodies as set forth in 170 (c).

In the case of a corporation on the accrual basis, any contribution or gift will, at the election of the taxpayer, made at the time the return is filed, be considered as paid during the taxable year if payment is actually made on or before the fifteenth day of the third month following the close of the taxable year, and if the contribution or gift has during the taxable year been authorized by the board of directors of the corporation. A copy of such authorization must be attached to the return.

Any contributions paid during the taxable year in excess of the amount deductible may be carried over and deducted in the two succeeding taxable years subject to the 5-percent limitation provided in section 170 (b) (2).

- 19. Losses by fire, storm, shipwreck, or other casualty, or theft.— Enter losses sustained during the year, arising from fire, storm, shipwreck, or other casualty. For determination of the amount deductible, see section 165 (b) and the regulations thereunder. are deductible only in the year in which discovered. Theft losses
- 20. Amortization.-If a deduction is claimed on account of amortization, attach a detailed statement. The law makes special provisions for amortization of the following kinds of assets and expenditures:
  - Emergency facilities—Section 168; Grain storage facilities—Section 169;

  - Research and experimental expenditures—Section 174; Exploration expenditures—Section 615; Development expenditures—Section 616
- (f) Organizational expenses—Section 248; and
  (g) Trademark and tradename expenditures—Section 177.
  For details concerning the information which must be furnished in the

statements of election required by these sections, consult your District

21. Depreciation.-If a deduction is claimed on account of depreciation, fill in Schedule I. A reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in the trade or business or of property held by the taxpayer for the production of income shall be allowed as a depreciation deduction. (Section 167.) The allowance does not apply to inventories or stock-in-trade nor to land apart from the improvements or physical developments added to it. Depreciation on leasehold improvements, patents, and copyrights shall be included in Schedule I.

The useful life of an asset can be measured in units of production, etc., but the ordinary practice is to measure useful life in years. Business experience, engineering information, and other relevant factors provide a reasonable basis for estimating the useful life of property to the taxpayer. The cost (or other basis) to be recovered should be charged off over the expected useful life of the property. For guidance, comprehensive tables of "average useful lives" of variance, in the original property. ous kinds of buildings, machines, and equipment in many industries and businesses have been published in a booklet called Bulletin F, which may be purchased for 30 cents from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

- (a) Special rules for new assets acquired after December 31, -The cost or other basis of an asset acquired after December 1953.—The cost or other basis of an asset acquired after December 31, 1953, may be depreciated under methods proper in the past; or, it may be depreciated under any of the following methods provided (1) that the asset is tangible, (2) that it has an estimated useful life of three years or more, and (3) that the original use of the asset commenced with the taxpayer and commenced after December 31, 1953. If an asset is constructed, reconstructed, or erected by the taxpayer, so much of the basis of the asset as is attributable to construction, reconstruction, or erection after December 31, 1953, may be depreciated under methods proper in the past; or, it may be depreciated under any of the following methods provided that the asset meets qualifications (1) and (2) above.
- 1. Declining balance method, using a rate not in excess of twice the applicable straight line method,
- The sum of the years-digit method, and
- Any other consistent method which does not result in accumulated allowances at the end of any year greater than the total of the accumulated allowances which would have resulted from the use of the declining balance method. This limitation an plies only during the first two-thirds of the useful life of the
- (b) Section 179-Additional first-year depreciation allowance.-Corporations may elect to write off in the year of acquisition 20 percent of the cost of tangible personal property having an aggregate value of not more than \$10,000. This additional first-year depreciation is allowed in full for the first taxable year for which a deduction is allowable under section 167, regardless of the date of acquisition. The cost of property does not include so much of the basis of such property as is determined by reference to the basis of other property

held at any time by the person acquiring such property. This additional depreciation is limited to property acquired after December 31, 1957, with a remaining useful life of 6 years or more. Further, for this allowance to apply in any case, the basis of the property must not be determined in whole or in part by reference to the transferor's basis, Depreciation on the remaining cost of the property may be taken under any of the methods indicated above. The additional first-year depreciation of an asset should be shown on a separate line of the depreciation schedule rather than included on the line used to show the regular depreciation of the asset.

22. Depletion of mines, oil and gas wells, timber, etc.—If a deduction is claimed on account of depletion, procure from the District Director: Form M (mines and other natural deposits), Form O (oil and gas), or Form T (timber), fill in and file with return. If complete valuation data have been filed with questionnaire in previous years, then file with your return information necessary to bring your depletion schedule up to date, setting forth in full statement of all transactions bearing on deductions from or additions to value of physical assets during the taxable year with explanation of how depletion deduction for the taxable year has been determined. (Sections 611, 612, and 613.) Expenditures to be deferred and deducted ratably under the election provided in sections 616 (b), relating to certain expenditures in the development of mines, and 615 (b), relating to deductions for mine exploration, are not to be taken into account in determining the adjusted basis for property for the purpose of computing a deduction for depletion under section 611.

23. Advertising.—Enter on line 23 the total amount paid or incurred during the year for advertising. Expenditures for advertising, to be deductible, must be ordinary and necessary and bear a reasonable relation to the business activities in which the corporation is engaged.

24. (a) Pension, annuity, stock bonus, or profit-sharing plans.—
Enter on line 24 (a) the total amount deductible under section 404. A corporation claiming a deduction under section 404 must submit with its return, in addition to the information specified in the regulations concerning such deduction, a statement with respect to each plan showing the type of plan, i. e., pension, annuity, profit-sharing, stock bonus, or other plan deferring the receipt of compensation, whether or not the plan is qualified under section 401 (a), and if trusteed, whether or not the trust is exempt under section 501 (a), and the method of funding, i. e., individual annuity or insurance contracts, group annuity contract, group permanent contract, or self-insured trust. If not funded, so indicate. Contributions paid by an employer to or under a pension, annuity, stock bonus, or profit-sharing plan, or compensation paid or accrued on account of any employee under a plan deferring the receipt of such compensation, are deductible only under section 404, and are not deductible under section 162.

24. (b) Other employee benefit plans.—Enter on line 24 (b) deductions for contributions to employee benefit plans (other than those claimed on line 24 (a)), such as insurance, health, or welfare plans. Submit with the return a schedule for each plan showing (1) the nature of benefits, i. e., group term life insurance, group permanent life insurance, noninsured death benefit, hospitalization, surgical, medical, sickness, accident, major medical expense, unemployment benefit, or other welfare benefits; (2) method of financing, i. e., insured, industry or areawide fund, self-insured fund, or direct benefit payments; (3) the amount of deduction; (4) the amount of employee contributions; (5) the number of employees covered; and (6) if a self-insured plan, the amount of benefits paid during the taxable year. Also show the number of employees employed by the corporation.

Also show the number of employees employed by the corporation.

25. Other deductions authorized by law.—Enter on line 25 any other authorized deductions for which no space is provided on the return. (See General Instruction L.) Any deduction claimed should be explained in Schedule J.

No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income other than interest. For non-allowance of interest on indebtedness incurred or continued to purchase or carry tax-exempt securities, see instruction 16. Items directly attributable to wholly exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly, attributable both to taxable income and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. A taxpayer receiving any such exempt income, or holding any property or engaging in any activity the income from which is exempt shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of expense items allocated to each such class (the amount allocated by apportionment being shown separately).

Schedule K. Shareholder's Share of Income.—The schedule of Distribution and Income should show complete information with respect to all the persons who were shareholders of the corporation during any portion of the taxable year. Under the tax treatment provided by Subchapter S, shareholders generally are taxable upon their distributive shares of the current taxable income of the corporation, whether or not actually distributed. Since each shareholder is required to include his share in his individual return, he should be furnished the information applicable to him.

Column 1.—Enter the name and address of each shareholder. Where return of shareholder is filed in an internal revenue district other than that which this return is filed, specify district.

Column 2.—Enter the number of shares of stock owned by each shareholder. If the number of shares owned by a shareholder changed during the year, show separately the number of shares held for each period.

Column 3.—Enter the percentage of time devoted to the business by each shareholder.

Column 4.—Enter salary and other payments to each shareholder for services rendered.

Column 5.—Enter for each shareholder the date and amount of each dividend distribution made in money or property, during the taxable year.

Column 6.—Enter for each shareholder who was a shareholder on the last day of the corporation's taxable year, his portion of the corporation's undistributed taxable income. A shareholder's portion of the undistributed taxable income is the amount which he would have received as a dividend if such income had been distributed pro rata to the shareholders on the last day of the corporation's taxable year. A dividend distribution of property other than money may cause line 3 to exceed the total of column 6.

In the case of a net operating loss for the taxable year, enter in this column for each shareholder who was a shareholder at any time during the corporation's taxable year his pro rata share of the loss. For treatment of, determination of, and limitation on a shareholder's pro rata share of such loss, see section 1374 and the regulations thereunder.

Column 7.—Enter for each shareholder his pro rata share of the corporation's excess of net long-term capital gain over net short-term capital loss (line 8b, page 1). Each shareholder is entitled to treat as long-term capital gain a portion of the sum of the dividends he received plus his share of the constructive dividends derived from the undistributed taxable income. A shareholder's portion is determined by applying to such excess the same ratio that the amount of his dividends (actual or constructive) which are out of earnings and profits of the current year bears to the total dividends (actual or constructive) includible by all shareholders from the same source. In making the allocation, the excess of net long-term capital gain over short-term capital loss can not exceed taxable income (line 27, page 1). The amount entered here should be reported on Schedule D of his individual income tax return as a long-term capital gain from an "electing small business corporation".

Golumn 8.—Enter in this column for each shareholder the amount of money or property includible in the income of the shareholder as dividends from the small business corporation which are entitled to the dividends received exclusion provided by section 116 and the credit provided by section 34. Of the amounts includible in the gross income of a shareholder as dividends from an electing small business corporation, only those which are not considered to be out of the earnings and profits of the taxable year are entitled to the dividends received exclusion and credit. For purposes of this rule the earnings and profits of the taxable year are deemed not to exceed the taxable income for the year. The dividends entitled to the exclusion and credit would include, for example, dividends paid out of accumulated earnings and profits and from interest on tax exempt securities. The amounts shown in this column should be entered by the shareholders in Schedule A of their individual income tax returns, Forms 1040.

Column 9.—Enter in this column for each shareholder the sum of the dividends actually distributed (column 5) and the constructive dividends derived from undistributed taxable income (column 6), less the sum of the amount treated as long-term capital gain (column 7) and the amount of dividends entitled to the dividends received exclusion and credit (column 8). The amounts shown in this column should be entered by the shareholders as ordinary income in Schedule H of their individual income tax returns, Forms 1040.

Column 10.—Enter in this column for each shareholder the date and the amount of each distribution of money and property not out of earnings and profits. For taxable years after the first taxable year to which the election applies, include any distribution of accumulated undistributed taxable income. See section 1375 (d).

#### GENERAL INFORMATION

- 1. A net operating loss for any taxable year shall be allowed as a deduction from gross income of the shareholders in the manner and to the extent set forth in section 1374.
  - 2. For treatment of family groups, see section 1375 (c).
- 3. For the adjustment to basis of stock of, and indebtedness owing to, shareholders, see section 1376.
- 4. For special rules applying to earnings and profits, see section 1377.

#### PRINCIPAL BUSINESS ACTIVITY

#### In reporting the "Principal business activity," on page 3 give the one business activity that accounts for the largest percentage of "total receipts." "Total receipts" means gross receipts (line 1, page 1, plus all other income lines 3 through 9, page 1). State the broad field of business activity as well as the specific product or service, such as "Mining copper," "Manufacturing cotton broad woven fabric," "Wholesale food," or "Retail apparel." Where receipts are derived from two or more of the detailed industry groups listed below, show only one which is the major source of receipts. Use the appropriate group under the heading "FINANCE" if over 50 percent of "total receipts" consists of investment income. Enter the "business group code number" on page 3, under C of the Additional Information Required, from the following list. Give the code for the specific industry group from which the largest percentage of "total receipts" is derived. AGRICULTURE, FORESTRY, AND 357 Service industry machines, automatic merchandising, commercial cooking and soda fountain equipment. 358 Other machinery, parts, machine shops. 350 Service industry machines, automatic 494 Lumber and construction materials. 495 Machinery, equipment, and supplies. 496 Motor vehicles and equipment. 497 Farm products—raw materials. 498 Other wholesalers. 265 Paperboard containers and boxes, paper cups, sanitary food containers. 269 Converted paper and paperboard products, paper bags. FISHERY Code 011 Agriculture, forestry, and fishery. 388 Other machinery, parts, machine sbops. Electrical machinery and equipment: 361 Electrical transmission and distribution equipment, except wiring devices, carbon and graphite products. 362 Electrical industrial apparatus, motors and generators, controls, welding, carbon and graphite products. 363 Household appliances, electrical, nonelectrical. 364 Electric lighting and wiring equipment, except insulated wire. 365 Radio and television receiving sets, except communication types; phonographs, records, and parts. 366 Communication equipment, transmitting, signaling apparatus. 367 Electronic components, and accessories, electron tubes, except X-ray, sequipment, supplies, batteries, X-ray, equipment for internal combustion engines. Printing, publishing, and allied industries: 271 Newspapers. MINING AND QUARRYING Newspapers. Periodicals, including comic books. Metal mining: 271 Priodicals, including comic books. 272 Periodicals, including comic books. 273 Books. 275 Commercial printing, manifold busi 521 Food 101 Iron ores. 102 Copper, lead, zinc, gold, silver ores. 109 Other metal mining. General merchandise: 531 Department stores, 532 Mail order houses; general, special, 533 Limited price variety stores, 539 Other general merchandise. ness forms, greeting cards. 278 Other publishing, bookbinding, and service industries for the printing trade. 121 Bituminous coal and lignite mining Crude petroleum and natural gas: 131 Crude petroleum, natural gas, and natural gas liquids. 138 Oil- and gas-field services. service industries to the planting trade. Chemicals and allied products: 280 Industrial inorganic and organic chemicals, including gases, pigments. 281 Plastics materials and synthetic resins, rubber, and man-made fibers, except glass. 282 Drugs and medicines, vitamins. 283 Soap, detergents, and cleaning preparations, surface active agents, sulfonated oils and assistants. 284 Paints, varnishes, lacquers, enamels, putty, except color pigments. 285 Perfumes, cosmetics, and other toilet preparations. 286 Agricultural chemicals. 288 Other chemicals, including gum and wood, fatty acids, and explosives. Petroleum refining and related industries: Nonmetallic mineral and anthracite mining: Automotive dealers and service stations: 561 Automobiles and trucks. 563 Tires, batteries, accessories; aircraft and other automotive dealers. 564 Service stations. 141 Stone, sand, gravel. 149 Other nonmetallic minerals, except fuels, including anthracite. CONSTRUCTION 151 General contractors: buildings. 152 General contractors: other. 155 Special trade contractors. MANUFACTURING Other retail trade: 601 Drug stores. 602 Liquor stores. 607 Jewelry stores. 608 Other retail stores. engines. Transportation equipment, except electrical and motor vehicle equipment: 371 Aircraft, complete. 372 Aircraft parts, rocket motors. 373 Ship and boat building, repairing. 374 Railroad equipment, streetcars. 379 Other transportation equipment, motorcycles, bleycles, trailer coaches. Beverages: 191 Soft drinks, carbonated waters, and flavoring extracts and sirups. 192 Malt liquors and malt. 194 Wines, brandy, and brandy spirits. 195 Distilled, rectified, blended liquors. Petroleum refining and related industries: 291 Petroleum refining. 299 Other petroleum and coal products, except coke and byproducts.

195 Distilled, rectified, blended liquors.
Food and kindred products:
200 Meat products.
201 Dairy products, including combined processing and distribution of milk.
202 Canning, preserving, and freezing fruits, vegetables, and seafoods.
203 Grain-mill products, cereal preparations, wet corn milling, starch.
204 Bakery products, including production for retail, except on premises.
205 Sugar, cane and beet.
206 Confectionery, related products.
207 Vegetable and animal olls and fats, except fatty acids.
208 Other food preparations and kindred products, including manufactured ice and sweetening sirups.
211 Tobacco manufacturers.

211 Tobacco manufacturers.

Taxtile mill products:

220 Yarn and thread mills, including carpet and rug yarn.

221 Broad woven fabric mills, cotton.

222 Broad woven fabric mills, man-made fiber and silk.

223 Broad woven fabric mills, wool: including dysting and finishing.

222 Broad woven fabric mills, man-made fiber and silk.

223 Broad woven fabric mills, wool: including dyeing and finishing.

224 Narrow fabrics and other small-wares mills: cotton, wool, silk, and man-made fiber.

225 Knitting mills and converters.

226 Dyeing and finishing textiles, except wool fabrics and knit goods.

227 Floor covering mills, except hard surface floor coverings.

228 Other textile goods, including wool scouring and combing, tow to top mills, tire cord and fabrics.

mills, tire cord and fabrics.

Apparel, finished products made from fabrics, similar materials; converters:

231 Men's and boys' clothing, except fur, rubber, and leather.

233 Women's clothing, and children's and infants' wear, except fur, rubber, and leather.

237 Other apparel and accessories, hats, caps, millinery, fur goods, raincoats, belts, leather garments.

238 Other fabricated textile products, including housefurnishings, textile bags, canvas products, stitching, and apparel findings.

apparel findings.

Lumber and wood products, except furniture:

241 Logging camps, logging contractors, sawmills, and planing mills.

243 Millwork, veneer, plywood, prefabricated structural wood products.

249 Other wood products, wooden containers, cork, wood preserving.

Furniture and fixtures, wood or metal:
251 Household furniture.
259 Other furniture, office and store fixtures, venetian blinds, shades, except scientific and medical furniture.

Paper and allied products: 261 Pulp mills. 262 Paper, paper board, and building paper and building board mills.

except core and byproducts.

Rubber and plastics products:

301 Tires and inner tubes, camelback.

306 Other rubber products, fabrics.

307 Plastics products, except plastics materials. Leather and leather products: converters:

314 Footwear, except rubber.
319 Other leather goods, patent leather gloves; leather tanning, finishing.

gloves; leather tanning, finishing.

Sone, day, and glass products.

321 Glass and glass products.

325 Structural clay products.

326 Pottery and related products.

327 Concrete, gypsum, and plaster products, lime, and ready-mixed concrete.

329 Other nonmetallic mineral products, abrastve, asbestos, mineral wool; cut stone and stone products.

stone and stone products.

Primary metal industries:
331 Blast furnaces, steel works, rolling and finishing mills, coke ovens; steel wire, nails, spikes, pipe, cold rolled sheet, bars.

bars.
332 Iron and steel foundries.
333 Primary and secondary smelting, refining, rolling, drawing, alloying of nonferrous metals, alloys, wire.
336 Nonferrous foundries.
338 Other primary metal industries, forgings, nonferrous nails, spikes.

ings, nonferrous nails, spikes.
Fabricated metal products, except machinery, and transpertation equipment:
340 Metal cans.
341 Cutlery, hand tools, general hardware, except all-metal cutlery.
342 Heating apparatus, except electric and plumbing fixtures.
343 Fabricated structural metal products, boiler shops, heat exchangers, metal doors, windows, screens.
344 Screw machine products, bolts, nuts.
345 Metal stampings.
346 Metal coating, engraving, services.
347 Ordnance and accessories.
348 Other fabricated metal products; pipe, fittings, except plumbers' brass goods; valves; wire products except insulated wire and nails.

Machinery, except electrical and transportation

Machinery, except electrical and transportation

Machinery, except electrical and transportation equipment:
350 Engines and turbines, turbine generator set units.
351 Farm machinery and equipment.
352 Construction, mining, materials handling machinery and equipment, elevators, escalators, monorall systems.
353 Metalworking machinery and equipment, including dies and metal molds.
354 Special industry machinery.
355 General industry machinery and equipment, ball bearings, industrial patterns, dielectric heating units.
356 Office, computing, and accounting machines, except photocopy equipment.

motorcycles, bicycles, trailer coaches.

Motor vehicles and motor vehicle equipment,
except electrical equipment:
381 Motor vehicles, including bodies and
truck trailers.
384 Motor vehicle parts, accessories, except tires, glass, trailer coaches.

Professional, scientific, and controlling instru-ments; photographic and optical goods; watches, clocks:

clocks: 391 Engineering, scientific, measuring, and controlling instruments. 39 Optical and medical instruments. 396 Photographic equipment and sup-

plies. 397 Watches, clocks, devices, and parts.

Other manufacturing industries: 401 Jewelry (precious metal), plated and silverware, all-metal cutlery. 402 Costume jewelry, except precious

Metai.
404 Toys, amusement, athletic goods.
408 Other manufacturing, linoleum,
except cork, soda fountain equipment,
industrial patterns, metal molds.

TRANSPORTATION. COMMUNICATION AND OTHER PUBLIC UTILITIES

Transportation:
411 Railroads, railway express.
412 Local and suburban passenger transportation. 413 Trucking and warehousing.

33 Trucking and warehousing.
44 Other motor vehicle transportation, including taxicabs and intercity and school busses.
55 Petroleum pipeline transportation.
66 Water transportation.
17 Air transportation.
18 Services, supplementary to transportation.

Communication:
421 Telephone (wire or radio).
422 Telegraph (wire and radio).
423 Radio and television broadcasting.
429 Other communication.

Electric and gas utilities:
431 Electric companies and systems.
432 Gas production and distribution,
except natural gas production.

441 Water supply and other public utilities.

WHOLESALE TRADE

Food and related products:
477 Meat and products, except canned and frozen, or poultry and fish.
479 Other food and related products.

479 Other food and related products.
Electrical goods, hardware, plumbing:
486 Electrical goods.
487 Hardware, plumbing and heating equipment and supplies.
Other wholesalers:
491 Alcoholic beverages.
492 Dry goods and apparel.
493 Drugs, chemicals, paints.

RETAIL TRADE

541 Apparel and accessories.
551 Furniture, home furnishings, appliance, radio, music stores.

581 Eating and drinking places.

Building materials, hardware, farm: 591 Lumber and building materials. 595 Hardware and farm equipment.

FINANCE, INSURANCE, AND REAL ESTATE

Banks and trust companies: 621 Banks and trust companies, except mutual savings banks. 622 Mutual savings banks.

622 Mutual savings calms. Credit agencies other than banks: 632 Savings and loan associations. 634 Personal credit agencies. 635 Business credit agencies. 638 Other credit institutions.

Holding and other investment companies:
 10 perating-holding companies (companies which derived less than 90 percent but more than 50 percent of "total receipts" from investments).
 Regulated investment companies.
 1988 Ac 1988 investment companies,

1958 Act.
649 Other investment and holding companies (other companies which derived 90 percent or more of total receipts from investments).

651 Security and commodity brokers, dealers, exchanges, and services.

Insurance carriers:
661 Life insurance.
662 Mutual, except life or marine, and except mutual fire insurance companies issuing perpetual policies.
669 Other insurance carriers.

671 Insurance agents, brokers, and service.

671 Insurance agents, brokers, and service.
Real estate:
681 Real estate owners and operators, including lessors of buildings (excludes developers of real property and lessors of real property other than buildings).
683 Developers of real property, including traders on own account.
684 Agents, brokers, managers, etc.
685 Title abstract companies.

Lessors of real property, except buildings: 692 Mining, oil, and similar properties. 693 Railroad property. 699 Other real property except buildings.

SERVICES

Personal services:
721 Laundries, cleaning and dyeing.
723 Photographic studios including commercial photography.
729 Other personal services.

Business services: 731 Advertising. 739 Other business services.

Automobile and other repair services:
751 Automobile repair services and garages.
759 Other repair services.

Motion pictures:
781 Motion picture production, distribution, and service industries.
783 Motion picture theaters.

791 Amusement and recreation services except motion pictures.
801 Other service organizations, schools.

#### **INSTRUCTIONS**

#### (References are to the Internal Revenue Code)

GAINS AND LOSSES FROM SALES OR EXCHANGES OF CAPITAL ASSETS AND OTHER PROPERTY.—Report sales or exchanges of capital assets and sales or exchanges of property other than capital assets in Schedule D. Every sale or exchange of property, even though no gain or loss may be indicated, must be reported in detail.

Losses from sales or exchanges of capital assets shall be allowed only to the extent of gains from such sales or exchanges. However, the amount of a net capital loss sustained in any taxable year may be carried over to each of the five succeeding taxable years and treated in each such succeeding taxable year as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable year intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried.

Definition of capital assets.—The term "capital assets" means property held by the taxpayer (whether or not connected with its trade or business), but does not include (1) stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business; or (2) property used in the trade or business, of a character which is subject to the allowance for depreciation provided in section 167, or real property used in the trade or business of the taxpayer; or (3) certain copyrights, literary, musical, or artistic compositions, or similar properties; or (4) accounts or notes receivable acquired in the ordinary course of trade or business for services rendered or from the sale of property described in (1) above; or (5) an obligation of the United States or any of its possessions, or of a State or Territory, or any political subdivision thereof, or of the District of Columbia, issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding 1 year from the date of issue.

Classification of capital gains and losses.—The phrase "short-term" applies to the category of gains and losses arising from the sale or exchange of capital assets held for 6 months or less, and the phrase "long-term" to the category of gains and losses arising from the sale or exchange of capital assets held for more than 6 months.

Enter full description of each item of property sold or exchanged, even though no gain or loss may be indicated. Such description should include the following lacts: (a) For real estate, location and description of land, description of improvements, details explaining depreciation; (b) for bonds or other evidences of indebtedness, name of issuing corporation, description of the particular issue, denomination, and amount; (c) for stocks, name of issuing corporation, class of stock, number of shares, and capital changes affecting basis (nontaxable stock dividends, other nontaxable distributions, stock rights, etc.).

distributions, stock rights, etc.).

The "basis" for the property is not subject to the same rule for reporting gains as for losses, if the property was acquired before March 1, 1913. If the property sold or exchanged was acquired prior to March 1, 1913, the basis for determining GAIN is the cost or the fair market value as of March 1, 1913, adjusted as provided in section 1016, whichever is greater, but in determining LOSS the basis is cost so adjusted. If property was acquired after February 28, 1913, basis for both gain and loss is the cost of such property, except as otherwise provided. The exceptions arise chiefly where property was acquired by bequest, gift, tax-free exchange, involuntary conversion, or wash sale of stock; see sections 1014, 1015, 1031, 1033, and 1091, respectively. If the amount shown as the basis is other than actual cash cost of the property sold or exchanged, full details must be furnished regarding the acquisition of the property.

If emergency facilities are sold or exchanged, see section 1238.

Losses on securities becoming worthless.—If any securities (as defined below) become worthless within the taxable year and are capital assets, the loss resulting therefrom shall, in the case of a taxpayer other than a bank, as defined in section 581, be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. Section 165 (g) (1).

**Definition of security.**—For the purpose of determining capital losses under section 165, the term "security" means a share of stock in a corporation; a right to subscribe for, or to receive, a share of stock in a corporation; or a bond, debenture, note, or certificate, or other evidence of

indebtedness, issued by a corporation or by a government or political subdivision thereof, with interest coupons or in registered form.

Losses not allowable.—No loss shall be recognized in any sale or other disposition of shares of stock or securities where there has been acquired substantially identical stock or 'securities, or there has been entered into a contract or option to acquire substantially identical stock or securities, within 30 days before or after the date of such sale or disposition, except in cases of dealers in stocks and securities which have sustained the loss in a transaction made in the ordinary course of business. Section 1091.

Except in the case of distributions in liquidation, no deduction shall be allowed in respect of losses from sales or exchanges of property, directly or indirectly, between an individual and a corporation in which such individual owns, directly or indirectly, more than 50 percent in value of the outstanding stock; or (except in the case of distributions in liquidation) between two corporations more than 50 percent in value of the outstanding stock of each of which is owned, directly or indirectly, by or for the same individual, if either one of such corporations, with respect to the taxable year of the corporation preceding the date of the sale or exchange was, under the law applicable to such taxable year, (1) a personal holding company, as defined in section 542, or (2) a foreign personal holding company, as defined in section 552. (For the purpose of determining the ownership of stock, in applying this paragraph, see section 267.)

Gain on sales by a "controlled" corporation.—In the case of a sale or exchange, directly or indirectly, of property between an individual and a corporation more than 80 percent in value of the outstanding stock of which is owned by such individual, his spouse, and his minor children and minor grandchildren, any gain recognized to the transferor from such sale or exchange shall be treated as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231, if such property in the hands of the transferee is depreciable under section 167. Section 1239.

Gains and losses from involuntary conversion and from the sale or exchange of certain property used in the trade or business.—The term "property used in the trade or business," as used in section 1231, means property which has been held more than 6 months, which is used in the trade or business, and which is either real property or property subject to depreciation under section 167, and which is not (a) property of a kind which would properly be includible in the inventory of the tax-payer if on hand at the close of the taxable year, (b) property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business, or (c) certain copyrights or similar properties. Such term also includes timber and coal with respect to which section 631 applies as well as unharvested crops to which section 1231 (b) (4) applies. Such term also includes livestock (but not poultry) held for draft, breeding, or dairy purposes and held for 12 months or more from the date of acquisition.

Section 1231 provides special treatment for the gains and losses upon the sale or exchange of "property used in the trade or business" and upon the compulsory or involuntary conversion of (1) such property and (2) capital assets held for more than 6 months. Such gains and losses during the taxable year are treated as gains and losses from the sale or exchange of capital assets held for more than 6 months, if the aggregate of such gains exceeds the aggregate of such losses. If, however, such gains do not exceed such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets.

In determining whether gains do or do not exceed losses, it is necessary to include the gains and losses to the extent that they would be included if they were all ordinary gains and losses. The limitation of section 1211 on the deductibility of capital losses does not operate to exclude any such losses from the computation as to the excess of gains over losses, but all such losses are included in full.

For special treatment of gain or loss upon the cutting of timber, or upon the disposal of timber or coal under a contract by which the owner retains an economic interest in such timber or coal, see section 631.

Short sales of capital assets.—For rules regarding tax consequences of certain short sales of stock or other securities (including those dealt with on a "when issued" basis), and transactions in commodity futures, see section 1233.

#### CORPORATION DECLARATION OF ESTIMATED INCOME TAX

1958

#### **INSTRUCTIONS**

(References are to Internal Revenue Code)

- 1. Purpose of Declaration.—This declaration provides a basis for paying currently a portion of the income tax for the taxable year. Every corporation must file an annual income tax return after the close of its taxable year. At that time the balance of tax due on the year's income over and above the amount paid as estimated tax must be paid in a single payment on or before the 15th day of the third month following the close of the taxable year or in two installments, 50 percent on or before the date prescribed for payment as a single payment, and 50 percent on or before the 15th day of the sixth month following the close of the taxable year.
- 2. Corporations Which Must Make a Declaration.—A declaration of estimated tax must be made by every corporation if its income tax for the taxable year can reasonably be expected to exceed \$100,000 plus the amount of any estimated credits against tax. This applies to corporations which are subject to income tax under section 11 or 1201 (a), or subchapter L of chapter 1. In the case of affiliated corporations filing a consolidated return, see consolidated returns regulations.
- 3. Short Taxable Year.—A separate declaration is required where a corporation is required to submit an income tax return for a period of less than 12 months. No declaration need be filed if—

(a) the taxable year is a short period of less than 9 months, or
(b) the taxable year is a short period of 9 or more months and the requirements specified in Instruction 2 are first met after the first day of the last month in the short taxable year.

If a short taxable year results from a change of annual accounting period, the income must be placed on an annual basis in accordance with section 443 (b) (1) for the purpose of determining whether a declaration must be filed.

The declaration must be filed.

The declaration shall be completed by applying the statutory exemption and estimated credits on line 2 against the annualized estimated tax and reducing the result in accordance with the number of months in the short taxable year.

4. When and Where To File.—The declaration of estimated tax must be filed on or before the 15th day of the ninth month of the taxable year. If, however, the requirements specified in Instruction 2 are first met after the last day of the eighth month of the taxable year and before the first day of the 12th month of the taxable year, the declaration must be filed on or before the 15th day of such 12th month. For short taxable years see section 6074 and the regulations thereunder. The declaration must be filed with the District Director of Internal Revenue for the district in which the corporation expects to file its income tax return.

- 5. Amended Declarations.—In making a declaration, the taxpayer os. Amended Declarations.—In making a declaration, the taxpayer must take into account the then existing facts and circumstances as well as those reasonably anticipated relating to prospective gross income, allowable deductions, and estimated credits for the taxable year. Amended or revised declarations may be made in any case in which the taxpayer estimates that its gross income, deductions, or credits will materially change the estimated tax reported in the previous declaration. An amended declaration may be made on Form 1120-ES, marked "Amended" or on the reverse side of the Notice of Final Installment 'Amended," or on the reverse side of the Notice of Final Installment, and filed with the District Director for the district in which the original declaration was filed. An amended declaration of estimated tax may be filed at any time on or before the 15th day of the 12th month (last month in case of a short taxable year) of the taxable year. The installment payable on the 15th day of such 12th month shall be increased or decreased, as the case may be, so as to reflect the revised estimated tax.
- 6. Amount To Be Paid.—For taxable years ending on or after December 31, 1958, and before December 31, 1959, every corporation having estimated income tax, i. e., a balance as shown on line 3, Form 1120-ES, must pay 40 percent of the estimated tax.
- 7. Time for Payment.—A corporation using the calendar year basis, which meets the requirements specified in Instruction 2 before September 1 of the taxable year, must pay a first installment of 20 percent of the estimated tax on or before September 15 and a second installment of 20 percent on or before December 15. Any installment may be paid ot 20 percent on or before December 15. Any installment may be paid before the due date. If, however, a corporation is not required to file its declaration on or before September 15, but is required to file on or before December 15, the full 40 percent of the estimated tax must be paid with the December 15 declaration. Check or money order in payment of the tax should be made payable to "Internal Revenue Service."

  Fiscal year taxpayers substitute the 15th day of the ninth month of the fiscal year for September 15 and the 15th day of the 12th month for December 15.

for December 15.

Short taxable year taxpayers must substitute the 15th day of the 9th month of the taxable year for September 15 and the 15th day of the last month for December 15.

8. Failure To Pay.-Underpayment of installments of estimated tax will result in additional charges for the period from the due date of each installment until paid, or until the due date for filing the tax return, whichever is the earlier. (For exceptions, see section 6655 and the regulations thereunder.)
